french for no problem: *I'll Never Be French (no matter what I do)* Mark Greenside, 2008-11-04 In a story that stands above the throngs of travel memoirs, full of gorgeous descriptions of Brittany and at times hysterical encounters with the locals, Mark Greenside describes his initially reluctant travels in this heartwarming story (San Francisco Chronicle) where he discovers a second life. When Mark Greenside—a native New Yorker living in California, political lefty, writer, and lifelong skeptic—is dragged by his girlfriend to a tiny Celtic village in Brittany at the westernmost edge of France in Finistère, or what he describes as the end of the world, his life begins to change. In a playful, headlong style, and with enormous affection for the Bretons, Greenside shares how he makes a life for himself in a country where he doesn't speak the language or understand the culture. He gradually places his trust in the villagers he encounters—neighbors, workers, acquaintances—and he's consistently won over and surprised as he manages to survive day-to-day trials. From opening a bank account and buying a house to removing a beehive from the chimney, he begins to learn the cultural ropes, live among his neighbors, and make new friends. Until he came to this town, Greenside was lost, moving through life without a plan, already in his 40s with little money and no house. He lived as a skeptic who seldom trusts others and has an inclination to be alone. So when he settles into the rhythm of this new French culture—against the backdrop of Brittany's streets surrounded by gorgeous architecture and breathtaking landscapes—not only does he find a home and meaningful relationships in this French countryside, he finds himself. *I'll Never Be French (no matter what I do)* is both a new beginning and a homecoming for Greenside. It is a memoir about fitting in, not standing out; being part of something larger, not being separate from it; following, not leading. It explores the joys and adventures of living a double life. He has never regretted his journey and, as he advises to those searching for their next adventure, neither will you.

french for no problem: French Populism and Discourses on Secularism Per-Erik Nilsson, 2018-12-27 Per-Erik Nilsson takes a religious studies approach to analyse the intersections of secularism, nationhood and populism in contemporary France. This book provides insight into the French and European radical-nationalist ideology and activism, and contributes to our understanding of the complex relationship between religion and the state in contemporary Europe and beyond. When Marine Le Pen became the leader of the radical nationalist and populist party National Front in 2011, she made clear that secularism was a core value of party. This signalled a significant shift in the party's rhetorical strategies and previous reluctance to embrace secularism. Nilsson argues that this conspicuous appropriation first came about as a logical result of the obsession of the established mainstream political parties and news media with questions of secularism, national identity and Islam. He shows that a key player in understanding the National Front's change is the web-based journal *Riposte Laïque*, which has become a central actor in French radical-nationalist and anti-Muslim web and street-based activism. For the first time, this source is examined in order to understand French radical nationalists' recent appropriation of secularism, as well as debates on secularism, national identity and Islam in France more broadly.

french for no problem: *French Women in Politics: Writing Power* Raylene L. Ramsay, 2003 Although more women in France have entered political life than ever before, the fact remains that there are fewer women representatives in the French parliament than there were after the Second World War. In a new and original approach, the author presents an overview and analysis of the emerging body of text by or on women who have held high political office in France. The argument is that writing about women and politics has not just described or reflected women's slow but now substantial entry into political life; it has played a major part in shaping the parity debate and its

outcomes. Interviews with political women, such as Huguette Bouchardeau, Simone Veil or Edith Cresson, inserted in the text, demonstrate the emergence and circulation of a new common discourse focused on the issue of whether women in politics make or should make a difference. A close reading of the various texts examined in this book and their connection to new public counter-discourses in France suggest that a re-writing of power is indeed occurring.

french for no problem: Expressing Opinions in French and Australian English Discourse Kerry Mullan, 2010 Based on the analysis of conversations between French and Australian English speakers discussing various topics, including their experiences as non-native speakers in France or Australia, this book combines subjective personal testimonies with an objective linguistic analysis of the expression of opinion in discourse. It offers a new perspective on French and Australian English interactional style by examining the discourse markers *think*, *je pense*, *je crois* and *je trouve*. It is shown that the prosody, intonation unit position, and the surrounding context of these markers are

