

in my time a personal and political memoir

in my time a personal and political memoir offers a compelling insight into the intertwined nature of personal experiences and political events that shaped an era. This memoir provides readers with a detailed account of significant political moments, leadership challenges, and social transformations from a first-hand perspective. Through a blend of personal anecdotes and political analysis, the book illuminates the complexities of governance and the human side of political life. It serves as both a historical document and a reflection on the impact of public service on individual identity. This article explores the key themes, historical context, and the broader significance of *in my time a personal and political memoir*. The following sections will guide readers through the memoir's background, major political events described, personal reflections, and its contribution to political literature.

- Background and Context of the Memoir
- Major Political Events Covered
- Personal Reflections and Insights
- Impact on Political Literature and History

Background and Context of the Memoir

The memoir **in my time a personal and political memoir** is situated within a specific historical and political framework that provides essential context for understanding its narrative. It chronicles the life and career of a prominent political figure whose experiences span multiple decades marked by significant change. The memoir was written to document both the public and private aspects of political life, offering readers an intimate look at the challenges faced by leaders during critical moments. Its publication came at a time when there was growing public interest in political transparency and historical reflection.

Author's Political Career

The author of *in my time a personal and political memoir* held various influential roles within government, contributing to policymaking and political strategy. Their career path reflects a trajectory through pivotal political institutions and events, providing a unique vantage point on governance. The memoir captures the evolution of their political ideology and the impact of their decisions on national and international affairs. Understanding the author's career is crucial to appreciating the memoir's depth and authenticity.

Historical Period Covered

The memoir spans several important decades that witnessed transformative political developments,

including shifts in domestic policy, international relations, and social movements. This period is characterized by both stability and upheaval, with the author providing detailed accounts of events such as elections, legislative battles, and diplomatic negotiations. The historical context enriches the narrative, situating personal experiences within broader national and global trends.

Major Political Events Covered

in my time a personal and political memoir provides a comprehensive overview of key political events that defined the era. The memoir serves as a historical record, detailing landmark moments that shaped policy and public life. These events are recounted with precision, highlighting the complexities of political decision-making and the interplay of various actors and interests.

Election Campaigns and Political Strategy

The memoir offers an insider's perspective on multiple election campaigns, emphasizing the strategic planning and challenges involved. It discusses the formation of alliances, messaging tactics, and the impact of public opinion on political outcomes. The author sheds light on how campaigns were conducted and the critical decisions that influenced electoral success or failure.

Policy Initiatives and Legislative Battles

Significant policy initiatives are explored in detail, illustrating the process of lawmaking and the negotiation required to pass legislation. The memoir reveals the behind-the-scenes efforts to build consensus and the obstacles encountered from opposition parties and interest groups. Key legislative achievements and setbacks are analyzed, providing insight into the legislative environment of the time.

International Relations and Diplomacy

International affairs form a vital component of the memoir, with accounts of diplomatic missions, negotiations, and crises. The author discusses the complexities of foreign policy, including alliances, conflicts, and global cooperation. These narratives underscore the interconnectedness of domestic politics and international dynamics.

Personal Reflections and Insights

Beyond political events, **in my time a personal and political memoir** delves into the personal dimensions of public service. The memoir reveals the emotional and psychological impact of political life on the author, offering candid reflections on leadership, responsibility, and resilience. These insights humanize the political narrative and provide a nuanced understanding of the demands faced by public figures.

Leadership Challenges

The memoir outlines the difficulties encountered in leading during times of crisis and change. It discusses the pressures of making difficult decisions, managing public expectations, and maintaining integrity. The author's reflections on leadership provide valuable lessons on governance and the character required to navigate complex political landscapes.

Balancing Personal and Political Life

The tension between personal commitments and political obligations is a recurrent theme. The memoir candidly addresses the sacrifices made in pursuit of public service and the impact on family and personal relationships. These reflections offer a rare glimpse into the private side of political careers, emphasizing the human cost of leadership.

Philosophical and Ethical Considerations

The author engages with broader philosophical questions related to power, justice, and public good. The memoir discusses the ethical dilemmas faced in policymaking and the importance of maintaining moral clarity. This section highlights the author's introspective approach to politics, underscoring the memoir's depth and intellectual richness.

Impact on Political Literature and History

in my time a personal and political memoir holds a significant place within political literature, contributing to both historical scholarship and public understanding of political life. Its detailed narrative and reflective tone make it a valuable resource for students, historians, and political enthusiasts alike. The memoir's influence extends beyond its immediate context, offering timeless insights into leadership and governance.

