1 man 1 jar interview: The Jarmusch Way Julian Rice, 2012-10-12 Since the early 1980s, Jim Jarmusch has produced a handful of idiosyncratic films that have established him as one of the most imaginatively allusive directors in the history of American cinema. Three of his films—*Dead Man* (1995), *Ghost Dog* (1999), and *The Limits of Control* (2009)—demonstrate the director's unique take on Eastern and Aboriginal spirituality. In particular, they reflect Jarmusch's rejection of Western monotheism's fear-driven separation of life and death. While these films address historical issues of imperialism, colonialism, and genocide, they also demonstrate a uniquely spiritual form of resistance to conditions that political solutions have not resolved. The impact of *Dead Man*, *Ghost Dog*, and *The Limits of Control* cannot be fully felt without considering the multicultural sources from which the writer/director drew. In *The Jarmusch Way*, Julian Rice looks closely at these three films and explores their relation to Eastern philosophy and particular works of Western literature, painting, and cinema. This book also delves deeply into the films' association with Native American culture, a subject upon which Rice has written extensively. Though he has garnered a passionate following in some circles, Jarmusch remains critically underappreciated. Making a case that this director deserves far more serious attention than he has received thus far, *The Jarmusch Way* thoroughly discusses three of his most intriguing films.

1 man 1 jar interview: A Kitchen Painted in Blood Stephen H. Ahern, 2020-10-23 On October 24, 1961, Massachusetts wife and mother Joan Risch vanished seemingly into thin air. Even with her children home and neighbors nearby, Joan disappeared from her upscale suburban house, never to be heard from again. The search that followed was one of the most intensive investigations of its time, but detectives were unable to identify any suspects. Using extensive police casefiles and hundreds of newspaper articles written about the disappearance, this book carefully explores the story of Joan Risch and the investigation into her disappearance. With the assistance of a former FBI criminal profiler and an LA cold case detective, this book reports previously undisclosed facts from the investigation, including multiple witness statements. Also evaluated are the numerous theories on the disappearance, ultimately revealing a possible explanation of what happened to Joan Risch that fateful October afternoon.

1 man 1 jar interview: Palomino James J. Lorence, 2013-05-15 The first comprehensive biography of progressive labor organizer, peace worker, and economist Clinton Jencks (1918–2005), this book explores the life of one of the most important political and social activists to appear in the Southwestern United States in the twentieth century. A key figure in the radical International Union of Mine, Mill, and Smelter Workers (IUMMSW) Local 890 in Grant County, New Mexico, Jencks was involved in organizing not only the mine workers but also their wives in the 1951 strike against the Empire Zinc Company. He was active in the production of the 1954 landmark labor film dramatizing the Empire Zinc strike, *Salt of the Earth*, which was heavily suppressed during the McCarthy era and led to Jencks's persecution by the federal government. Labor historian James J. Lorence examines the interaction between Jencks's personal experience and the broader forces that marked the world and society in which he worked and lived. Following the work of Jencks and his equally progressive wife, Virginia Derr Jencks, Lorence illuminates the roots and character of Southwestern unionism, the role of radicalism in the Mexican-American civil rights movement, the rise of working-class feminism within Local 890 and the Grant County Mexican American community, and the development of Mexican-American identity in the Southwest. Chronicling Jencks's five-year-long legal battle against charges of perjury, this biography also illustrates how civil liberties and American labor were constrained by the specter of anticommunism during the Cold War. Drawing from extensive research as well as interviews and correspondence, this volume highlights Clinton Jencks's dramatic influence on the history of labor culture in the Southwest through a lifetime devoted to progress and change for the social good.

