indian science congress 2024

indian science congress 2024 marks a significant event in the scientific calendar of India, bringing together researchers, academicians, policymakers, and industry leaders from across the nation and beyond. This prestigious congress serves as a platform for sharing cutting-edge research, innovative technological advancements, and collaborative opportunities in various scientific disciplines. The Indian Science Congress 2024 aims to foster interdisciplinary dialogue, promote scientific temper, and highlight India's contributions to global science and technology. This article delves into the objectives, themes, key participants, and the expected impact of the congress. Additionally, it explores the organizational aspects, notable sessions, and how this event supports India's vision for a knowledge-driven economy. The following sections will provide a comprehensive overview of the Indian Science Congress 2024.

- Overview of Indian Science Congress 2024
- Thematic Focus and Objectives
- Key Participants and Stakeholders
- Scientific Sessions and Highlights
- Impact on Science and Technology in India
- Organizational Structure and Venue

Overview of Indian Science Congress 2024

The Indian Science Congress 2024 is the 111th edition of the annual event organized by the Indian Science Congress Association (ISCA). Established in 1914, ISCA has been instrumental in promoting scientific research and dialogue in India. The 2024 congress continues this legacy by convening experts from diverse scientific fields, including physical sciences, life sciences, engineering, and social sciences. It is expected to attract thousands of delegates, including eminent scientists, young researchers, students, and representatives from government agencies and industry. The congress serves as a confluence for presenting research findings, discussing policy frameworks, and exploring collaborative ventures.

Historical Significance

Since its inception, the Indian Science Congress has played a pivotal role in shaping the scientific landscape of the country. The event has witnessed landmark announcements, groundbreaking discoveries, and visionary addresses by renowned scientists. Indian Science Congress 2024 builds upon this rich heritage by incorporating contemporary scientific challenges and opportunities, reflecting India's evolving priorities in research and innovation.

Event Duration and Format

The congress is typically held over five days, featuring plenary sessions, symposia, paper presentations, workshops, and exhibitions. Indian Science Congress 2024 will include a hybrid format to accommodate both in-person and virtual participation, ensuring wider accessibility and engagement. This format supports international collaboration and facilitates participation despite geographical constraints.

Thematic Focus and Objectives

The theme for Indian Science Congress 2024 centers on “Innovations for Sustainable Development and Inclusive Growth.” This theme underscores the relevance of science and technology in addressing pressing global challenges such as climate change, energy security, healthcare, and food security. The congress aims to foster innovative approaches that promote sustainability while ensuring equitable access to technological benefits.

Core Objectives

The primary objectives of Indian Science Congress 2024 include:

- Showcasing cutting-edge scientific research and technological innovations.
- Encouraging interdisciplinary collaboration among researchers and institutions.
- Promoting science education and enhancing scientific literacy across communities.
- Facilitating dialogue between scientists, policymakers, and industry stakeholders.
- Highlighting India’s contributions to global scientific knowledge and innovation.

Focus Areas

Several critical scientific domains will be emphasized during the congress, including:

- Renewable energy technologies and environmental sciences.
- Biotechnology, health sciences, and pharmaceutical research.
- Information technology, artificial intelligence, and data science.
- Agricultural innovations and food security strategies.
- Space science and advanced materials research.

Key Participants and Stakeholders

Indian Science Congress 2024 is expected to host a diverse array of participants representing various sectors within the scientific ecosystem. This inclusivity ensures comprehensive discourse and knowledge exchange.

Distinguished Scientists and Researchers

Leading Indian and international scientists will present their latest research findings and share insights on emerging scientific trends. Their participation enriches the congress with expert knowledge and fosters global scientific cooperation.

Government and Policy Makers

Representatives from ministries related to science and technology, education, environment, and industry will attend to align scientific advancements with national policies. Their engagement is crucial for translating scientific outcomes into actionable strategies.

Industry and Innovation Leaders

Industry stakeholders, including startups, established companies, and technology incubators, will showcase innovations and explore partnerships with academic and research institutions. This interaction promotes the commercialization of scientific research and supports the growth of India’s technology sectors.

Students and Academia

Young scientists, postgraduate students, and academic professionals form a significant segment of the congress attendees. Their involvement encourages mentorship, skill development, and inspiration for future scientific endeavors.

Scientific Sessions and Highlights

The Indian Science Congress 2024 will feature a comprehensive program designed to cover a wide range of scientific disciplines and interdisciplinary topics. The sessions are structured to facilitate knowledge dissemination and interactive discussions.

