**beyonce letting taylor finish her speech:** *Can't Stop the Grrrls* Lily E. Hirsch, 2023-03-15 This is a convincing call to action. Publishers Weekly Words and labels can hurt us all. And for many female musicians, the wounds are everywhere. From stars like Britney Spears and Mariah Carey to classic icons like Yoko Ono, female musicians have long been the target of double standards and toxic labels in the media and pop culture: liar, crazy, snake, diva, slut, b\*tch. These words hurt—the popular expression “sticks and stones” is wildly wrong. Lily Hirsch confronts the full range of this sexist labeling as well as the repercussions, concentrating on the experiences of Yoko Ono, Courtney Love, Britney Spears, FKA twigs, Taylor Swift, Kesha, Mariah Carey, and Ariana Grande, among many others. While men can make outrageous backstage demands, women like Carey are punished as “divas.” A sign of supposed genius for men, “crazy” is a word of condemnation for many women—with legal ramifications in Spears' case. Hirsch dives into the world of these women, looking at their personal lives, relationships and breakups, music, media coverage, public reception, as well as the origins of these toxic labels and how they have caused serious damage. *Can't Stop the Grrrls* reveals the inner workings of misogyny and invites us to think about these remarkable women on their own terms—showing us how women have fought back too, sometimes reclaiming these words and their own stories through music.

**beyonce letting taylor finish her speech:** *The World Made Meme* Ryan M. Milner, 2018-04-13 How memetic media—aggregate texts that are collectively created, circulated, and transformed—become a part of public conversations that shape broader cultural debates. Internet memes—digital snippets that can make a joke, make a point, or make a connection—are now a

lingua franca of online life. They are collectively created, circulated, and transformed by countless users across vast networks. Most of us have seen the cat playing the piano, Kanye interrupting, Kanye interrupting the cat playing the piano. In *The World Made Meme*, Ryan Milner argues that memes, and the memetic process, are shaping public conversation. It's hard to imagine a major pop cultural or political moment that doesn't generate a constellation of memetic texts. Memetic media, Milner writes, offer participation by reappropriation, balancing the familiar and the foreign as new iterations intertwine with established ideas. New commentary is crafted by the mediated circulation and transformation of old ideas. Through memetic media, small strands weave together big conversations. Milner considers the formal and social dimensions of memetic media, and outlines five basic logics that structure them: multimodality, reappropriation, resonance, collectivism, and spread. He examines how memetic media both empower and exclude during public conversations, exploring the potential for public voice despite everyday antagonisms. Milner argues that memetic media enable the participation of many voices even in the midst of persistent inequality. This new kind of participatory conversation, he contends, complicates the traditional culture industries. When age-old gatekeepers intertwine with new ways of sharing information, the relationship between collective participation and individual expression becomes ambivalent. For better or worse—and Milner offers examples of both—memetic media have changed the nature of public conversations.