1 man 1 jar interview: *The Quick, the Dead and the Revived* Joseph Maddrey, 2016-06-20

For well more than a century, Western films have embodied the United States' most fundamental doctrine--expansionism--and depicted, in a uniquely American way, the archetypal battle between good and evil. Westerns also depict a country defined and re-defined by complex crises. World War II transformed the genre as well as the nation's identity. Since then, Hollywood filmmakers have been fighting America's ideological wars onscreen by translating modern-day politics into the timeless mythology of the Old West. This book surveys the most iconic and influential Westerns, examines Hollywood stars and their political stripes and reveals the familiar Western tropes--which became elements in popular action, science fiction and horror films. This then sets the stage for the Western revival of the 1990s and a period of reinvention in the 21st century. 1 man 1 jar interview: *Not Pretty Enough* Gerri Hirshey, 2016-07-12 In *Not Pretty Enough*, Gerri Hirshey reconstructs the life of Helen Gurley Brown, the trailblazing editor of *Cosmopolitan*, whose daring career both recorded and led to a shift in the sexual and cultural politics of her time. When Helen Gurley Brown's *Sex and the Single Girl* first appeared in 1962, it whistled into buttoned-down America like a bombshell: Brown declared that it was okay— even imperative—for unmarried women to have and enjoy a sex life, and that equal rights for women should extend to the bedroom and the workplace. “How dare you?” thundered newspapers, radio hosts, and (mostly male) citizens. But more than two million women bought the book and hailed her as a heroine. Brown was also pilloried as a scarlet woman and a traitor to the women's movement when she took over the failing Hearst magazine *Cosmopolitan* and turned it into a fizzy pink guidebook for “do-me” feminism. As the first magazine geared to the rising wave of single working women, it sold wildly. Today, more than 68 million young women worldwide are still reading some form of Helen Gurley Brown's audacious yet comforting brand of self-help. “HGB” wasn't the ideal poster girl for secondwave feminism, but she certainly started the conversation. Brown campaigned for women's reproductive freedom and advocated skill and “brazenry” both on the job and in the boudoir—along with serial plastic surgery. When she died in 2012, her front-page obituary in the *New York Times*

noted that though she succumbed at ninety, “parts of her were considerably younger.” Her life story is astonishing, from her roots in the Ozark Mountains of Arkansas, to her single-girl decade as a Mad Men-era copywriter in Los Angeles, which informed her first bestseller, to her years at the helm of Cosmopolitan. Helen Gurley Brown told her own story many times, but coyly, with plenty of camouflage. Here, for the first time, is the unvarnished and decoded truth about “how she did it”—from her comet-like career to “bagging” her husband of half a century, the movie producer David Brown. Full of firsthand accounts of HGB from many of her closest friends and rediscovered, little-known interviews with the woman herself, Gerri Hirshey’s *Not Pretty Enough* is a vital biography that shines new light on the life of one of the most vibrant, vexing, and indelible women of the twentieth century.

1 man 1 jar interview: Messy Tim Harford, 2016 Messiness adds benefits to our lives, so why do we resist the concept so? [The author] uses research from neuroscience, psychology and social science to explain why disorder, confusion, and disarray are actually lies at the core of how we innovate, how we achieve, how we reach each other. [The author] shows that the human inclination for tidiness can mask a deep and debilitating fragility that keep us from innovation.--

1 man 1 jar interview: *Enduring Courage* John F. Ross, 2025-09-23 The sensational true story of Eddie Rickenbacker, America's greatest flying ace At the turn of the twentieth century two new technologies—the car and airplane—took the nation's imagination by storm as they burst, like comets, into American life. The brave souls that leaped into these dangerous contraptions and pushed them to unexplored extremes became new American heroes: the race car driver and the flying ace. No individual did more to create and intensify these raw new roles than the tall, gangly Eddie Rickenbacker, who defied death over and over with such courage and pluck that a generation of Americans came to know his face better than the president's. The son of poor, German-speaking Swiss immigrants in Columbus, Ohio, Rickenbacker overcame the specter of his father's violent death, a debilitating handicap, and, later, accusations of being a German spy, to become the American military ace of aces in World War I and a Medal of Honor recipient. He and his high-spirited, all-too-short-lived pilot comrades, created a new kind of aviation warfare, as they pushed their machines to the edge of destruction—and often over it—without parachutes, radios, or radar. *Enduring Courage* is the electrifying story of the beginning of America's love affair with speed—and how one man above all the rest showed a nation the way forward. No simple daredevil, he was an innovator on the racetrack, a skilled aerial dualist and squadron commander, and founder of Eastern Air Lines. Decades after his heroics against the Red Baron's Flying Circus, he again showed a war-weary nation what it took to survive against nearly insurmountable odds when he and seven others endured a harrowing three-week ordeal adrift without food or water in the Pacific during World War II. For the first time, *Enduring Courage* peels back the layers of hero to reveal the man himself. With impeccable research and a gripping narrative, John F. Ross tells the unforgettable story of a man who pushed the limits of speed, endurance and courage and emerged as an American legend.

