math playground bike hero: Legends of the Twins Cirpaci Terry B. Murphy, 2021-10-19 In 2001, the author and her husband traveled to Romania to adopt their two-year old son. Upon arrival, they received the shocking news that he had a twin sister with special needs living at the same orphanage. Legends of the Twins Cirpaci describes their frantic three-year effort to adopt her and reunite her with her brother, all in the midst of Romania's moratorium on intercountry adoption as the country attempted to join the European Union. The book also recounts the deleterious impact of Romania's harsh orphanage system on the children's development in various areas of their lives, and their courage in overcoming these challenges. Compelling and poignant, this is a story that every

parent (not just adoptive parent) could benefit from reading. Unlike many adoption books, it also includes the twins' perspectives on what happened to them. As such, older adopted children might also find it helpful. Both biography and parenting narrative, it describes a nearly unbelievable (but it really did happen!) situation in a relatable way. Filled with humor and heart, *Legends of the Twins* Cirpaci is ultimately a triumph of the extraordinary power of care, the capacity of human beings to overcome severe deprivation, and the beauty of the human spirit. *Legends of the Twins* Cirpaci is a heart-warming and sometimes heart-wrenching tale of a journey of love, determination, patience, and humor. Reading it is a reminder of all that family can be in its best incarnation, and that belonging does not depend on biology. A wonderful, funny read. math playground bike hero: Motocross Saved My Life Brent Worrall, 2019-10-18 In 2011, former Canadian national champion motocross racer Brent (Airmail) Worrall, who had recently returned to the sport after a lengthy absence due to struggles with alcohol, gambling, and depression, was again in a fight to save his own life. His shot at redemption and making peace with the sport he loves was cut short by a near-fatal crash. A mechanical malfunction in mid-flight over the track's largest jump sent him spiralling into a nose dive. He had just enough time while airborne to say, "Survive, survive, survive." He broke his back and neck in six places, fractured his clavicle, sternum, and multiple ribs and collapsed his lungs. After flat-lining on the operating table four times, Brent's doctors finally managed to stabilize him. He required two blood transfusions, and his doctors feared the worst. He emerged from hospital a paraplegic, given only five to ten years to live due to various complications from his accident. After losing the sport he loved many years before to the seedy underworld of depression, alcoholism, drugs, and compulsive gambling, he vowed never to let go of his lifeline passion again. Brent meticulously takes us through his troubled journey to the eventual promised land where he now sits. Along the way, he recounts his many inspirational interactions with those who helped mould his character, including Rick Hansen on his Man in Motion tour as well as looking into Terry Fox's eyes on his Marathon of Hope. In keeping with his character as an avid sports and history enthusiast, Brent takes us back through many pertinent historical events that shaped his life and society as a whole. Two years after his accident, Brent was back at the track, this time to announce races rather than participate in them. Shortly after that, he launched the Canadian Moto Show, a live online talk-radio show, as well as a magazine, with his good friend Kevin Lefebvre. Throughout the process of giving back to the motocross community while also reinventing himself, he maintained a position as a senior writer at Motocross Performance Magazine. In 2016, he was nominated for a Coast Mental Health Courage to Come Back award. He continues to reshape his life within the sport he loves, refusing to let any of the formidable obstacles he has faced slow him down. This book is Brent's firsthand account of his journey, written in all five senses, with the hope that his story will motivate and inspire others to see that any seemingly insurmountable obstacles can be overcome.

math playground bike hero: Remain in Love Chris Frantz, 2020-07-21 Two iconic bands. An unforgettable life. One of the most dynamic groups of the '70s and '80s, Talking Heads, founded by drummer Chris Frantz, his girlfriend Tina Weymouth, and lead singer David Byrne, burst onto the

music scene, playing at CBGBs, touring Europe with the Ramones, and creating hits like “Psycho Killer” and “Burning Down the House” that captured the post-baby boom generation’s intense, affectless style. In *Remain in Love*, Frantz writes about the beginnings of Talking Heads—their days as art students in Providence, moving to the sparse Chrystie Street loft Frantz, Weymouth, and Byrne shared where the music that defined an era was written. With never-before-seen photos and immersive vivid detail, Frantz describes life on tour, down to the meals eaten and the clothes worn—and reveals the mechanics of a long and complicated working relationship with a mercurial frontman. At the heart of *Remain in Love* is Frantz’s love for Weymouth: their once-in-a-lifetime connection as lovers, musicians, and bandmates, and how their creativity surged with the creation of their own band Tom Tom Club, bringing a fresh Afro-Caribbean beat to hits like “Genius of Love.” Studded with memorable places and names from the era—Grace Jones, Andy Warhol, Stephen Sprouse, Lou Reed, Brian Eno, and Debbie Harry among them—*Remain in Love* is a frank and open memoir of an emblematic life in music and in love.