Plenary Lectures and Keynote Speeches

Renowned scientists and thought leaders will deliver plenary lectures addressing overarching themes related to innovation, sustainability, and scientific advancement. These sessions set the tone for the congress and highlight critical scientific challenges and opportunities.

Symposia and Specialized Workshops

Focused symposia will delve into specific research areas, encouraging detailed discussions and collaboration. Workshops will provide hands-on experience with emerging technologies and methodologies, enhancing participant expertise.

Paper Presentations and Poster Sessions

Researchers will present original papers and posters showcasing their experimental results, theoretical studies, and applied research. This platform allows for peer review, feedback, and networking among scientific peers.

Exhibitions and Technology Demonstrations

Exhibits will display innovations from academic institutions, research organizations, and industry players. Technology demonstrations will highlight practical applications of scientific research, promoting knowledge transfer and commercialization.

Impact on Science and Technology in India

The Indian Science Congress 2024 is poised to make significant contributions to the advancement of science and technology within the country. It acts as a catalyst for research excellence, policy formulation, and societal benefits.

Strengthening Research Ecosystem

By facilitating collaboration across disciplines and institutions, the congress enhances the overall research ecosystem in India. It encourages the exchange of ideas, resource sharing, and joint initiatives that drive innovation.

Policy Influence and National Priorities

The deliberations and recommendations emerging from the congress inform government policies and funding priorities. This alignment ensures that scientific research addresses national challenges and supports sustainable development goals.

Encouraging Youth Participation

Indian Science Congress 2024 emphasizes nurturing young talent through dedicated sessions, awards, and mentorship programs. This focus ensures the continued growth of India’s scientific workforce and leadership.

Promoting Public Engagement with Science

Outreach activities and public lectures during the congress raise awareness about scientific advancements and their societal impact. This engagement fosters a culture of scientific curiosity and informed decision-making among the general population.

Organizational Structure and Venue

The Indian Science Congress Association oversees the organization of the congress, collaborating with host institutions and government bodies to ensure a seamless event. Indian Science Congress 2024 will be held at a prominent Indian research university or scientific institution, selected for its infrastructure and accessibility.

Organizing Committee

The organizing committee comprises eminent scientists, administrators, and experts responsible for planning and executing various aspects of the congress. Their roles include program development, logistics, participant coordination, and publicity.

Venue and Facilities

The chosen venue for Indian Science Congress 2024 will provide state-of-the-art auditoriums, conference halls, exhibition spaces, and accommodation facilities. The infrastructure supports both physical and virtual participation, enabling a hybrid event format.

Registration and Participation

Participants can register through official channels, with options for students, researchers, academicians, and industry representatives. The registration process includes submission of abstracts for paper presentations and selection for various sessions.

Frequently Asked Questions

What is the Indian Science Congress 2024?

The Indian Science Congress 2024 is an annual event organized by the Indian Science Congress Association, where scientists, researchers, and academicians from India and around the world gather to discuss recent advancements and innovations in various fields of science.

When and where will the Indian Science Congress 2024

be held?

The Indian Science Congress 2024 is scheduled to be held in January 2024. The venue is typically announced by the Indian Science Congress Association closer to the event date.

What is the theme of the Indian Science Congress 2024?

The theme of the Indian Science Congress 2024 focuses on cutting-edge scientific research and sustainable development, highlighting innovations that contribute to India's growth and global scientific progress.

Who can participate in the Indian Science Congress 2024?

Participants in the Indian Science Congress 2024 include scientists, researchers, students, policymakers, and industry experts who are involved or interested in scientific research and technology.

How can one register for the Indian Science Congress 2024?

Registration for the Indian Science Congress 2024 can be done online through the official Indian Science Congress Association website, where interested participants can find details about submission of abstracts, registration fees, and deadlines.

Additional Resources

1. *Innovations and Insights: Proceedings of the Indian Science Congress 2024*
This comprehensive volume compiles the latest research findings and scientific discussions presented during the Indian Science Congress 2024. It covers a wide range of disciplines including biotechnology, environmental science, and space technology. Scholars and enthusiasts will find detailed papers that highlight India's growing role in global scientific advancements.

2. *Frontiers of Science: Breakthroughs Unveiled at Indian Science Congress 2024*
Explore the cutting-edge discoveries and technological innovations showcased at the 2024 Indian Science Congress. This book captures keynote addresses, panel discussions, and emerging trends in science and technology that are shaping the future. It serves as a valuable resource for researchers and policymakers alike.