Contribution to Historical Record

The memoir serves as a primary source for understanding the political history of the period it covers. Its detailed accounts and personal perspective provide historians with material that complements official records and secondary analyses. The memoir enriches the historiography of the era by adding depth and nuance to the political narrative.

Reception and Critical Analysis

Upon publication, the memoir received attention from critics and scholars who evaluated its narrative style, factual accuracy, and interpretive insights. Reviews highlighted its candidness and the balance between personal memoir and political analysis. The critical response underscores the memoir's role in shaping contemporary political discourse.

Legacy and Influence on Future Memoirs

The memoir has inspired subsequent political figures to document their experiences with similar candor and reflection. Its success demonstrates the public's appetite for authentic political narratives that blend personal stories with broader historical context. The legacy of *in my time a personal and political memoir* is evident in the continued popularity of political memoirs as a genre.

Key Themes Explored in the Memoir

The memoir addresses several recurring themes that are central to understanding political life and leadership. These themes resonate throughout the narrative, providing coherence and depth.

- **Power and Responsibility:** Examining the burdens and ethical considerations of holding political power.
- **Change and Continuity:** Navigating political transitions while maintaining core principles.
- **Public Service:** The motivations and sacrifices involved in serving the public interest.
- **Identity and Legacy:** Reflecting on the personal identity shaped by political experience and the legacy left behind.

Additional Resources

1. *In My Time: A Personal and Political Memoir* by Dick Cheney

This memoir offers an intimate look into the life and career of Dick Cheney, the 46th Vice President of the United States. Cheney reflects on his political journey, key decisions during his tenure, and the challenges faced in shaping U.S. policy. The book provides a candid perspective on both personal experiences and national events from the late 20th to early 21st century.

2. *Becoming* by Michelle Obama

In this deeply personal memoir, former First Lady Michelle Obama shares the experiences that shaped her—from her childhood in Chicago to her years in the White House. She discusses her role as a political partner and advocate, offering insights into the intersections of personal growth and public

service. The book emphasizes themes of resilience, identity, and hope.

3. *Dreams from My Father: A Story of Race and Inheritance* by Barack Obama

This memoir chronicles Barack Obama's early life, exploring his struggles with identity and belonging as the son of a Kenyan father and American mother. It delves into his political awakening and commitment to community organizing. The narrative is both a personal journey and a reflection on race and politics in America.

4. *The Audacity of Hope: Thoughts on Reclaiming the American Dream* by Barack Obama

Written before his presidency, this book outlines Barack Obama's political philosophy and vision for America. Combining personal anecdotes with policy discussions, it highlights the importance of hope, unity, and democratic values. The memoir provides insight into the motivations behind his public service.

5. *Hard Choices* by Hillary Rodham Clinton

As Secretary of State, Hillary Clinton faced numerous international and domestic challenges. This memoir recounts her tenure, detailing the tough decisions made in diplomacy and politics. Clinton offers a behind-the-scenes look at the complexities of leadership and the balance between personal conviction and political pragmatism.

6. *My Life* by Bill Clinton

Bill Clinton's memoir traces his journey from a small-town boy to the 42nd President of the United States. The book covers his political rise, policy achievements, and personal struggles, including his handling of scandals. It provides a comprehensive view of his life and the political climate of the 1990s.

7. *Decision Points* by George W. Bush

In this memoir, George W. Bush reflects on the defining moments of his presidency, including the response to 9/11, the wars in Iraq and Afghanistan, and domestic policy challenges. He shares insights into the decision-making process and the weight of leadership during turbulent times. The book blends personal narrative with political analysis.

8. *An American Life* by Ronald Reagan

Ronald Reagan recounts his transformation from actor to politician and ultimately President of the United States. The memoir highlights his conservative vision, Cold War policies, and communication style that earned him the nickname "The Great Communicator." It offers a personal perspective on American politics in the late 20th century.

