It's a spiritual and philosophical book that discusses what really makes us happy. Due to many objective and subjective reasons, we are often forced to go in directions which wouldn't be our choice under other conditions. We usually follow the goals imposed by society, friends, or just egoism created by ourselves. The more intellectual we become, the less often we feel satisfaction in our consciousness. We postpone moments of happiness to particular points in time, and believe that we will be happy when we achieve them. But right after having achieved them, we set new goals, and go on to the next goal. This race has no end... Oriental wisdom says - if you don't let the bee go out of the hive, she will not be able to bring back nectar. Letting go of your knowledge is an art and the high road to wisdom. Wisdom accommodates opposites. The intellect is not capable of this. You have to let go of Rightness, too. Then you won't be hurt by knowing. Only this will help you become reborn, and only this will let you find joy in simple things. Only this way leads to happiness... Pleasure in consciousness is all that we need. It's a guiding star, showing us whether we are on the right Way, or not. Alienation from pleasure is called Suffering. Pleasure seeking (desire) is called Hope. The appearance of a pleasurable moment - Happiness. Permanence in being in a condition of pleasure is called Love. A condition of pleasure which involves all your entity is called Nirvana. People who are able to stay in a condition of overpowering pleasure in consciousness all the time, call it the Supreme Truth. Here is all that is Human... friends who cheat quotes: Classroom Voices on Education and Race Daniel Frio, 2012-10-03 Classroom Voices on Education and Race presents core educational issues— with an emphasis on race and the racial achievement gap, school culture, and curriculum—through the unfiltered and poignant voices of high school students. Students from urban, rural, and suburban public schools express a strong desire for a more active role in their classrooms, as well as for a curriculum that is more responsive to their world. Current students speak out against an increasingly complex and demanding world in which standardized testing serves to detach students from their learning and from their peers. They bear witness to increasingly competitive, content-driven classrooms that minimize open communication and critical thinking, and instead foster a culture of cheating. And, they expose a hidden curriculum that contradicts the learning expectations of formal education. In particular, they speak to the persistence of racial stereotypes and segregation. Burdened by ignorance and misunderstandings, students address the need for honest racial dialogue facilitated by adults in their desire to cross the racial divide. Educators must listen to the voices from their classrooms in order to better participate in the lives and education of their students.
