

beyond the law 1993 cast

beyond the law 1993 cast refers to the talented ensemble of actors who brought to life the gritty crime drama film released in 1993. This movie, known for its intense storyline and compelling performances, features a diverse group of actors whose portrayals contributed significantly to its impact and reception. Understanding the beyond the law 1993 cast provides insight into the film's narrative depth and character development. This article delves into the primary and supporting actors, their roles, and the significance of their performances. Additionally, it explores the background of key cast members and how their careers intersected with this notable film. The comprehensive analysis also touches upon the film's production context and its place in early 1990s cinema. Below is the outline of the topics covered in this article.

- Main Cast of Beyond the Law (1993)
- Supporting Cast and Notable Cameos
- Character Analysis and Actor Contributions
- Background on Key Cast Members
- Impact of the Cast on the Film's Reception

Main Cast of Beyond the Law (1993)

The beyond the law 1993 cast features a number of prominent actors who played the central roles in the film's narrative. The main cast is responsible for driving the plot and providing the emotional core of the story. Their performances are critical to the film's success and have been widely recognized in discussions of 1990s crime dramas.

Charlie Sheen as Jon Book

Charlie Sheen stars as Jon Book, the film's protagonist. His role as an undercover cop navigating the dangerous world of organized crime showcases his ability to portray complex characters caught between moral dilemmas. Sheen's performance is noted for its intensity and authenticity, which anchors the film's dramatic tension.

Lance Henriksen as Captain Marcus

Lance Henriksen plays Captain Marcus, a pivotal character representing law enforcement authority. Henriksen brings a commanding presence to the role, delivering a nuanced portrayal of a man

balancing duty and ethical challenges within the police force. His interaction with other characters adds depth to the film's exploration of justice and corruption.

Ted Levine as Cassidy

Ted Levine appears as Cassidy, a key figure within the criminal underworld depicted in *beyond the law 1993*. Levine's gritty and menacing portrayal contributes to the film's dark atmosphere and heightens the stakes faced by the protagonist. His performance is often highlighted as a standout among the supporting roles.

Supporting Cast and Notable Cameos

Alongside the main actors, the *beyond the law 1993* cast includes several supporting performers and cameo appearances that enrich the film's setting and storyline. These actors provide critical narrative support and help to flesh out the world in which the story unfolds.

Robert Davi as Nicky

Robert Davi plays Nicky, a character emblematic of the criminal elements within the film. Davi's portrayal is marked by a blend of charm and menace, lending credibility to the criminal networks depicted.

Michael Parks as Lieutenant

Michael Parks takes on the role of a police lieutenant, contributing to the law enforcement perspective in the film. Parks' seasoned acting brings professionalism and realism to his character, further grounding the film's depiction of police operations.

Additional Supporting Actors

- William Forsythe as Detective
- Peter Boyle in a minor role
- David Anthony Marshall as a criminal associate

Each supporting actor adds layers to the narrative, making the criminal and police worlds more

immersive and believable.

Character Analysis and Actor Contributions

The beyond the law 1993 cast's strength lies in their ability to convey complex character motivations and relationships. This section explores how the actors' performances contributed to the film's thematic depth and storytelling effectiveness.

Jon Book's Moral Conflict

Charlie Sheen's portrayal of Jon Book highlights the internal struggle of an undercover officer torn between loyalty and survival. His nuanced performance captures the psychological toll of living a double life, making the character relatable and compelling.

Authority and Corruption

Lance Henriksen's Captain Marcus embodies the duality within law enforcement—representing both integrity and the challenges of systemic corruption. Henriksen's subtle acting choices reveal the complexities of leadership in a morally ambiguous environment.

The Criminal Element

Actors like Ted Levine and Robert Davi provide a credible depiction of the criminal underworld. Their performances emphasize the danger and unpredictability faced by the protagonist, reinforcing the film's suspenseful tone.