9. *Living History* by Hillary Rodham Clinton

This memoir provides a detailed account of Hillary Clinton's early life, career, and time as First Lady. It explores the intersection of her personal experiences with political events, emphasizing her role in shaping policy and advocating for social issues. The book reveals the challenges and triumphs of being a woman in American politics.

in my time a personal and political memoir: In My Time Richard B. Cheney, Liz Cheney, 2011 A memoir from the former Vice President of the United States.-- Provided by publisher.

in my time a personal and political memoir: In My Time Dick Cheney, 2011-08-30 In this eagerly anticipated memoir, former Vice President Dick Cheney delivers an unyielding portrait of American politics over nearly forty years and shares personal reflections on his role as one of the most steadfast and influential statesmen in the history of our country. The public perception of Dick Cheney has long been something of a contradiction. He has been viewed as one of the most powerful vice presidents—secretive, even mysterious, and at the same time opinionated and unflinchingly outspoken. He has been both praised and attacked by his peers, the press, and the public. Through it all, courting only the ideals that define him, he has remained true to himself, his principles, his family, and his country. Now in an enlightening and provocative memoir, a stately page-turner with flashes of surprising humor and remarkable candor, Dick Cheney takes readers through his experiences as family man, policymaker, businessman, and politician during years that shaped our collective history. Born into a family of New Deal Democrats in Lincoln, Nebraska, Cheney was the son of a father at war and a high-spirited and resilient mother. He came of age in Casper, Wyoming, playing baseball and football and, as senior class president, courting homecoming queen Lynne Vincent, whom he later married. This all-American story took an abrupt turn when he flunked out of Yale University, signed on to build power line in the West, and started living as hard as he worked. Cheney tells the story of how he got himself back on track and began an extraordinary ascent to the heights of American public life, where he would remain for nearly four decades: * He was the youngest White House Chief of Staff, working for President Gerald Ford—the first of four chief executives he would come to know well. * He became Congressman from Wyoming and was soon a member of the congressional leadership working closely with President Ronald Reagan. * He became secretary of defense in the George H. W. Bush administration, overseeing America's military during Operation Desert Storm and in the historic transition at the end of the Cold War. * He was CEO of Halliburton, a Fortune 500 company with projects and personnel around the globe. * He became the first vice president of the United States to serve out his term of office in the twenty-first century. Working with George W. Bush from the beginning of the global war on terror, he was—and remains—an outspoken defender of taking every step necessary to defend the nation. Eyewitness to history at the highest levels, Cheney brings to life scenes from past and present. He describes driving through the White House gates on August 9, 1974, just hours after Richard Nixon resigned, to begin work on the Ford transition; and he portrays a time of national crisis a quarter century later when, on September 11, 2001, he was in the White House bunker and conveyed orders to shoot down a hijacked airliner if it would not divert. With its unique perspective on a remarkable span of American history, *In My Time* will enlighten. As an intimate and personal chronicle, it will surprise, move, and inspire. Dick Cheney's is an enduring political vision to be reckoned with and admired for its honesty, its wisdom, and its resonance. *In My Time* is truly the last word about an incredible political era, by a man who lived it and helped define it—with courage and without compromise.

in my time a personal and political memoir: Pragmatism and Political Crisis Management Christopher Ansell, Martin Bartenberger, p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 10.0px Arial} Crisis management has become one of the core challenges facing governments, but successful crisis response depends on effective public leadership. Building on insights from Pragmatist philosophy, this deeply nuanced book provides guidance and direction for public leaders tackling the most challenging tasks of the 21st century.

in my time a personal and political memoir: The Mirror Test J. Kael Weston, 2016-05-24 A New York Times Editors' Choice A Military Times Best Book of the Year A powerfully written firsthand account of the human costs of conflict. J. Kael Weston spent seven years on the ground in

Iraq and Afghanistan working for the U.S. State Department in some of the most dangerous frontline locations. Upon his return home, while traveling the country to pay respect to the dead and wounded, he asked himself: When will these wars end? How will they be remembered and memorialized? What lessons can we learn from them? These are questions with no quick answers, but perhaps ones that might lead to a shared reckoning worthy of the sacrifices of those—troops and civilians alike—whose lives have been changed by more than a decade and a half of war. Weston takes us from Twentynine Palms in California to Fallujah in Iraq, Khost and Helmand in Afghanistan, Maryland, Colorado, Wyoming, and New York City, as well as to out-of-the-way places in Iowa and Texas. We meet generals, corporals and captains, senators and ambassadors, NATO allies, Iraqi truck drivers, city councils, imams and mullahs, Afghan schoolteachers, madrassa and college students, former Taliban fighters and ex-Guantánamo prison detainees, a torture victim, SEAL and Delta Force teams, and many Marines. The overall frame for the book, from which the title is taken, centers on soldiers who have received a grievous wound to the face. There is a moment during their recovery when they must look upon their reconstructed appearance for the first time. This is known as “the mirror test.” From an intricate tapestry of voices and stories—Iraqi, Afghan, and American—Weston delivers a larger mirror test for our nation in its global role. An unflinching and deep examination of the interplay between warfare and diplomacy, this is an essential book—a crucial look at America now, how it is viewed in the world and how the nation views itself.