all fundamental to their function and meaning in interaction. In addition, this book offers the first detailed comparative semantic study of the three comparative French expressions in interaction. The book will appeal to all those interested in linguistics, French and Australian English interactional style, cross-cultural communication, and discourse analysis. Students and teachers of French will be interested in the semantic analysis of the French expressions, the authentic interactional data and the personal testimonies of the participants. Kerry Mullan's work constitutes a substantial and original contribution to cross-linguistic and cross-cultural comparison. The book's best contribution is indeed in the insightfulness of the contextual analyses of the chosen markers, which renders the claims made about the French and Australian English interactional styles thoroughly convincing. Elise Karkkainen, University of Oulu The book will not fail to satisfy its readers about many intriguing linguistic differences between French and Australians that may prove to reflect some deeper cultural differences regarding the degree to which speakers can openly express opinions. Hilary Chappell, Ecole des Hautes Etudes en Sciences Sociales, Paris

french for no problem: French Fried: one man's move to France with too many animals and an identity thief Chris Dolley, 2010-06-24 ** New York Times Bestseller ** Animals behaving badly, other people's misfortunes and the most bizarre true crime story ever. French Fried is the unfortunately true account of Chris Dolley's first eight months in France and has been described as 'A Year in Provence with Miss Marple and Gerald Durrell.' Just when Chris and Shelagh think nothing more could possibly go wrong, they discover that Chris's identity has been stolen and their life savings - all the money from their house sale in England that was going to finance their new life in France - had disappeared. A bank account had been opened in Chris's name in Spain to take the proceeds. Then they're abandoned by the police forces of four countries who all insist the crime belongs in someone else's jurisdiction. The French say it's an Irish crime as that's where the money was held. The Irish say it's French as that's where all the correspondence came from. The British say it's nothing to do with them even though forged British passports were used to open the bank account in Spain. And the Spanish are on holiday - and can't even think about investigating any bank account for at least four weeks. So Chris has to solve the crime himself. But unlike fictional detectives he has an 80 year-old mother-in-law and an excitable puppy who insist they come along if he's going anywhere interesting - like a stakeout. **REVIEWS** This was a fantastic read. It had me laughing so much that I nearly got relegated to the sofa! Once I had started reading this book, I could not put it down, I was even quite happy to miss my favourite TV programmes! - Bookmarked When I downloaded this book this morning, I had every intention of putting it on my phone and reading it in dribs and drabs. And now I appear to have finished the book! The best thing about 'French Fried' is it's sense of humour; warm, self-deprecating, and very British. Literally laugh out loud in several places (I'm glad I'm the only one home!). - Librarything Chris Dolley's humour reminds me of James Herriot at times, with my husband shushing me in the middle of the night. I could not put this book down and enjoyed it immensely. The characters, especially Nan, were life-size. - Salamm

french for no problem: Intercultural Communication between Chinese and French Lihua Zheng, 2019-11-19T00:00:00+01:00 When two people from different cultures meet, they both act in accordance with what is self-evident, that is to say natural, to them, The only problem is that the what is self-evident to some may not coincide with what is self-evident to others. Also, as people have a tendency to consider their way as going without saying or as universal, when others do not act in the same way as they do and there is conflict, they get easily annoyed. As a French businessman in China once cried out « The Chinese ask me if I eat snake. I say to them: 'I do not eat snake, but swallow insults every day' ». In fact, in intercultural contacts, when people seem strange to others, often, it is perhaps not that they are strange, but because others judge their behaviour with their own cultural criteria. Every culture has its own behavioural logic. However, the logic of some does not correspond to that of others. Individuals often have the same objectives, but to reach them, they take different cultural paths.

french for no problem: *The French Revolution* Matt Stewart, 2010-06-10 A San Francisco Chronicle Best Book of the Year that "fondly recalls John Kennedy Toole's 1980 classic *A Confederacy of Dunces*." Esmerelda Van Twinkle, a failed pastry chef turned obese copy shop manager, stumbles into motherhood after a semi-intentional liaison with good-natured coupon distributor Jasper Winslow. Born on Bastille Day, their twin children, Robespierre and Marat, revolt against archaic rules imposed by their autocratic grandmother, surmount radically misguided parenting, navigate factional infighting, and engage in combat in the Middle East to achieve great personal gain. But just as the family is on the cusp of achieving meteoric success in politics, business, music, and gastronomy, fissures from the past crack open spectacularly, derailing their bid for long-lived power while cementing a reputation for the ages. Loosely structured on the greatest identity crisis ever, *The French Revolution* is the hilarious, tragic, and deeply imaginative story of a San Francisco family forging its place in history. Vive la revolution! "A thrilling novel that explores the meaning of success and the unlikely bonds that unite a family . . . Stewart's hilariously bawdy satire casts fresh light in a dark corner of the past while portraying a family whose members have somehow survived history. Now, if only they can endure each other." —Booklist