3. *Environmental Challenges and Solutions: Insights from Indian Science Congress 2024*
Focusing on sustainability and environmental science, this book presents critical research on climate change, renewable energy, and conservation efforts discussed at the congress. It highlights India's initiatives and collaborative efforts to address global environmental issues. Readers will gain a deeper understanding of the scientific approaches driving ecological balance.

4. *Biotechnology and Healthcare Advances: Indian Science Congress 2024*

Perspectives
Delve into recent advancements in biotechnology and healthcare featured at the Indian Science Congress 2024. Topics include genetic engineering, pharmaceuticals, and public health innovations. The book provides a detailed overview of how science is improving healthcare outcomes in India and beyond.

5. *Emerging Technologies and Digital Innovation at Indian Science Congress 2024*
This title explores the impact of artificial intelligence, machine learning, and robotics as presented during the congress. It discusses how digital transformation is accelerating scientific research and industrial applications. Technology enthusiasts and professionals will find valuable insights into India's evolving tech landscape.

6. *Space Science and Astronomy: Highlights from Indian Science Congress 2024*
Covering India's strides in space exploration, satellite technology, and astrophysics, this book gathers significant presentations and research from the congress. It reflects the nation's ambitious space missions and collaborations with international space agencies. Readers interested in cosmic science will appreciate the detailed analyses and discoveries.

7. *Science Education and Outreach: Strategies from Indian Science Congress 2024*
This book addresses the importance of science communication, education reforms, and public engagement discussed during the event. It offers innovative approaches to making science accessible and inspiring the next generation of scientists. Educators and communicators will find practical strategies and case studies to enhance learning experiences.

8. *Materials Science and Nanotechnology: Developments at Indian Science Congress 2024*
Highlighting breakthroughs in nanomaterials, smart materials, and their applications, this volume presents key research shared at the congress. It explores how material innovations are driving progress in electronics, medicine, and manufacturing. The book is essential for scientists and engineers focused on advanced material technologies.

9. *Policy and Collaboration: The Future of Science in India Post-Indian Science Congress 2024*
Analyzing the policy discussions and international collaborations emphasized during the congress, this book offers insights into India's scientific roadmap. It covers funding strategies, research infrastructure, and global partnerships aimed at fostering innovation. Policymakers and stakeholders will find this work crucial for understanding the direction of Indian science.

indian science congress 2024: *Modi: The Challenge of 2024* Minhaz Merchant, 2024-06-10 The Opposition’s 26-party Indian National Developmental Inclusive Alliance (INDIA) aims to pose a serious challenge to the BJP-led National Democratic Alliance (NDA) in the 2024 Lok Sabha election. Despite the coalition leaders’ ideological differences and regional rivalries, their overwhelming intent is to prevent Narendra Modi from becoming the first Indian since Jawaharlal Nehru to win three successive five-year prime ministerial terms. The 2024 Lok Sabha election could prove historic. If Narendra Modi wins a third successive five-year prime ministerial term, he will be the first Indian leader to do so since Jawaharlal Nehru. In this sweeping account of events leading up to the 2024 General Election, Minhaz Merchant analyses how Modi has shaped Indian politics, economics and culture during his decade as prime minister. The book examines whether the Opposition’s strategy to present a united front can derail the BJP’s juggernaut. For example, can Congress leader Rahul Gandhi, West Bengal Chief Minister Mamata Banerjee and regional satraps in Opposition-ruled states put aside their differences? Minhaz Merchant has met and interviewed Modi several times since 2012. The author analyses Modi’s policies across key domains: geopolitics, economics, technology and social reform. Broken up into ten broad sections and thirty-one chapters, the book decodes Modi’s evolution over the past decade from a regional leader to a global statesman.

indian science congress 2024: Proceedings of the Indian Science Congress Indian Science Congress Association, 1992

indian science congress 2024: *CLAT UG Study Notes for Complete Preparation 2024 | Includes Subject : English Language, Current Affairs & GK, Legal Reasoning ,Logical Reasoning, Quantitative Techniques | Topic-wise practice tests* EduGorilla Prep Experts, EduGorilla's CLAT UG Study Notes are the best-selling notes for LLB aspirants. This Book include topics from CLAT UG syllabus - English, Current Affairs, GK, Legal Resoning, Logical Reasoning, and Quantitative Techniques. The content is well-researched and covers all topics related to CLAT UG Entrance Test. The book is designed to help students prepare thoroughly for their CLAT UG exam, with topic-wise study notes that are comprehensive and easy to understand. EduGorilla's CLAT UG notes also include solved multiple-choice questions (MCQs) for self-evaluation, allowing students to gauge their progress and identify areas that require further improvement. This Book perfect for understanding the pattern and type of questions asked in CLAT UG as they are tailored to the latest syllabus of the LLB entrance exam, making them a valuable resource for exam preparation.