Background on Key Cast Members

Understanding the professional histories of the beyond the law 1993 cast members sheds light on their casting and the film's production choices. Many of these actors brought extensive experience from similar genres, enhancing their performances.

Charlie Sheen's Career Context

By 1993, Charlie Sheen was already established as a versatile actor with roles in both drama and action genres. His involvement in beyond the law added to his repertoire of intense, character-driven films during the early 1990s.

Lance Henriksen's Genre Expertise

Lance Henriksen had a strong track record in science fiction and thriller films, which contributed to his ability to portray complex authority figures. His casting aligned well with the film's dark and gritty tone.

Ted Levine's Acting Range

Ted Levine was known for his powerful performances in psychological thrillers and crime dramas. His role in *Beyond the Law* benefited from this background, adding a layer of menace to the criminal characters.

Impact of the Cast on the Film's Reception

The *Beyond the Law* 1993 cast played a significant role in shaping the film's critical and audience reception. Their performances were frequently cited in reviews and retrospectives as a key element of the film's enduring appeal.

Critical Acclaim for Performances

Many critics praised the *Beyond the Law* 1993 cast for their realistic and gripping portrayals. The chemistry among the actors enhanced the film's tension and emotional impact, elevating it above typical crime dramas of the era.

Audience Engagement

The cast's ability to embody authentic characters contributed to strong audience engagement. Viewers connected with the struggles and conflicts depicted, partly due to the convincing performances delivered by the ensemble.

Legacy of the Cast

The *Beyond the Law* 1993 cast remains notable within the filmography of each actor, often referenced in discussions about their career highlights. Their collaboration on this film is recognized as a defining moment for the crime drama genre in the early 1990s.

beyond the law 1993 cast: Space, Power and the Commons Samuel Kirwan, Leila Dawney, Julian Brigstocke, 2015-10-23 Across the globe, political movements opposing privatisation, enclosures, and other spatial controls are coalescing towards the idea of the 'commons'. As a result, struggles over the commons and common life are now coming to the forefront of both political activism and scholarly enquiry. This book advances academic debates concerning the spatialities of the commons and draws out the diverse materialities, temporalities, and experiences of practices of commoning. Part one, Materialising the Commons focuses on the performance of new geographical imaginations in spatial and material practices of commoning. Part two, Spaces of Commoning, explores the importance of the turn from 'commons' to 'commoning', bringing together chapters focusing on the doing of commons, and how spaces, materials, bodies and abstract flows are intertwined in these complex and excessive processes. Part three, An Expanded Commons, explores the broader registers and spaces in which the concept of the commons is at stake and highlights how and where the commons can open new areas of action and research. Part four, The Capture of the Commons, questions the particular interdependence of 'the commons' and 'enclosure' assumed within commons literature framed by the concept of neoliberalism. Providing a comprehensive introduction to the diverse ways in which ideas of the commons are being conceptualised and enacted both throughout the social sciences and in practical action, this book foregrounds the commons as an arena for political thought and sets an agenda for future research.

beyond the law 1993 cast: Obituaries in the Performing Arts, 2019 Harris M. Lentz III, 2020-10-28 The entertainment world lost many notable talents in 2019, including television icon Doris Day, iconic novelist Toni Morrison, groundbreaking director John Singleton, Broadway starlet Carol Channing and lovable Star Wars actor Peter Mayhew. Obituaries of actors, filmmakers, musicians, producers, dancers, composers, writers, animals and others associated with the performing arts who died in 2019 are included in this edition. Date, place and cause of death are provided for each, along with a career recap and a photograph. Filmographies are given for film and television performers.

