

20 duke medicine circle

20 duke medicine circle represents a significant location within the Duke Medicine complex, known for its advanced healthcare services and research facilities. This address is a pivotal part of Duke University Health System's infrastructure, offering access to specialized medical care, cutting-edge treatments, and academic medical research. The area surrounding 20 duke medicine circle is thoughtfully designed to support patients, visitors, and healthcare professionals alike, creating an environment conducive to healing and innovation. Understanding the key features, services, and accessibility of 20 duke medicine circle is essential for patients seeking care and professionals engaging with Duke Medicine. This article explores the location's importance, services offered, logistical information, and tips for visitors and patients. The following table of contents outlines the main areas covered.

- Overview of 20 Duke Medicine Circle
- Medical Services Available
- Facilities and Infrastructure
- Accessibility and Transportation
- Patient and Visitor Information

Overview of 20 Duke Medicine Circle

20 duke medicine circle is a central address within the Duke University Health System, located in Durham, North Carolina. It serves as a hub for various clinical departments and outpatient services

associated with Duke Medicine. The location plays an essential role in supporting both patient care and medical education, providing a bridge between research initiatives and clinical applications. Situated within a larger medical campus, 20 duke medicine circle is strategically positioned to facilitate collaboration among physicians, researchers, and healthcare staff.

Location and Surrounding Area

The site is located near key Duke University health campuses and is surrounded by several specialized medical buildings, research centers, and patient care facilities. The proximity to Duke University Hospital and other ancillary services enhances the seamless delivery of healthcare and medical education. The surrounding infrastructure includes green spaces, parking facilities, and well-maintained pedestrian pathways, contributing to a patient-friendly atmosphere.

Role Within Duke Medicine

As part of the Duke Medicine network, 20 duke medicine circle supports outpatient clinics and specialty services that complement inpatient care provided at Duke University Hospital. It functions as a multidisciplinary center, facilitating consultations, diagnostics, and treatment planning across various medical specialties. This integration ensures continuity of care and supports Duke Medicine's commitment to excellence in patient outcomes and medical research.

Medical Services Available

At 20 duke medicine circle, a wide range of medical services and specialties are available to patients. These services are designed to address complex health conditions with a focus on personalized care, advanced diagnostics, and therapeutic interventions. The location is equipped to handle consultations, follow-up care, and various outpatient procedures within several medical disciplines.

Specialty Clinics

The specialty clinics at 20 duke medicine circle encompass areas such as cardiology, oncology, neurology, orthopedics, and endocrinology. Each clinic is staffed by board-certified physicians and trained healthcare professionals who utilize the latest technologies and treatment protocols. These clinics provide comprehensive evaluations, diagnostic testing, and treatment plans tailored to individual patient needs.

Diagnostic and Imaging Services

Diagnostic capabilities at 20 duke medicine circle include advanced imaging modalities such as MRI, CT scans, ultrasound, and X-rays. These services support accurate diagnosis and treatment monitoring. The availability of on-site diagnostic testing streamlines patient care by reducing wait times and facilitating timely clinical decisions.

Outpatient Procedures and Therapies

Various outpatient procedures, including minor surgical interventions, biopsies, and infusion therapies, are performed at this location. Physical therapy and rehabilitation services are also accessible, enabling patients to recover and regain function under expert supervision. These offerings contribute to comprehensive care without requiring hospital admission.

Facilities and Infrastructure

The infrastructure at 20 duke medicine circle is designed to support high standards of healthcare delivery and patient comfort. The building incorporates modern architectural elements with functional spaces that enhance clinical efficiency and patient experience. State-of-the-art technology and amenities ensure that both patients and staff benefit from a well-organized environment.

Patient-Centered Design

The facility prioritizes patient comfort through spacious waiting areas, private consultation rooms, and accessible restrooms. Attention to natural lighting and calming interior design elements helps reduce patient stress and promote a healing atmosphere. Signage and wayfinding are clear to facilitate easy navigation throughout the premises.

Technology Integration

20 duke medicine circle utilizes cutting-edge medical equipment and electronic health record systems to provide seamless care coordination. Telemedicine capabilities allow for virtual consultations when appropriate, expanding access to specialized care. The integration of technology supports both clinical excellence and operational efficiency.

Support Services

Support services at the location include pharmacy access, billing and insurance assistance, and patient education resources. These services ensure that patients receive comprehensive support throughout their care journey, from appointment scheduling to treatment follow-up and financial counseling.

Accessibility and Transportation

Accessibility is a critical aspect of 20 duke medicine circle, ensuring that patients and visitors can reach the facility conveniently and safely. The location is well-served by public transportation, parking options, and pedestrian access routes, accommodating a diverse range of mobility needs.

Parking Facilities

Multiple parking lots and garages are available near 20 duke medicine circle, with designated spaces for patients, visitors, and staff. Handicap-accessible parking spots are prominently located close to building entrances. Clear signage directs drivers to available parking areas, enhancing convenience.

Public Transit Options

Durham's public transit system includes bus routes that stop near Duke Medicine facilities, including 20 duke medicine circle. These options provide cost-effective and eco-friendly transportation alternatives for patients and employees. Schedules and route information are coordinated with hospital hours to facilitate timely arrivals and departures.

Pedestrian and Mobility Access

The site features wheelchair-accessible ramps, automatic doors, and elevators, ensuring compliance with the Americans with Disabilities Act (ADA). Walking paths connect 20 duke medicine circle with adjacent buildings and campus amenities, promoting ease of movement for all visitors. Mobility assistance services are available upon request to support those with special needs.

