The book contains reflections, sourced from Pakistani as well as the foreign media AND complete references about his governance, challenges, political intrigues, state institutions' dubious role and fulfilment of his party's promises and performance. The fields covered are: GENERAL ELECTIONS IN PAKISTAN [2018], ECONOMY DURING KHAN's REGIME, IK's handling of COVID-19 PANDEMIC IN PAKISTAN, FOREIGN POLICY IN PM KHAN's TIME, IK's MADINA MODEL for NAYA PAKISTAN, Facts about CPEC DURING KHAN's PREMIERSHIP, DIAMER-BHASHA DAM DURING KHAN's TENURE, and IK's performance during FIRST 100 DAYS OF PTI government. These pages also carry the dominant CAUSES OF IK's DOWNFALL mostly the DIRECT ALLEGATIONS ON 'NEUTRALS' (PAK-ARMY LEADERSHIP); KHAN's AUTHORITARIAN POLITICS, IMRAN KHAN's TEAM ISSUES - including some 'OTHER' KEY FACTORS' marked by a notorious question that WHY CM BUZDAR - WAS SO DESPERATELY NEEDED? Why promise of SARAIKI SUBA (PROVINCE) could not be delivered; and, how IK DITCHED HIS (INVESTOR) FRIENDS. How PM KHAN - ARMY RELATIONSHIP went strained in later days while the initial plan went good with 'ON THE SAME PAGE MANTRA'. Ultimately, IK had to face a NO-CONFIDENCE MOVE [NCM] during March 2022 which showed him and the PTI government the exit door on 10th April 2022. Imran Khan, an honest & courageous ruler of Pakistan, was sent home apparently unceremoniously and abruptly.

imran khan today speech live: *Populist Discourse in Pakistani Politics* Fizza Batool, 2025-09-28 This book presents a new theoretical model for mapping how populist leaders construct "the people", using simultaneous processes of inclusion and exclusion. Applying this model to Pakistan's distinctive political landscape, the work analyzes the populist discourse of Zulfikar Ali Bhutto and Imran Khan, highlighting the key similarities and differences in their construct. The comparative analysis underlines how Pakistan's political history, including the role of religion, the military, and dynastic politics, shapes populist politics in the country. By centering a non-Western case, this book challenges dominant frameworks and offers an accessible, comparative lens on populist discourse. It will be of interest to scholars and students of populism, Pakistani politics, and discourse analysis, as well as to those interested in the broader dynamics of democratization in hybrid political systems.

imran khan today speech live: Pakistan's Political Parties Mariam Mufti, Sahar Shafqat, Niloufer Siddiqui, 2020-05-01 Pakistan's 2018 general elections marked the second successful transfer of power from one elected civilian government to another—a remarkable achievement considering the country's history of dictatorial rule. Pakistan's Political Parties examines how the civilian side of the state's current regime has survived the transition to democracy, providing critical insight into the evolution of political parties in Pakistan and their role in developing democracies in general. Pakistan's numerous political parties span the ideological spectrum, as well as represent diverse regional, ethnic, and religious constituencies. The essays in this volume explore the way in which these parties both contend and work with Pakistan's military-bureaucratic establishment to assert and expand their power. Researchers use interviews, surveys, data, and ethnography to illuminate the internal dynamics and motivations of these groups and the mechanisms through which they create policy and influence state and society. Pakistan's Political Parties is a one-of-a-kind resource for diplomats, policymakers, journalists, and scholars searching for a comprehensive overview of Pakistan's party system and its unlikely survival against an interventionist military, with insights that extend far beyond the region.

imran khan today speech live: *Patterns of Conventional Warfighting under the Nuclear Umbrella* Igor Davidzon, 2020-05-04 This book explores how nuclear weapons influence conventional warfighting, through three case studies of countries not party to the Non-Proliferation

Treaty: Pakistan, India, and Israel. The author examines how decision makers choose a preferred pattern of war management, as well as how these choices affect conflicts, suggesting that nuclear weaponization constitutes a clear change in the relative power of countries. This distribution of power within the international system expands or reduces the selection of strategies or war management patterns available to members of the international community. However, historic traumatic events like military defeats, countries' self-images, and images of enemies form the perceptions of decision makers regarding material power and change thereof, suggesting that choices of decision makers are not affected directly by changes in relative power relations, but rather through an intermediate level of strategic culture parameter.