indian science congress 2024: TSPSC Group 1 : Prelims Exam 2024 - General Studies and Mental Ability | Telangana State Public Service Commission | 10 Full Practice Tests EduGorilla Prep Experts, 2024-07-06 • Best Selling Book in English Edition for TSPSC Group 1 : Prelims Exam with objective-type questions as per the latest syllabus given by the Telangana State Public Service Commission. • Compare your performance with other students using Smart Answer Sheets in EduGorilla’s TSPSC Group 1 : Prelims Exam Practice Kit. • TSPSC Group 1 : Prelims Exam Preparation Kit comes with 10 Practice Tests with the best quality content. • Increase your chances of selection by 16X. • TSPSC Group 1 : Prelims Exam Prep Kit comes with well-structured and 100% detailed solutions for all the questions. • Clear exam with good grades using thoroughly Researched

Content by experts.

indian science congress 2024: The Indian Science Community Venni V. Krishna, 2024-09-30 This book focuses on the historical and sociological dimensions of scientists working in laboratories in India, offering insights into the historical, sociological and policy factors that shape scientific pursuits. It illuminates the challenges, accomplishments and the evolving role of science in societal development. The author initiates a broader discourse on the interplay between scientific advancements, societal contexts and policy frameworks. The book fosters a deeper understanding of science's role in shaping India's social fabric and contributing to the global scientific dialogue. It also explores issues such as brain drain, science activism and the conflict between university- and government-run models of science. Lucid and topical, the book will be of considerable interest to both social and natural scientists, as well as the general academic community, including research students in science, technology, history, social history of science, science and technology studies and innovation policies.

indian science congress 2024: *Master Static General Knowledge & Current Affairs for Competitive Exams | Fundamental GK | The Yearly Current Affairs 2024 | UPSC, State PSC, CUET, SSC, Bank PO/ Clerk, BBA, MBA, RRB, NDA, CDS, CAPF, CRPF |* , Book 1: The thoroughly revised, updated & enlarged 5th edition of the book Fundamental General Knowledge with Free eCourse (2 colour) provides a comprehensive updation of all sections - Geography, History, Polity, Economy, Business, General Science, Ecology & Environment, Art & Culture, Sports, Healthcare, Communication, News & Media, Education & Career, IT & Computers and Technology along with the addition of a powerful eCourse consisting of 30 Hour Video Leactures & 30 GK Quizzes. The USP of the book is the use of Infographics, MindMaps, Tables, Charts etc. to present information so as to make it the Most Student Friendly book for students. Book 2: The udated 9th edition of the book Yearly Current Affairs 2024 (4 colour) captures the Most Important Events, Issues, Ideas & People of 2023 in a very lucid and student friendly manner. The book covers articles on Burning issues, India/ World Timeline, People, Events, Ideas and Issues that left their mark in 2023, India/ World at a Glance, Global Economic Outlook, Bills & Acts, Policies & Schemes, Books & Authors, Popular Terms, Important Appointments, Awards & Honors, Obituaries, Top 20, and many more.

indian science congress 2024: Harsh K. Gupta Harsh K. Gupta, 2024-08-19 This book captures the essence of one of the most remarkable journeys of a professional who prevailed over numerous challenges and adverse situations that appeared before him from nowhere and how he emerged victorious to be hailed at a global forum of the American Geophysical Union in 2008. The author reflects upon the circumstances and times in post-independent India that threw him out of the comforts of a well-to-do family into the real world. He traces back his entry into the field of earthquake science and dwells at length upon the scope and freedom it offered for innovative thinking in the field with limitless opportunities. Mishaps and accidents paved the way to remarkable discoveries and achievements including the creation of the world record for establishing and populating India's first permanent base station in Antarctica in a record time of one Antarctic summer despite having a near-fatal helicopter crash on 4th day after reaching Antarctica. Stressing the need to live safely with earthquakes as their short-term prediction is not a possibility yet, the author advocates a two-prong strategy of directly looking into the earthquake source region deep inside the earth and developing an earthquake-resilient society, simultaneously. He cites the success story of the Indian Tsunami Early Warning System that is operational in the Indian Ocean, today. The book inspires young professionals with a flair for challenges and a burning desire to achieve results at any cost. This book provides important information in a nutshell about artificial water reservoir triggered earthquakes, India's building of the Dakshin Gangotri all-weather station in Antarctica, Indian Ocean Tsunami warning set-up, Low-Temperature Thermal Desalination, etc. The main objective of the book is to inspire a generation of young minds through a narration of scientific achievements that did not come easily to him. The aim is to tell them the difference between a reaction and a response to a given situation, the former being impulsive and irrational and the latter responsible and rational.

