10 most influential diversity leaders in history: Transcending Equality, Diversity and Inclusion at Work Marguerite L Weber, Hugo Gaggiotti, 2024-06-07 The book reflects on ways of transcending Equality, Diversity and Inclusion (EDI) by establishing a dialogue between the professional experience of the authors and experts from academia and practitioners from financial

services and executive search. The book emphasises the link and impact between what is taught and what is learned about EDI and how this reflects on later choices in career and workplace status. The book offers a critical and global perspective, emphasizing the multilocality and intersectionality dimension of diversity and unpicks key insights from different conceptualizations, like class, gender and postcolonialism and their relationship with the current paradigm of diversity and how people identify and communicate. With an extensive collection of testimonies and invitations for reflection, the book doesn't limit the analysis to the influences of historical power relations in the workplace, but investigates at what stage multicultural power structures start developing a compulsory inclination to create "differences" and how this can influence hiring decision making and management in the workplace. In the book, academics and practitioners provide illumination and insights gleaned from their own personal experiences and perspectives. Whilst the research targeted financial services and executive search, the book's findings will appeal globally to individuals of all age groups regardless of educational status, seniority or in which industry they are employed, particularly those who are aware of how each one expresses similarity and differences sometimes in not obvious ways.