imran khan today speech live: China's Western Horizon Daniel Markey, 2020-02-03 Under the ambitious leadership of President Xi Jinping, China is zealously transforming its wealth and economic power into potent tools of global political influence. But China's foreign policy initiatives, even the vaunted Belt and Road, will be shaped and redefined as they confront the ground realities of local and regional politics outside China. In *China's Western Horizon*, Daniel S. Markey, a scholar of international relations and former member of the U.S. State Department's policy planning staff, previews how China's efforts are likely to play out along its western horizon: across the swath of Eurasia that includes South Asia, Central Asia, and the Middle East. Drawing from extensive interviews, travels, and historical research, Markey describes how perceptions of China vary widely within states such as Pakistan, Kazakhstan, and Iran. Powerful and privileged groups across the region often expect to profit from their connections to China, while others fear commercial and political losses. Similarly, Eurasian statesmen are scrambling to harness China's energy purchases, arms sales, and infrastructure investment. These leaders are working with China in order to outdo their strategic competitors, including India and Saudi Arabia, and simultaneously negotiating relations with Russia and America. On balance, Markey anticipates that China's deepening involvement will play to the advantage of regional strongmen and exacerbate the political tensions within and among Eurasian states. To make the most of America's limited influence in China's backyard (and elsewhere), he argues that U.S. policymakers should pursue a selective and localized strategy to serve America's specific aims in Eurasia and to better compete with China over the long run.

imran khan today speech live: *Let There Be Justice* B. J. Sadiq, 2017-09-09 Pakistan has been labelled as one of the most controversial countries in the world. A country tainted with military dictatorships, tormented by religious extremists and fleeced by years of corrupt democratic rule. It is a place where an endemic culture of nepotism blooms with impunity. The biggest casualty of this political and social homicide are the ordinary citizens who are left to struggle with appalling economic conditions and a system sorely in need of repair. In a climate as unsettling as that, one noise exploded onto the scene with an unyielding aggression. Imran Khan, former cricket celebrity, philanthropist and turned politician, seems to have changed the decorum of Pakistan's botched-up political landscape. An irreverent iconoclast, Khan established his Movement for Justice party back in 1996 and has doggedly moved up the ranks. Brazenly accusing his opponents with unprecedented levels of corruption, Imran's party has gone from being a novice presence to one of the most defiant voices in the parliament's opposition benches. *Let There Be Justice: The Political Journey of Imran Khan* is an intriguing story of Imran Khan's populist politics, his verve and unfettered commitment which may eventually swing him into power at the next general elections in 2018.

imran khan today speech live: *Rewiring Democracy* Bruce Schneier, Nathan E. Sanders, 2025-10-21 From the New York Times-bestselling author of *The Hacker's Mind* and *Data & Goliath*, an informative and wide-ranging exploration of how AI will alter every facet of democracy, and how to harness the technology to distribute rather than concentrate power. AI is changing democracy. We still get to decide how. AI's impact on democracy will go far beyond headline-grabbing political deepfakes and automated misinformation. Everywhere it will be used, it will create risks and opportunities to shake up long-standing power structures. In this highly readable and advisedly optimistic book, *Rewiring Democracy*, security technologist Bruce Schneier and data scientist

Nathan Sanders cut through the AI hype and examine the myriad ways that AI is transforming every aspect of democracy—for both good and ill. The authors describe how the sophistication of AI will fulfill demands from lawmakers for more complex legislation, reducing deference to the executive branch and altering the balance of power between lawmakers and administrators. They show how the scale and scope of AI is enhancing civil servants' ability to shape private-sector behavior, automating either the enforcement or neglect of industry regulations. They also explain how both lawyers and judges will leverage the speed of AI, upending how we think about law enforcement, litigation, and dispute resolution. Whether these outcomes enhance or degrade democracy depends on how we shape the development and use of AI technologies. Powerful players in private industry and public life are already using AI to increase their influence, and AIs built by corporations don't deliver the fairness and trust required by democratic governance. But, steered in the right direction, AI's broad capabilities can augment democratic processes and help citizens build consensus, express their voice, and shake up long-standing power structures. Democracy is facing new challenges worldwide, and AI has become a part of that. It can inform, empower, and engage citizens. It can also disinform, disempower, and disengage them. The choice is up to us. Schneier and Sanders blaze the path forward, showing us how we can use AI to make democracy stronger and more participatory.

imran khan today speech live: The Stigma Matrix Fauzia Husain, 2024-01-30 As developing

states adopt neoliberal policies, more and more working-class women find themselves pulled into the public sphere. They are pressed into wage work by a privatizing and unstable job market. Likewise, they are pulled into public roles by gender mainstreaming policies that developing states must sign on to in order to receive transnational aid. Their inclusion into the political economy is very beneficial for society, but is it also beneficial for women? In *The Stigma Matrix* Fauzia Husain draws on the experiences of policewomen, lady health workers, and airline attendants, all frontline workers who help the Pakistani state, and its global allies, address, surveil, and discipline veiled women citizens. These women, she finds, confront a stigma matrix: a complex of local and global, historic, and contemporary factors that work together to complicate women's integration into public life. The experiences of the three groups Husain examines reveal that inclusion requires more than quotas or special seats. This book advances critical feminist and sociological frameworks on stigma and agency showing that both concepts are made up of multiple layers of meaning, and are entangled with elite projects of hegemony.