indian science congress 2024: *2024-25 SSC JE Mechanical Engineering Solved Papers* YCT Expert Team , 2024-25 SSC JE Mechanical Engineering Solved Papers

indian science congress 2024: *Neuroreceptor Endocytosis and Signaling in Health and Disease* Indra Mani, 2025-04-26 This book covers a wide range of neuroreceptor topics, including receptor endocytosis and signaling and the role of neuroreceptors in health and disease conditions. It focuses on various important nervous system receptors and their biomedical applications, especially receptor signaling. The book provides a look into the current developments of various neuroreceptors responsible for pathophysiological conditions. It is a valuable, cutting-edge, in-depth reference on neuroreceptors, featuring clearly written chapters from major contributors in the field. The central aim is to aid future investigators, researchers, students, and stakeholders to perform their research with greater ease. This book provides an excellent basis from which scientific knowledge can grow, widen, and accelerate receptor biology tools toward biomedical applications.

indian science congress 2024: Target PT 2020 in 100 days: UPSC Prelims: day 31-45 MCQs R P Meena, Target PT 2020 in 100 days: UPSC Prelims: day 31-45 MCQs The first stage of UPSC Civil Service Examination is Preliminary Examination. The pattern of the examination is objective type, where you need to select the correct answer using the four options given. In such a pattern students tends to fall into the trap of confusion and anxiety and choose wrong answer. In order to avoid doing such kind of mistake is to practice multiple choice questions as many as possible. To be thorough with a particular topic one must solve as many mcqs as possible this will not only make the concepts more firm but will also boost confidence .This UPSC Prelims pdf consists of around 400-500 free mcqs of Environment/Biodiversity/Ecology for UPSC Prelims. These important mcqs for IAS Prelims are developed by keeping UPSC prelims syllabus in mind. This will make your preparation a full proof one. This UPSC study material of Environment/Biodiversity/Ecology mcqs covers not only static topics but also current events. Solving these mcqs will give you an added advantage and will help you in the examination .This will ensure that you don’t succumb to the pressure of the examination hall and clear this examination with vibrant colors. Target PT 2020 in 100 days: UPSC Prelims: day 31-45 MCQs

indian science congress 2024: Human-Centered AI Applications for Medical Informatics Coskun, Hüseyin, 2025-10-03 Artificial intelligence (AI) is reshaping healthcare by enhancing diagnostic accuracy, treatment efficiency, and patient monitoring, yet its true potential lies in systems that center human values. Human-Centered AI (HCAI) ensures that these technologies are transparent, fair, privacy-conscious, and responsive to both clinicians and patients. As healthcare increasingly relies on complex AI tools, maintaining human oversight is essential to foster trust, ethical integrity, and meaningful patient engagement. HCAI transforms not only the technical side of care but also reinforces compassion, dignity, and equity in health systems. Human-Centered AI Applications for Medical Informatics addresses the current and future applications of AI in health and medical informatics from a human-centered perspective. It illuminates not only the opportunities offered by technology, but also the ethical, social, and practical aspects of these opportunities. Covering topics such as blockchain, human psychology, and public perception, this book is an excellent resource for academicians, researchers, healthcare professionals, software developers, data scientists, industry professionals, and more.

