biggest comeback in march madness history: The Presidents vs. the Press Harold Holzer, 2020-08-25 An award-winning presidential historian offers an authoritative account of American presidents' attacks on our freedom of the press. "The FAKE NEWS media," Donald Trump has tweeted, "is not my enemy, it is the enemy of the American People!" Has our free press ever faced as great a threat? Perhaps not—but the tension between presidents and journalists is as old as the republic itself. Every president has been convinced of his own honesty and transparency; every

reporter who has covered the White House beat has believed with equal fervency that his or her journalistic rigor protects the country from danger. Our first president, George Washington, was also the first to grouse about his treatment in the newspapers, although he kept his complaints private. Subsequent chiefs like John Adams, Abraham Lincoln, Woodrow Wilson, and Barack Obama were not so reticent, going so far as to wield executive power to overturn press freedoms, and even to prosecute journalists. Theodore Roosevelt was the first president to actively manage the stable of reporters who followed him, doling out information, steering coverage, and squashing stories that interfered with his agenda. It was a strategy that galvanized TR's public support, but the lesson was lost on Woodrow Wilson, who never accepted reporters into his inner circle. Franklin Roosevelt transformed media relations forever, holding more than a thousand presidential press conferences and harnessing the new power of radio, at times bypassing the press altogether. John F. Kennedy excelled on television and charmed reporters to hide his personal life, while Richard Nixon was the first to cast the press as a public enemy. From the days of newsprint and pamphlets to the rise of Facebook and Twitter, each president has harnessed the media, whether intentional or not, to imprint his own character on the office. In this remarkable new history, acclaimed scholar Harold Holzer examines the dual rise of the American presidency and the media that shaped it. From Washington to Trump, he chronicles the disputes and distrust between these core institutions that define the United States of America, revealing that the essence of their confrontation is built into the fabric of the nation.

biggest comeback in march madness history: Calcutta Amit Chaudhuri, 2013-02-14 In 1999, Amit Chaudhuri moved back to Calcutta, the city in which he was born. It was a place he had loved in his youth and the place he had made his name writing about. But upon his return he discovered that the Calcutta of his imagination had receded and another had taken its place. Lyrical, observant and profound, *Calcutta* is a personal account of two years (2009– 2011) spent in one of the least known – yet greatest – cities of our time by one of our leading novelists. Using the historic elections of 2011 as a fulcrum, Chaudhuri looks back to the nineteenth century, when the city burst with a new vitality, and towards the twenty-first, when – utterly changed – it seems to be on the verge of another turn. Along the way he evokes all that is most particular and extraordinary. From the homeless and the working class to the old, declining haute bourgeois; from the new malls and hotels to old houses being destroyed by developers; from politicians on their way out to the city's fitful attempts to embrace globalisation, *Calcutta* brings a multifarious universe to life.

biggest comeback in march madness history: *Madness* Mark Mehler, Charles Paikert, 2018-02-13 The annual NCAA Basketball Tournament, which has become known as “March Madness” has emerged as a major sports event, matched only by the Super Bowl and the Olympics. In *Madness*, Mark Mehler and Charles Paikert tell the stories behind the ten most compelling and memorable championship games in tournament history, from North Carolina’s triple-overtime victory over Wilt Chamberlain’s Kansas Wildcats in 1957 to Duke’s heart stopping victory over underdog Butler in 2010. As a bonus, five more games that just missed the cut are also examined. *Madness* goes beyond the games to tell the the backstories of these classics, each entirely unique unto itself. For example, Jim Valvano taking his impossible dream of a national title and making it come true for the 1983 North Carolina State Wolfpack; Rollie Massimino turning spaghetti and clam sauce into inspiration for his underachieving 1985 Villanova team; and Magic Johnson and Larry Bird, breaking down in tears while taking a Broadway curtain call in front of a wildly-applauding audience who two hours earlier didn't know who these two guys were decades after their head-to-head matchup in 1979. Some of these stories also resonate far beyond the basketball court, including the 1966 triumph by the Texas Western Miners, which helped chisel away the college basketball color line and stamped their victory as Glory Road. Over sixty years of college basketball history is brought to life in this must-have for all basketball fans.