in my time a personal and political memoir: *A Day in a Working Life* Gary Westfahl, 2015-04-21 Ideal for high school and college students studying history through the everyday lives of men and women, this book offers intriguing information about the jobs that people have held, from ancient times to the 21st century. This unique book provides detailed studies of more than 300 occupations as they were practiced in 21 historical time periods, ranging from prehistory to the present day. Each profession is examined in a compelling essay that is specifically written to inform readers about career choices in different times and cultures, and is accompanied by a bibliography of additional sources of information, sidebars that relate historical issues to present-day concerns, as well as related historical documents. Readers of this work will learn what each profession entailed or entails on a daily basis, how one gained entry to the vocation, training methods, and typical compensation levels for the job. The book provides sufficient specific detail to convey a comprehensive understanding of the experiences, benefits, and downsides of a given profession. Selected accompanying documents further bring history to life by offering honest testimonies from people who actually worked in these occupations or interacted with those in that field.

in my time a personal and political memoir: *Australia, Canada, and Iraq* Ramesh Thakur, Jack Cunningham, 2015-10-03 The 2003 US-led invasion of Iraq was intensely controversial. Australia joined in the war, while Canada refused to. Australia, Canada, and Iraq is a collection of essays by world leaders and esteemed academics that offers a fresh review of the war and the critical Australian and Canadian decisions regarding it.

in my time a personal and political memoir: *The Day After* Brendan R. Gallagher, 2019-09-15 Since 9/11, why have we won smashing battlefield victories only to botch nearly everything that comes next? In the opening phases of war in Afghanistan, Iraq, and Libya, we mopped the floor with our enemies. But in short order, things went horribly wrong. We soon discovered we had no coherent plan to manage the day after. The ensuing debacles had truly staggering consequences—many thousands of lives lost, trillions of dollars squandered, and the apparent discrediting of our foreign policy establishment. This helped set the stage for an extraordinary historical moment in which America's role in the world, along with our commitment to democracy at home and abroad, have become subject to growing doubt. With the benefit of hindsight, can we discern what went wrong? Why have we had such great difficulty planning for the aftermath of war? In *The Day After*, Brendan Gallagher—an Army lieutenant colonel with multiple combat tours to Iraq and Afghanistan, and a Princeton Ph.D.—seeks to tackle this vital question. Gallagher argues there is a tension between our desire to create a new democracy and our competing desire to pull out as soon as possible. Our leaders often strive to accomplish both to keep

everyone happy. But by avoiding the tough underlying decisions, it fosters an incoherent strategy. This makes chaos more likely. The Day After draws on new interviews with dozens of civilian and military officials, ranging from US cabinet secretaries to four-star generals. It also sheds light on how, in Kosovo, we lowered our postwar aims to quietly achieve a surprising partial success. Striking at the heart of what went wrong in our recent wars, and what we should do about it, Gallagher asks whether we will learn from our mistakes, or provoke even more disasters? Human lives, money, elections, and America's place in the world may hinge on the answer.

in my time a personal and political memoir: *The Influence of Public Opinion on Post-Cold War U.S. Military Interventions* Helene Dieck, 2016-01-18 Based on interviews with political decision-makers involved in post-Cold War case studies, this research reassesses the prevalent conclusion in the academic literature, according to which American public opinion has limited influence on military interventions, by including the level of commitment in the study of the decision-making process.

in my time a personal and political memoir: *International Law in Public Debate* Madelaine Chiam, 2021-12-09 A history of international law in public debates and its resulting popular language of international law.