beyond the law 1993 cast: The Queer Outside in Law Senthoran Raj, Peter Dunne, 2020-11-30 This book contributes to current debates about "queer outsiders" and "queer outsidings" that emerge from tensions in legal reforms aimed at improving the lives of lesbian, gay, bisexual, transgender, intersex, and queer people in the United Kingdom. LGBTIQ people in the UK have moved from being situated as "outlaws" - through prohibitions on homosexuality or cross-dressing - to respectable "in laws" - through the emerging acceptance of same-sex families and self-identified genders. From the partial decriminalisation of homosexuality in the Sexual Offences Act 1967, to the provision of a bureaucratic mechanism to amend legal sex in the Gender Recognition Act 2004, bringing LGBTIQ people "inside" the law has prompted enormous activist and academic commentary on the desirability of inclusion-focused legal and social reforms. Canvassing an array of current socio-legal debates on colonialism, refugee law, legal gender recognition, intersex autonomy and transgender equality, the contributing authors explore "queer outsiders" who remain beyond the law's reach and outline the ways in which these outsiders might seek to "come within" and/or "stay outside" law. Given its scope, this modern work will appeal to legal scholars, lawyers, and activists with an interest in gender, sex, sexuality, race, migration and human rights law.

beyond the law 1993 cast: International Practice of Law Nedim Vogt, 1997-01-01 This liber

amicorum celebrates the sixtieth birthday of Thomas Bauml and Robert Karrer, who set up their international law practice more than 28 years ago. Contributions in the book are from outstanding practitioners and scholars in the field of international law, many of whom are experienced authors. The *liber amicorum* comprises sixteen articles on topics ranging from business law to arbitration and from a global perspective.

beyond the law 1993 cast: Community and the Law Takao Tanase, 2010-01-01 Takao Tanase seamlessly combines sociolegal and philosophical analysis as he explores the tensions between individual legal rights and communitarian values in settings ranging from post-divorce visitation rights to tort liability, lawyer client relationships, and rising litigation rates. Contrasting Japan with the individualistic thrust of American law, Tanase stresses the importance of building legal processes that encourage stronger social and communal bonds. Students of law and society on all continents will find rich food for thought in this intellectually bold and intriguing volume. Robert A. Kagan, University of California, Berkeley, US Takao Tanase's *Community and the Law* is a path breaking and often surprising interpretation of legal culture in Japan which includes subtle analyses of the changing role of lawyers and courts and the extent to which modernity and reliance on law are interlinked. But it is much more than that. His reflections on the different way law responds to social dilemmas in Japan and the USA are the building blocks of a much more ambitious project no less than constructing a coherent account of what law can and should do to maintain communal ties in postmodern times. The book is a pleasure to read for its learning and sophistication. Nottage and Wolff also deserve high praise for their light touch as editors and translators. David Nelken, University of Cardiff, UK and University of Macerata, Italy This important book translates seven landmark essays by one of Japan's most respected and influential legal thinkers. While Takao Tanase concedes that law might not matter as much in Japan as it does in the United States, in a provocative challenge to socio-legal researchers and comparative lawyers, he asks: why should it? The issue, he contends, is not whether law matters to society; it is how society matters to law. Developing a descriptive and normative theory of community and the law, the author directly challenges the view that legal liberalism represents the pinnacle of legal achievement. He criticises liberalism for destroying community in the United States and for offering false hope for a delayed modernity in Japan. By applying a distinctive interpretivist methodology, he constructs a communitarian model of law and society that serves as an alternative to legal liberalism. The book challenges conventional understandings of such legal sociological staples as torts, lawyers ethics, family law, human rights, constitutionalism and litigiousness. This fascinating book will prove a stimulating, thought provoking read for researchers and scholars of law, Japanese and American studies, sociology and jurisprudence.

beyond the law 1993 cast: The Encyclopedia of Hollywood Film Actors Barry Monush, 2003-04-01 For decades, *Screen World* has been the film professional's, as well as the film buff's, favorite and indispensable annual screen resource, full of all the necessary statistics and facts. Now *Screen World* editor Barry Monush has compiled another comprehensive work for every film lover's library. In the first of two volumes, this book chronicles the careers of every significant film actor, from the earliest silent screen stars - Chaplin, Pickford, Fairbanks - to the mid-1960s, when the old studio and star systems came crashing down. Each listing includes: a brief biography, photos from the famed *Screen World* archives, with many rare shots; vital statistics; a comprehensive filmography; and an informed, entertaining assessment of each actor's contributions - good or bad! In addition to every major player, Monush includes the legions of unjustly neglected troupers of yesteryear. The result is a rarity: an invaluable reference tool that's as much fun to read as a scandal sheet. It pulsates with all the scandal, glamour, oddity and glory that was the lifeblood of its subjects. Contains over 1 000 photos!