1 man 1 jar interview: The Up Stairs Lounge Arson Clayton Delery-Edwards, 2014-06-19 On June 24, 1973, a fire in a New Orleans gay bar killed 32 people. This still stands as the deadliest fire in the city's history. Though arson was suspected, and though the police identified a likely culprit, no arrest was ever made. Additionally, government and religious leaders who normally would have provided moral leadership at a time of crisis were either silent or were openly disdainful of the dead, most of whom were gay men. Based upon review of hundreds of primary and secondary sources, including contemporary news accounts, interviews with former patrons of the lounge, and the extensive documentary trail left behind by the criminal investigations, *The Up Stairs Lounge Arson* tells the story of who used to go to this bar, what happened on the day of the fire, what course the investigations took, why an arrest was never made, and what the lasting effects of the fire have been.

1 man 1 jar interview: *The Hong Kong Modernism of Leung Ping-kwan* C. T. Au, 2019-11-29

This book resolves around the fundamental question, "What is Hong Kong modernism?" To address this issue, C.T. Au identifies three significant characteristics: a renewal of traditions, an obsession with ordinary things, and an expression of concerns about social and political issues, shared among Western modernisms, Chinese modernism in the 1940s, and such Hong Kong modernists as Ma Lang, Liu Yichang, and Leung Ping-kwan (Yasi/Ye Si). This research concentrates on an examination of the major modernist tenets embodied in Leung's literary works. Leung Ping-kwan is one of the most prominent and widely read Hong Kong modernist writers; however, there exist only a few scholarly works which focus on the direct relationship between Leung's works and modernisms. The author argues that Leung paid special attention to issues regarding tradition, daily life, and colonial culture in order to understand his past, his identity, and the unique features of Hong Kong modernism, which celebrate multiple perspectives and inclusiveness. This study not only helps differentiate Hong Kong modernism from other modernisms—positioning the former as a variant of the latter—but also provides a response to the problems evoked by Hong Kong's colonial milieu.

1 man 1 jar interview: Clarence Brown Gwenda Young, 2018-11-23 Greta Garbo proclaimed him as her favorite director. Actors, actresses, and even child stars were so at ease under his direction that they were able to deliver inspired and powerful performances.

Academy-Award-nominated director Clarence Brown (1890–1987) worked with some of Hollywood's greatest stars, such as Clark Gable, Joan Crawford, Mickey Rooney, Katharine Hepburn, and Spencer Tracy. Known as the star maker, he helped guide the acting career of child sensation Elizabeth Taylor (of whom he once said, she has a face that is an act of God) and discovered Academy-Award-winning child star Claude Jarman Jr. for *The Yearling* (1946). He directed more than fifty films, including *Possessed* (1931), *Anna Karenina* (1935), *National Velvet* (1944), and *Intruder in the Dust* (1949), winning his audiences over with glamorous star vehicles, tales of families, communities, and slices of Americana, as well as hard-hitting dramas. Although Brown was admired by peers like Jean Renoir, Frank Capra, and John Ford, his illuminating work and contributions to classic cinema are rarely mentioned in the same breath as those of Hollywood's great directors. In this first full-length account of the life and career of the pioneering filmmaker, Gwenda Young discusses Brown's background to show how his hardworking parents and resilient grandparents inspired his entrepreneurial spirit. She reveals how the one-time engineer and World War I aviator established a thriving car dealership, the Brown Motor Car Company, in Alabama—only to give it all up to follow his dream of making movies. He would not only become a brilliant director but also a craftsman who was known for his innovative use of lighting and composition. In a career spanning five decades, Brown was nominated for five Academy Awards and directed ten different actors in Oscar-nominated performances. Despite his achievements and influence, however, Brown has been largely overlooked by film scholars. *Clarence Brown: Hollywood's Forgotten Master* explores the forces that shaped a complex man—part-dreamer, part-pragmatist—who left an indelible mark on cinema.