in my time a personal and political memoir: *Iran, Israel, and the United States* Ofira Seliktar, Farhad Rezaei, 2018-06-20 This book analyzes the process of evaluating Iran's nuclear project and the efforts to roll it back, resulting in the 2015 nuclear agreement known as the Joint Comprehensive Plan of Action (JCPOA). Despite its aura of scientific exactitude, nuclear intelligence is complex and susceptible to methodological disagreements and political bias at the international oversight level—the International Atomic Energy Agency (IAEA)—and within the countries involved in the rollback project – Israel and the United States. To highlight both the technological problems of assessing compliance and the politicization, each chapter in the book uses a real-time comparison of the nuclear developments in Iran, and the perception of Israel and the United States. This methodology yielded some significant results. Essentially, two camps had formed in each country; those who were pushing for an agreement with Iran and those who opposed it. The Israeli intelligence agencies – the Mossad and the Military Intelligence – as well as the highly secretive Israeli Atomic Energy Commission (IAEC) which advised them considered the program to be weak and slow moving. The right-wing government of Benjamin Netanyahu suggested that Iran was steps away from the “point of no return,” making it an existential threat to Israel. A virtually identical split emerged in Washington. While the intelligence community and the advising scientists from the National Nuclear Laboratories, considered Iran progress to be relatively modest, the Republicans and the Israel lobby – the Jewish organizations and the Christian Zionists— warned of the imminent danger of a nuclear Iran. With the Obama administration pushing for the JCPOA, a fierce debate took place in Congress. The Israeli intelligence and military chiefs led by the Mossad chief Meir Dagan, which had previously blocked Netanyahu from a preemptive action, quietly supported the agreement. In Washington, the Israel lobby, and the Republicans, helped by Netanyahu, mounted an all-out effort to defeat the deal in Congress. The pro-deal coalition fought back by mobilizing the scientific community, military and intelligence officials, the business lobby, and grassroots Democrats. The JCPOA represents the first successful effort of peaceful counterproliferation. At the same, excessive politicization has clouded its legitimacy and cast doubt about its future.

in my time a personal and political memoir: *Bloody Breathitt* T.R.C. Hutton, 2013-09-20 This book uses the history of Breathitt County, Kentucky, to examine political violence in the United States and its interpretation in media and memory. Violence in Breathitt County, during and after the Civil War, usually reflected what was going on elsewhere in Kentucky and the American South. In turn, the types of violence recorded there corresponded with discernible political scenarios.

in my time a personal and political memoir: *Confronting Saddam Hussein* Melvyn P. Leffler, 2023-01-04 In *Confronting Saddam Hussein*, Melvyn P. Leffler analyzes why the US went to war in Iraq in 2003 and who was most responsible for the decision. Employing a unique set of personal interviews with dozens of top officials and declassified American and British documents, Leffler

vividly portrays the emotions and anxieties that shaped the thinking of the president after the shocking events of 9/11. As the book unfolds, the centrality of Bush's role becomes more and more evident. A necessary reassessment of George W. Bush's intervention in Iraq, *Confronting Saddam Hussein* provides a provocative reinterpretation of the most important international event of the 21st century.

in my time a personal and political memoir: *Emerging from the Shadows* Richard M. Yon, 2024-02-01 Although once derided as an insignificant office, the vice presidency in the last forty years has witnessed an increase in stature, prominence, and influence. *Emerging from the Shadows* focuses on explaining variation in vice presidential influence over time with an assumption that all vice presidents in the modern era have the capacity to exercise influence. This study is the first of its kind to ascertain the true nature of vice-presidential influence and the consequences of changing interpersonal, situational, institutional, and electoral dynamics on that influence using in-depth interviews and archival research. These four dynamics, as Richard M. Yon demonstrates, provide a model by which to understand the fluidity of vice-presidential influence, which in turn enables more precise analysis of the vice presidencies of Nelson Rockefeller, Walter Mondale, George H. W. Bush, Dan Quayle, Al Gore, Dick Cheney, and Joe Biden.

in my time a personal and political memoir: *US Foreign Policy and China* Guy Roberts, 2014-11-13 This work is an exploration of how U.S.-China relations were managed by President George W. Bush. Roberts argues that contrary to conventional wisdom, President Bush conducted a calculated, pragmatic and highly successful strategy toward Beijing, which avoided conflict, resolved crisis and significantly increased economic and diplomatic ties. Roberts identifies key players and policies of the Bush White House and the specific themes of engagement (successful and unsuccessful) that unfolded during Bush's first term. Research is based on analysis of primary and secondary documentation, as well as interviews with key White House actors (including Deputy Secretary of State Richard Armitage), and two former Australian Prime Ministers. Topics of discussion include China's changing attitude toward international engagement, China's rising economic power and the tensions this triggered in the American establishment, the nature of U.S. China relations, contemporary and ideological understanding of the Bush Presidency as well as the strengths and weaknesses of different sources of information. *US Foreign Policy and China* will be of great interest to students and scholars of US foreign policy and China Studies.