beyond the law 1993 cast: DVD & Video Guide 2005 Mick Martin, Marsha Porter, 2004 Wondering what video to rent tonight? This bestselling, fact-packed guide is the only sourcebook you and your family will ever need. Mick Martin and Marsha Porter steer you toward the winners and warn you about the losers. *DVD & Video Guide 2004* covers it all-more films than any other guide,

plus your favorite serials, B-Westerns, made-for-TV movies, and old television programs! Each entry, conveniently alphabetized for easy access, includes a summary, fresh commentary, the director, major cast members, the year of release, and the MPAA rating, plus a reliable Martin and Porter rating-from Five Stars to Turkey-so you'll never get caught with a clunker again!

beyond the law 1993 cast: Beyond Food Fights Christina L. Davis, 2001

beyond the law 1993 cast: Yearbook of International Humanitarian Law 2011 - Volume 14 Michael N. Schmitt, Louise Arimatsu, 2012-07-26 The Yearbook of International Humanitarian Law is the world's only annual publication devoted to the study of the laws governing armed conflict. It provides a truly international forum for high-quality, peer-reviewed academic articles focusing on this crucial branch of international law. Distinguished by contemporary relevance, the Yearbook of International Humanitarian Law bridges the gap between theory and practice and serves as a useful reference tool for scholars, practitioners, military personnel, civil servants, diplomats, human rights workers and students.

beyond the law 1993 cast: Legitimacy in International Law Rüdiger Wolfrum, Volker Röben, 2008-02-26 In recent years the question of the legitimacy of international law has been discussed quite intensively. Such questions are, for example, whether international law lacks legitimacy in general; whether international law or a part of it has yielded to the facts of power; whether adherence to international legal commitments should be subordinated to self-defined national interests; whether international law or particular rules of it – such as the prohibition of the use of armed force – have lost their ability to induce compliance (compliance pull); and what is the relevance of non-enforcement or failure to obey for the legitimacy of that particular international norm? This book contains fresh perspectives on these questions, offered at an international and interdisciplinary conference hosted by the Max Planck Institute for Comparative Law and International Law.

beyond the law 1993 cast: Enhancing Capabilities through Labour Law Supriya Routh, 2014-03-26 In 2002 the International Labour Organization issued a report titled 'Decent work and the informal economy' in which it stressed the need to ensure appropriate employment and income, rights at work, and effective social protection in informal economic activities. Such a call by the ILO is urgent in the context of countries such as India, where the majority of workers are engaged in informal economic activities, and where expansion of informal economic activities is coupled with deteriorating working conditions and living standards. This book explores the informal economic activity of India as a case study to examine typical requirements in the work-lives of informal workers, and to develop a means to institutionalise the promotion of these requirements through labour law. Drawing upon Amartya Sen's theoretical outlook, the book considers whether a capability approach to human development may be able to promote recognition and work-life conditions of a specific category of informal workers in India by integrating specific informal workers within a social dialogue framework along with a range of other social partners including state and non-state institutions. While examining the viability of a human development based labour law in an Indian context, the book also indicates how the proposals put forth in the book may be relevant for informal workers in other developing countries. This research monograph will be of great interest to scholars of labour law, informal work and workers, law and development, social justice, and labour studies.