Patient and Visitor Information

Effective communication and support for patients and visitors are integral to the operations at 20 duke medicine circle. Clear information, helpful staff, and available resources contribute to a positive healthcare experience from arrival to departure.

Appointment Scheduling and Check-In

Appointments at 20 duke medicine circle can be scheduled through Duke Medicine's centralized

system, offering flexibility and convenience. Upon arrival, patients check in at designated reception areas staffed by knowledgeable personnel who assist with paperwork and direct patients to appropriate clinical areas.

Visitor Guidelines

Visitors to the facility are welcomed during specified hours with guidelines designed to maintain patient safety and comfort. Infection control measures, including mask requirements and visitor limitations during certain periods, are communicated clearly. Visitor amenities include waiting lounges, restrooms, and refreshment areas.

Patient Education and Resources

20 duke medicine circle provides educational materials and counseling services to help patients understand their conditions and treatment options. Support groups, language assistance, and financial counseling are available to address diverse patient needs. These resources empower patients to actively participate in their healthcare decisions.

Important Tips for First-Time Visitors

- Arrive at least 15 minutes before the scheduled appointment to complete necessary administrative procedures.
- Bring a valid photo ID and insurance information for registration.
- Prepare a list of current medications and any relevant medical history to share with healthcare providers.
- Utilize parking facilities near the entrance for easier access, especially if mobility is a concern.

- Contact the patient services desk in advance for any special accommodations or questions.

Top experts provide focused discussions on the metabolic and medical aspects of kidney stone management as well as advances in surgical therapies. - Contains 14 relevant, practice-oriented topics, including non-pharmacologic methods of stone risk reduction: diet and supplements; laser lithotripsy strategies; robotic surgery for stone disease; quality of life measures for kidney stone patients; AI and machine-based learning for stone management; and much more - Provides in-depth clinical reviews on medical and surgical management of urolithiasis, offering actionable insights for clinical practice - Presents the latest information on this timely, focused topic under the leadership of experienced editors in the field. Authors synthesize and distill the latest research and practice guidelines to create clinically significant, topic-based reviews

20 duke medicine circle: *Aging* , 1965

20 duke medicine circle: *Dr. John Moore, 1729-1802* Henry L. Fulton, 2014-12-24 This book is the first biography of Scottish-born physician John Moore. Here, Henry L. Fulton recounts Moore's childhood, education, and medical training in Glasgow and abroad; discusses his marriage, family, and friendships (particularly with Tobias Smollett); and depicts his professional practice in the north. The narrative uncovers Moore's transformative experience accompanying a young nobleman on the Grand Tour through Europe and provides a detailed account of the journey's highlights and difficulties. When Moore returns, he moves his family to London to begin a second career in literature and to acquire patronage for his sons' professions. In this biography Fulton covers not only Moore's publications but also discusses his circle of friends among nobility, politicians, artists, and others. Also discussed is Moore's involvement in the French Revolution, his correspondence with Robert Burns, and his strained family relationships. Additionally presented here is new information regarding Moore's finances drawn from archival records in Glasgow and Edinburgh and his bank ledgers in London.

20 duke medicine circle: *British Medical Journal* , 1873

20 duke medicine circle: *Cultures of Witchcraft in Europe from the Middle Ages to the Present* Jonathan Barry, Owen Davies, Cornelie Usborne, 2017-10-09 This volume is a collection based on the contributions to witchcraft studies of Willem de Blécourt, to whom it is dedicated, and who provides the opening chapter, setting out a methodological and conceptual agenda for the study of cultures of witchcraft (broadly defined) in Europe since the Middle Ages. It includes contributions from

historians, anthropologists, literary scholars and folklorists who have collaborated closely with De Blécourt. Essays pick up some or all of the themes and approaches he pioneered, and apply them to cases which range in time and space across all the main regions of Europe since the thirteenth century until the present day. While some draw heavily on texts, others on archival sources, and others on field research, they all share a commitment to reconstructing the meaning and lived experience of witchcraft (and its related phenomena) to Europeans at all levels, respecting the many varieties and ambiguities in such meanings and experiences and resisting attempts to reduce them to master narratives or simple causal models. The chapter 'News from the Invisible World: The Publishing History of Tales of the Supernatural c.1660-1832' is available open access under a CC BY 4.0 license at link.springer.com.

20 duke medicine circle: *Transactions of the Southern Surgical Association* Southern Surgical Association (U.S.), 1955 List of members in each vol.

20 duke medicine circle: William Shakespeare William Shakespeare, 1989-05-19 But thy eternal summer shall not fade Nor lose possession of that fair thou ow'st; Nor shall Death brag thou wander'st in his shade, When in eternal lines to time thou grow'st: So long as men can breathe, or eyes can see, So long lives this, and this gives life to thee. -- from Sonnet 18 No home should be without this: every play, from the early histories to the sad, wise Winter's Tale and The Tempest; every exquisitely crafted sonnet; every long poem (such as Venus and Adonis and The Rape of Lucrece) written by the greatest writer in the English language. This edition of the Bard of Avon's complete works is a facsimile of the definitive Shakespeare Head edition published originally in Oxford, England. All the plays are arranged in chronological order of their composition, rather than by genre, so that the evolution of Shakespeare's monumental genius can be more easily followed and appreciated.