in my time a personal and political memoir: *The United States, Iraq and the Kurds* Mohammed Shareef, 2014-03-14 This book provides a descriptive and analytical narrative of the evolution of US foreign policy towards Iraq at the supra-national (global), national (Arab Iraq) and sub-national (Iraqi Kurdistan) levels. The book is unique in that it presents a sophisticated insight into the two major components of US Iraq policy. To achieve this, it addresses US foreign policy towards both Arab Iraq and an entirely original analysis on US policy towards the Iraqi Kurds as components of a larger US Iraq policy, dictated by the supreme US Grand Strategy. The book also examines whether US foreign policy towards Iraq has been one of continuity or change – a dimension that has not been illustrated in any other publication. The book deals intelligently and at great length with the events surrounding US Iraq policy in three distinct phases, going back to, 1979 with regard to Arab Iraq, and 1961 in respect to the Kurdish liberation movement, covering all subsequent US administrations including the Obama presidency. It provides a thorough examination of US interests in Iraq and reasons for the 2003 invasion and its aftermath. It also engages with the intellectual roots of US foreign policy, presenting an intricate reaction of views, objectives and agendas. This work will be of interest to students and scholars of Middle East studies, US Foreign Policy and Security studies.

in my time a personal and political memoir: *The Man Who Knew* Sebastian Mallaby, 2016-10-11 "Exceptional . . . Deeply researched and elegantly written . . . As a description of the politics and pressures under which modern independent central banking has to operate, the book is incomparable." —Financial Times The definitive biography of the most important economic statesman of our time, from the bestselling author of *The Power Law* and *More Money Than God*

Sebastian Mallaby's magisterial biography of Alan Greenspan, the product of over five years of research based on untrammelled access to his subject and his closest professional and personal intimates, brings into vivid focus the mysterious point where the government and the economy meet. To understand Greenspan's story is to see the economic and political landscape of our time—and the presidency from Reagan to George W. Bush—in a whole new light. As the most influential economic statesman of his age, Greenspan spent a lifetime grappling with a momentous shift: the transformation of finance from the fixed and regulated system of the post-war era to the free-for-all of the past quarter century. The story of Greenspan is also the story of the making of modern finance, for good and for ill. Greenspan's life is a quintessential American success story: raised by a single mother in the Jewish émigré community of Washington Heights, he was a math prodigy who found a niche as a stats-crunching consultant. A master at explaining the economic weather to captains of industry, he translated that skill into advising Richard Nixon in his 1968 campaign. This led to a perch on the White House Council of Economic Advisers, and then to a dazzling array of business and government roles, from which the path to the Fed was relatively clear. A fire-breathing libertarian and disciple of Ayn Rand in his youth who once called the Fed's creation a historic mistake, Mallaby shows how Greenspan reinvented himself as a pragmatist once in power. In his analysis, and in his core mission of keeping inflation in check, he was a maestro indeed, and hailed as such. At his retirement in 2006, he was lauded as the age's necessary man, the veritable God in the machine, the global economy's avatar. His memoirs sold for record sums to publishers around the world. But then came 2008. Mallaby's story lands with both feet on the great crash which did so much to damage Alan Greenspan's reputation. Mallaby argues that the conventional wisdom is off base: Greenspan wasn't a naïve ideologue who believed greater regulation was unnecessary. He had pressed for greater regulation of some key areas of finance over the years, and had gotten nowhere. To argue that he didn't know the risks in irrational markets is to miss the point. He knew more than almost anyone; the question is why he didn't act, and whether anyone else could or would have. A close reading of Greenspan's life provides fascinating answers to these questions, answers whose lessons we would do well to heed. Because perhaps Mallaby's greatest lesson is that economic statesmanship, like political statesmanship, is the art of the possible. *The Man Who Knew* is a searching reckoning with what exactly comprised the art, and the possible, in the career of Alan Greenspan.