beyond the law 1993 cast: Manitoba Law Journal: A Review of the Current Legal Landscape 2013 Volume 37(1) Darcy L. MacPherson, et al., The Manitoba Law Journal is a peer-reviewed journal founded in 1961. The MLJ's current mission is to provide lively, independent and high caliber commentary on legal events in Manitoba or events of special interest to our community. This issue has articles from a variety of contributing authors including: Amar Khoday, Ami Kotler, Brandon Trask, Bruce MacFarlane, Bryan P. Schwartz, Dale McFadzean, Darcy L. MacPherson, Delloyd J. Guth, Donn Short, Douglas D. Ferguson, Edward D. Brown, Eveline Milliken, Gord Mackintosh, Janelle Anderson, Jeffrey Oliphant, John Burchill, John Pozios, Lee Stuesser, M. Lynne Jenkins, Martha E. Simmons, Miranda Grayson, Philip Girard, Richard J. Chartier, Richard Wolson, Romeo

Dallaire, Sacha R. Paul, Sarah Buhler, Susan Noakes, and Trevor C. W. Farrow.

beyond the law 1993 cast: *Philosophy and the Criminal Law* Antony Duff, 1998-02-13 Five legal theorists discuss a range of questions on the nature of the philosophy of criminal law.

beyond the law 1993 cast: *Rights of Personality in Scots Law* Niall Whitty, 2014-02-08 Explores the law on rights of personality in Scotland compared to other jurisdictions Taking a comparative perspective, this book explores the trends and issues affecting the law on rights of personality in jurisdictions drawn from the families of common law, civilian law, and mixed legal systems. The main focus is on the private law of personality rights, with due regard paid to the impact of constitutional legislation and other instruments protecting human rights.

beyond the law 1993 cast: *Forms of Empire* Nathan K. Hensley, 2016-11-08 In *Forms of Empire*, Nathan K. Hensley shows how the modern state's anguished relationship to violence pushed writers to expand the capacities of literary form. The Victorian era is often imagined as an age of equipoise, but the period between 1837 and 1901 included more than two hundred separate wars. What is the difference, though, between peace and war? *Forms of Empire* unpacks the seeming paradoxes of the Pax Britannica's endless conflict, showing that the much vaunted equipoise of the nineteenth-century state depended on physical force to guarantee it. But the violence hidden in the shadows of all law --the violence of sovereign power itself--shuddered most visibly into being at the edges of law's reach, in the Empire, where emergency was the rule and death perversely routinized. This book follows some of the nineteenth century's most astute literary thinkers--George Eliot, Charles Dickens, Wilkie Collins, A.C. Swinburne, H. Rider Haggard, and Robert Louis Stevenson among them--as they wrestled with the sometimes sickening interplay between order and force, and generated new formal techniques to account for fact that an Empire built on freedom had death coiled at its very heart. In contrast to the progressive idealism we have inherited from the Victorians, the writers at the core of *Forms of Empire* moved beyond embarrassment and denial in the face of modernity's uncanny relation to killing. Instead they sought effects--free indirect discourse, lyric tension, and the idea of literary character itself--that might render thinkable the conceptual vertigoes of liberal violence. In the process, they touched up to the dark core of our post-Victorian modernity. Drawing on archival work, literary analyses, and a theoretical framework that troubles the distinction between historicist and formalist approaches, *Forms of Empire* links the Victorian period to the present and articulates a forceful vision of why literary thinking matters now.

beyond the law 1993 cast: *At the Edge of Law* Andrew Francis, 2016-04-15 Following significant changes in the legal profession since the 1980s, how do new organizational forms and actors at the edge of the law impact upon our understanding of the changing nature of the core values of mainstream legal professionalism? This methodological approach brings together a series of case studies built on original empirical research and focuses on those operating at the margins of legal professionalism in England and Wales. Also including comparative material on the US and Canada, the issues discussed are relevant for common law countries more generally and the analysis reveals the ways in which an increasingly fluid, fragmented and heterogeneous legal profession is responding to the challenges it faces in the early twenty-first century.

