Overview of Frisco Economic Development Corporation

The Frisco Economic Development Corporation (FEDC) is an essential entity committed to enhancing the economic vitality of Frisco, Texas. Established to promote business development, the corporation operates with the goal of attracting new companies, supporting existing businesses, and creating a thriving economic environment. FEDC serves as a resource for entrepreneurs and corporations seeking opportunities in one of the fastest-growing cities in the United States.

Mission and Vision

The mission of the Frisco Economic Development Corporation centers on driving sustainable economic growth while maintaining a high quality of life for residents. FEDC envisions Frisco as a dynamic hub for innovation, commerce, and community development. By leveraging strategic planning and targeted incentives, the corporation aims to position Frisco as a preferred

destination for businesses across various sectors.

Organizational Structure

The organization is governed by a board of directors composed of local business leaders, city officials, and economic development experts. This structure ensures that the corporation's strategies align with the city's broader goals. FEDC operates through several departments focused on business attraction, retention, marketing, and community engagement, facilitating comprehensive support for economic initiatives.

Key Initiatives and Programs

The Frisco Economic Development Corporation implements a range of initiatives and programs designed to stimulate economic activity and support business growth. These efforts are tailored to address the needs of diverse industries including technology, healthcare, manufacturing, and retail.

Business Attraction and Retention

One of FEDC's primary objectives is to attract new businesses to Frisco while retaining existing companies by providing resources, incentives, and a business-friendly environment. The corporation offers site selection assistance, tax incentives, and workforce development programs aimed at enhancing competitiveness and sustainability.

Workforce Development

Recognizing the importance of a skilled workforce, FEDC partners with educational institutions and training providers to develop programs that prepare local talent for high-demand jobs. This includes collaboration with community colleges, universities, and technical schools to align curricula with industry needs.

Marketing and Promotion

FEDC actively markets Frisco as a premier business destination through targeted campaigns, participation in trade shows, and digital outreach. The corporation highlights the city's infrastructure, quality of life, and economic advantages to attract regional, national, and international investors.

Impact on Local Business and Community

The activities of the Frisco Economic Development Corporation have a significant positive impact on both the local business environment and the broader community. Through strategic investments and support, FEDC helps create jobs, increase tax revenues, and enhance the overall economic resilience of Frisco.

Job Creation and Economic Diversification

By attracting a diverse range of industries, the corporation contributes to job creation across multiple sectors. This diversification helps stabilize the local economy and reduces dependency on any single industry, making Frisco more resilient to economic fluctuations.

Community Development and Quality of Life

Economic growth facilitated by FEDC leads to enhanced public services, improved infrastructure, and increased cultural and recreational opportunities. These developments improve the quality of life for residents and make Frisco an attractive place to live and work.

Support for Small and Medium Enterprises

The corporation provides tailored resources to small and medium enterprises (SMEs), including networking opportunities, business counseling, and access to capital. This support helps SMEs scale operations and compete in larger markets.

Partnerships and Collaboration

The Frisco Economic Development Corporation recognizes that collaboration is vital to achieving its economic goals. The organization actively partners with local government agencies, private sector stakeholders, educational institutions, and regional economic bodies.

Public-Private Partnerships

FEDC fosters public-private partnerships to leverage resources and expertise for economic projects. These collaborations often result in infrastructure improvements, business incubators, and innovation hubs that benefit the entire community.

Regional and Statewide Cooperation

To maximize impact, the corporation works closely with regional economic development organizations and state agencies. This cooperation enhances Frisco's visibility and access to funding opportunities, enabling larger-scale development projects.

Engagement with Educational Institutions

Partnerships with schools and universities are critical for aligning workforce development with industry demands. FEDC facilitates internships, apprenticeships, and research collaborations that support both students and employers.

Future Outlook and Economic Growth

The future of economic development in Frisco is promising, with the Frisco Economic Development Corporation leading efforts to sustain and accelerate growth. Strategic planning and investment in innovation position the city to continue attracting businesses and talent.

Emerging Industries and Innovation

FEDC is focusing on emerging industries such as technology, clean energy, and advanced manufacturing. By fostering innovation ecosystems, the corporation aims to attract startups and established companies engaged in cutting-edge research and development.

Infrastructure and Smart City Initiatives

Investment in infrastructure, including transportation, utilities, and digital connectivity, is a key component of FEDC's strategy. Smart city initiatives are being explored to enhance efficiency, sustainability, and quality of life.

Sustainable Economic Development

The corporation emphasizes sustainable growth by promoting environmentally responsible practices and supporting green businesses. This approach ensures that economic expansion benefits current and future generations while protecting natural resources.