in my time a personal and political memoir: *I'm Here to Ask for Your Vote* Christopher J. Devine, 2023-12-19 During presidential campaigns, candidates crisscross the country nonstop—visiting swing states, their home turf, and enemy territory. But do all those campaign visits make a difference when Election Day comes? If so, how and under what conditions? Do they mobilize the partisan faithful or persuade undecided voters? What do campaigns try to achieve through campaign visits—and when do they succeed? *I'm Here to Ask for Your Vote* is a comprehensive and compelling examination of the strategy and effectiveness of presidential campaign visits. Christopher J. Devine uses an original database of presidential and vice-presidential campaign visits from 2008 through 2020 to estimate the effects of visits on vote choice and turnout, both among individual voters and within counties. He finds that campaign visits do not usually influence voting behavior, but when they do, most often it is by persuading undecided voters—as was the case for John McCain in 2008 and even Donald Trump in 2020. Challenging the recent emphasis on candidates playing to their base, this book suggests that persuasion is still a viable campaign strategy, in which candidate visits may play a major role. *I'm Here to Ask for Your Vote* is an authoritative and engaging analysis designed for scholars, strategists, students, and other readers interested in understanding how campaign visits—and campaigns more broadly—shape presidential election outcomes.

in my time a personal and political memoir: *Caring for the Heart* Bruce Fye, 2015 This groundbreaking book describes developments in the diagnosis and treatment of heart disease, explains how the Mayo Clinic became a world-famous medical center, and reveals how new technologies and procedures promoted medical specialization. It is written for general readers as

well as health care professionals, historians, and policy analysts.

in my time a personal and political memoir: Destiny and Power Jon Meacham, 2016-10-18
#1 NEW YORK TIMES BESTSELLER • In this “illuminating” (USA Today) biography, Pulitzer Prize-winning author Jon Meacham chronicles the life of George Herbert Walker Bush. “Destiny and Power reflects the qualities of both subject and biographer: judicious, balanced, deliberative, with a deep appreciation of history and the personalities who shape it.”—The New York Times Book Review
ONE OF THE WASHINGTON POST’S TEN BEST BOOKS OF THE YEAR • A BEST BOOK OF THE YEAR: The New York Times Book Review, Time, NPR, St. Louis Post-Dispatch Drawing on President Bush’s personal diaries, on the diaries of his wife, Barbara, and on extraordinary access to the forty-first president and his family, Meacham paints an intimate and surprising portrait of an intensely private man who led the nation through tumultuous times. From the Oval Office to Camp David, from his study in the private quarters of the White House to Air Force One, from the fall of the Berlin Wall to the first Gulf War to the end of Communism, *Destiny and Power* charts the thoughts, decisions, and emotions of a modern president who may have been the last of his kind. This is the human story of a man who was, like the nation he led, at once noble and flawed. From the Pacific to the presidency, *Destiny and Power* charts the vicissitudes of the life of this quietly compelling American original. Meacham sheds new light on the rise of the right wing in the Republican Party, a shift that signaled the beginning of the end of the center in American politics. *Destiny and Power* is an affecting portrait of a man who, driven by destiny and by duty, forever sought, ultimately, to put the country first.

in my time a personal and political memoir: Supreme Court Expansion of Presidential Power Louis Fisher, 2017-07-14 In the fourth of the Federalist Papers, published in 1787, John Jay warned of absolute monarchs who will often make war when their nations are to get nothing by it. More than two centuries later, are single executives making unilateral decisions any more trustworthy? And have the checks on executive power, so critical in the Founders' drafting of the Constitution, held? These are the questions Louis Fisher pursues in this book. By examining the executive actions of American presidents, particularly after World War II, Fisher reveals how the Supreme Court, through errors and abdications, has expanded presidential power in external affairs beyond constitutional boundaries—and damaged the nation's system of checks and balances. *Supreme Court Expansion of Presidential Power* reviews the judicial record from 1789 to the present day to show how the balance of power has shifted over time. For nearly a century and a half, the Supreme Court did not indicate a preference for which of the two elected branches should dominate in the field of external affairs. But from the mid-thirties a pattern clearly emerges, with the Court regularly supporting independent presidential power in times of emergency, or issues linked to national security. The damage this has done to democracy and constitutional government is profound, Fisher argues. His evidence extends beyond external affairs to issues of domestic policy, such as impoundment of funds, legislative vetoes, item-veto authority, presidential immunity in the Paula Jones case, recess appointments, and the Obama administration's immigration initiatives. Fisher identifies contemporary biases that have led to an increase in presidential power—including Supreme Court misconceptions and errors, academic failings, and mistaken beliefs about inherent powers and unity of office. Calling to account the forces tasked with protecting our democracy from the undue exercise of power by any single executive, his deeply informed book sounds a compelling alarm.