beyond the law 1993 cast: *Josef Fuchs on Natural Law* Mark Graham, 2002-10-25 Appointed by Pope John XXIII to the Pontifical Commission on Population, Family, and Birth, Fuchs ultimately found himself disappointed in his three years of service and spent the next thirty years exploring a broad array of issues pivotal to a reconstruction of Roman Catholic natural law theory. This is the first full-length analysis of Fuchs's efforts. Beginning historically by looking at Fuchs's writings and beliefs before the Pontifical Commission appointment, including his defense of natural law during the situation ethics debates of the 50s and 60s, the concept of personal salvation, and the status of nature and human nature, Graham moves to the intellectual conversion that inspired Fuchs to reconsider his concepts following the commission appointment. From there, Graham engages in a sustained critique of Fuchs's natural theory, addressing both the strengths and weaknesses to be found there and suggest possible avenues of development that would make a positive contribution to the ongoing quest to rehabilitate the Roman Catholic natural law theory that continues to dominate

the landscape of moral theology today.

beyond the law 1993 cast: *Effective Judicial Protection and the Environmental Impact Assessment Directive in Ireland* Aine Ryall, 2009-06-23 This work is concerned with enforcement of the Environmental Impact Assessment (EIA) directive in Ireland, and by extension, in the European Union more widely. As a case study it delves into the complex situation pertaining in Ireland. At a more general level it offers an up-to-date, theoretically rich and critically incisive examination of the enforcement of the EIA directive in Europe, with the main focus being on the role of the national courts in overseeing the correct application of the directive by the competent authorities via the judicial review process. The procedural requirements set down in the EIA directive are examined against the backdrop of the role played by the public in environmental decision-making. Amendments to the directive prompted by the Aarhus Convention are explained and their impact in practice is assessed. The core elements of the concept of effective judicial protection developed by the European Court of Justice are explored. Following an analysis of the EIA case law from the Irish Superior Courts to date, the work examines the extent to which Irish planning and administrative law meets the requirements of the principle of effective judicial protection and the access to justice provisions articulated in the Aarhus Convention.

beyond the law 1993 cast: *Who was Who on TV* Norman Chance, 2011-01-07 The information herein was accumulated of fifty some odd years. The collection process started when TV first came out and continued until today. The books are in alphabetical order and cover shows from the 1940s to 2010. The author has added a brief explanation of each show and then listed all the characters, who played the roles and for the most part, the year or years the actor or actress played that role. Also included are most of the people who created the shows, the producers, directors, and the writers of the shows. These books are a great source of trivia information and for most of the older folk will bring back some very fond memories. I know a lot of times we think back and say, Who was the guy that played such and such a role? Enjoy!

beyond the law 1993 cast: *Shareholder Activism and the Law* Ekrem Solak, 2020-05-04 This book provides a complete framework for contemporary shareholder activism and its implications for US corporate governance, which is based on director primacy theory. Under director primacy theory, shareholders do not wish to be involved in the management of the company; in the rare event that they wish to be involved, it is considered a transfer of power from the board of directors to shareholders, which in turn reduces the efficiency of centralised decision-making in public companies. However, this book demonstrates that shareholders do not use their power to transfer corporate control from the board to themselves, and that some form of shareholder activism is even collaborative, which is a new paradigm for US corporate governance. This book shows that while monitoring remains a key contribution of shareholders, they also bring new informational inputs to corporate decision-making that could not be obtained under the traditional board model. Accordingly, contemporary shareholder activism enhances the board's decision-making and monitoring capacity, without undermining the economic value of the board's authority. Therefore, this book argues that the complete approach of contemporary shareholder activism should be accommodated into US corporate governance. In doing so, this book considers not only legal and regulatory developments in the wake of the 2007–2008 financial crisis, but also the governance developments through by-law amendments. Furthermore, the author makes several recommendations to soften the current director primacy model: establishing a level playing field for private ordering, adopting the proxy access default regime, the majority voting rule, the universal proxy rules, and enhancing the disclosure requirements of shareholders. The book will be of interest to academics and students of corporate governance, both in the US and internationally.