frisco economic development corporation: Hold Texas, Hold the Nation Allen West, 2018-10-16 A former Congressman and the author of We Can Overcome presents his case for a conservative Texas. Texas is booming. In recent years, the Lone Star State has experienced some of the most rapid growth in the country, both in its economy and in its population. This is thanks to an influx of businesses relocating to Texas to take advantage of all its benefits. But this increase in population has also brought about a shift in the political dialogue within Texas's borders. As more people pour into Texas, they bring with them liberal and socialist ideologies as they try to swing the state from red to blue. These plans for changing policies will suffocate the highly successful capitalist state and its residents, and according to Lt. Col. Allen West (Ret.), allowing these liberal

ideals to creep into the legislative branch will be the death of Texas. In *Hold Texas, Hold the Nation: Victory or Death*, West explains how the longstanding conservative capitalist policies within the state's government have allowed it to flourish over the years, providing hard-to-ignore evidence and allowing his experience in Congress to support his argument. He makes his stand, asserting that Texas must hold fast to its conservative ways and resist succumbing to liberal mindsets, or else cease to prosper, and begin to perish. Texas is a sustaining force for America, truly embodying the founding principles of the nation: those unalienable individual rights of life, liberty, and the pursuit of happiness. In Texas, it's "Victory or Death." Praise for *Hold Texas, Hold the Nation* "A must-read for anyone who bleeds red, white, and blue." —Brian Kilmeade, cohost, *Fox & Friends*; host, *The Brian Kilmeade Show*; New York Times bestselling author

frisco economic development corporation: School Moms Laura Pappano, 2024-01-30 An investigative study of the far-right's attack on education and an on-the-ground look at the parent activist battle, on either side of the debate, to control the future of public schools For well over a century, public schools have been a non-partisan gathering place and vital center of civic life in America—but something has changed. In *School Moms*, journalist Laura Pappano explores the on-the-ground story of how public schools across the country have become ground zero in a cultural and political war as the far-right have made efforts to seek power over school boards. Pappano argues that the rise of parent activism is actually the culmination of efforts that began in the 1990s after campaigns to stop sex education largely fizzled. Recent efforts to make public schools more responsive and inclusive, as well as the pandemic, have offered openings the far-right have been waiting for to organize and sway parents, who are frustrated and exhausted by remote learning, objections by teachers' unions, and shifting directives from school leaders. Groups like Moms for Liberty and Parents Defending Education are organizing against revised history curricula they have dubbed as "CRT," banning books, pressing for "Don't Say Gay" laws, and asserting "parental rights" to gain control over the review of classroom materials. On the other side, progressive groups like Support Our Schools and Red, Wine & Blue are mobilizing parents to counter such moves. Combining on-the-ground reporting with research and expert interviews, *School Moms* will take a hard look at where these battles are happening, what is at stake, and why it matters for the future of our schools.

frisco economic development corporation: Boom Craig Hall, Linden Gross, 2019-05-14 For decades, the United States has been experiencing a shocking decline in the number of new business startups...and it has gotten worse since the Great Recession. While new business formation in Silicon Valley, New York, and Boston is booming, entrepreneurship in most of the country—particularly rural regions—is declining. Things are even worse for women and people of color. This is of paramount importance to the United States because startups account for all new net job growth, champion innovation and strengthen our middle class. From the perspective of an

entrepreneur with more than fifty years of experience in diverse industries—from software, to real estate, to winemaking—author Craig Hall provides his expert evaluation on the challenges facing entrepreneurs today. After careful analysis defining the current environment for startups, Hall optimistically concludes with specific strategies for go-getters to successfully bridge the opportunity gap. We can, and must, reverse these trends in order to level the playing field for entrepreneurs to safeguard the future of the American Dream.

frisco economic development corporation: The Texas Hamburger Rick Vanderpool, 2007-02-14 The “Hambassador of Texas” sinks his teeth into the American culinary classic on a road trip with pit stops at the best burger joints in the state. Texans are passionate about this signature sandwich, and photographer/writer Rick Vanderpool has become, in his own right, the Hambassador of Texas. In 2006, Rick undertook a quest to find and photograph the best Texas burgers, traveling over eleven thousand miles and visiting over seven hundred Texas burger joints. Since that time, he has continued his travels, sampling the finest burgers the Lone Star State has to offer. He has also picked up some fellow enthusiasts willing to share their own tasty tales along the way. From Fletcher Davis’s 1885 Athens creation (recipe included) and the Cheeseburger Capital of Texas in Friona to Whataburger #2 in Corpus Christi and Herd’s in Jacksboro, join Rick and his “Hamburger Helpers” on their journey celebrating the history of the original Texas hamburger. “Looking for a place to eat a great hamburger? Rick Vanderpool may have just the place for you—hundreds in fact. The Lubbock resident criss-crossed the state taking hundreds of photographs and visiting more than 700 burger joints for a book on the subject.” —Hockley County News-Press

frisco economic development corporation: The Soccer Book of Why Charles Cuttone, 2025-06-03 How close has the United States ever come to winning a World Cup? (Hint: Closer than you might think!) frisco economic development corporation: The Equity Planner Jason King, 2023-11-30 Economic development is intended to benefit everyone in a community; however, in many cases, increased public and private investment can result in the pricing out and displacement of existing residents and businesses. How do we achieve more equitable outcomes? The Equity Planner provides a toolkit of practical solutions for planners and all those involved in placemaking to promote thoughtful, inclusive planning. Each chapter of The Equity Planner examines one particular aspect of inequity in the urban planning sphere, covering issues such as identity retention, affordability, and the protection and enhancement of local assets. While each chapter offers practicable solutions to these issues, the Notes from the Field sections describe how these same tools have been used (either successfully or unsuccessfully) in projects the author has been involved in, with a particular focus on the local resistance each project encountered. These real-world case studies are used to suggest methods to overcome such resistance, which the reader can then apply to their present initiatives. This book is written for urban planners, local activists, social scientists, policymakers, and anyone with an interest in equity planning. This book will be of use to both practicing and training urban planners and architects who seek to add equity planning to their professional repertoire.
