Sample Verbal Reasoning Question

Question: If all roses are flowers and some flowers fade quickly, which of the following is true?

- All roses fade quickly.
- Some roses fade quickly.
- Some flowers do not fade quickly.
- No flowers fade quickly.

Solution: Since all roses are flowers and only some flowers fade quickly, it cannot be concluded that all roses fade quickly. However, it is possible that some roses fade quickly. Also, "some flowers do not fade quickly" is logically true because only some flowers fade quickly. The correct answer is that some flowers do not fade quickly.

Sample Numerical Reasoning Question

Question: What is the next number in the sequence: 2, 6, 12, 20, 30, ?

Solution: The pattern shows the sequence of numbers increasing by 4, 6, 8, 10, respectively. Adding 12 to the last number 30 gives 42. Therefore, the next number is 42.

Sample Abstract Reasoning Question

Question: Identify the figure that completes the series: square, triangle, square, triangle, ?

Solution: The figures alternate between square and triangle. Following this pattern, the next figure should be a square.