indian science congress 2024: Science, Technology and Innovation Ecosystem: An Indian and Global Perspective Kashmir Singh, Nirmala Chongtham, Radhika Trikha, Mamta Bhardwaj, Sukhdeep Kaur, 2024-07-22 Science, Technology, and Innovation (STI) are the key drivers of the economy and development of a country. The economic and social impacts of STI require a deep understanding of the STI ecosystem, which includes the interactions between actors, their technologies, and their business models. This book, Science, Technology, and Innovation Ecosystems: A National and Global Perspective, focuses on the STI ecosystem of India in comparison to other innovation-backed global countries. It will include a study of the entire STI ecosystem, focusing on the system interconnectedness required for strengthening it. The building of interconnection within actors of the STI ecosystem is one of the paramount requirements to

reinvigorate the STI ecosystem as a whole. The book will also present the crucial role of STI in bringing socio-economic development from a national and international perspective. It addresses the development of viable solutions for a sustainable future and a positive societal transformation with the help of innovative science-based approaches. This book showcases the future of science in terms of emerging frontier and strategic technologies, giving us a snapshot of future STI efforts worldwide. Emphasis is given to the policy directives and program interventions backed by evidence to revamp the STI system by addressing the societal and economic needs of the country. The book will strategically bring the concept of the relevance of the Intellectual Property (IP) ecosystem in building the country's innovation capacity along with specific pieces of evidence on how the IP system should be roped in to bring higher innovation efficiency. An insight is provided to chart out the pathway for creating a knowledge-based economy focusing on knowledge production to knowledge consumption through knowledge diffusion.

indian science congress 2024: JPSC Mains Assistant Engineer Section-I (Objective Papers) for Civil Engineering with Previous Year Questiona onlineverdan, Hemant Jain, This Book is designed for Civil Engineering aspirants those are appearing in Mains Exam of JPSC (Jharkhand Public Service Commission) Assistant Engineer. It covers complete syllabus of Section-I (Objective Papers) of JPSC Mains by dividing it in three parts; Civil Engineering Paper-I, Civil Engineering Paper-II and General Ability according to the Exam pattern. The Book not only consists major subjects of Civil Engineering, like SOM, TOS, Building Materials, RCC, Steel, Soil, Environment, FM, Machines, Highways, but also, includes minor subjects, such as Railway and Airport, Docks and Harbour, etc. Even, in the Book, the General Ability part is also classified in sub-parts of General English, Indian History, Polity, Economy, Geography, General Science and in most important Current Affairs. The Book also includes questions of Previous Year JPSC Mains Exam. There are a total of 4100+ questions in the Book published in more than 600 Pages. Due to its exam oriented pattern, we hope, this Book will fulfill all needs of aspirants of JPSC Mains.

indian science congress 2024: SSC Staff Selection Commission Multi-Tasking Staff Non-Technical Staff And Havaldar (Cbic & Cbn) Recruitment Examination (Computer Based Examination-CBE)-2024 With Latest Solved Papers & MCQ Complete Study Guide Team Prabhat, 2024-08-31 A Comprehensive Study Guide Designed For Candidates Preparing For The SSC (Staff Selection Commission) Multi-Tasking Staff (MTS) and Havaldar (CBIC & CBN) Recruitment Examination For 2024. Overview of The Book: Solved Papers: Previous years' question papers with detailed solutions to help candidates understand the exam pattern and types of questions asked. Multiple-Choice Questions (MCQs): A collection of practice questions with answers and explanations to reinforce learning and test readiness. Study Guides: Detailed explanations of various topics relevant to the exam, including General Intelligence and Reasoning, Numerical Aptitude, General English, and General Awareness. indian science congress 2024: *Decolonizing Science and Modernity in South Asia* Sahara Ahmed, Suvobrata Sarkar, 2024-09-19 This book offers a unique perspective on the colonial roots of modern science, technology, and medicine (STM) in South Asia. The book questions the deconstruction of imperial visions and definitions of science and modernity in South Asia. It presents an in-depth analysis of the contested relationship between science, modernity, and colonialism. It explores how new research can contribute to the diversification of perspectives in the history and

sociology of modern South Asian studies. The chapters in the book delve into various aspects of STM in South Asia. It covers diverse topics, including the social, cultural, and pedagogic context of early modern Bengal, the popularization of science in colonial Punjab, the Hindi science periodical Vigyan, and the emergence of the Indian science community. The book also examines the intersection of indigenous medical practices, ayurveda, Unani, and medical revivalism and highlights peripheral creativity in science. The contributors engage with the existing historiography to raise new questions concerning the global circulations of scientific knowledge from the perspective of South Asia and the regional appropriation of the same. It connects the history of science and modernity with South Asia's socio-economic and cultural background. It offers valuable insights into the decolonization of STM. It greatly interests scholars and students of modern South Asian history, sociology, social anthropology, and Science, Technology and Society Studies (STS).
