Goudkamp, Eleni Katsampouka, 2023-12-28 Punitive damages are private law's most controversial remedy. This book traces the development of the jurisdiction from the foundational decisions of *Huckle v Money* and *Wilkes v Wood* in England, to leading modern cases such as *Harris v Digital Pulse Pty Ltd* in Australia, *Whiten v Pilot Insurance Co* in Canada, *Couch v AG (No 2)* in New Zealand, *PH Hydraulics and Engineering Pte Ltd v Airtrust (Hong Kong) Ltd* in Singapore and *Mathias v Accor Economy Lodging, Inc* and *State Farm Mutual Automobile Insurance Co v Campbell* in the United States. Many of the decisions addressed are not only landmarks regarding punitive damages but are among the most important judgments delivered in private law more generally. The essays, which are written by leading scholars from a wide range of jurisdictions, cast new light on the cases covered. They do so by examining their historical antecedents and the impact that they have had on the development of the law. The full spectrum of issues regarding punitive damages is addressed including the insurability of punishment, constitutional constraints on the remedy's availability and whether the award should be confined to particular causes of action. The collection will be of interest to all scholars and students of private law. It concentrates on common law cases although civilian perspectives, drawn from France and Germany, are also offered.

mathias v accor economy lodging: The Psychology of Tort Law Jennifer K Robbennolt, Valerie P Hans, 2016-01-01 Tort law regulates most human activities: from driving a car to using consumer products to providing or receiving medical care. Injuries caused by dog bites, slips and falls, fender benders, bridge collapses, adverse reactions to a medication, bar fights, oil spills, and more all implicate the law of torts. The rules and procedures by which tort cases are resolved engage deeply-held intuitions about justice, causation, intentionality, and the obligations that we owe to one another. Tort rules and procedures also generate significant controversy—most visibly in political debates over tort reform. *The Psychology of Tort Law* explores tort law through the lens of psychological science. Drawing on a wealth of psychological research and their own experiences teaching and researching tort law, Jennifer K. Robbennolt and Valerie P. Hans examine the psychological assumptions that underlie doctrinal rules. They explore how tort law influences the behavior and decision-making of potential plaintiffs and defendants, examining how doctors and patients, drivers, manufacturers and purchasers of products, property owners, and others make decisions against the backdrop of tort law. They show how the judges and jurors who decide tort claims are influenced by psychological phenomena in deciding cases. And they reveal how plaintiffs, defendants, and their attorneys resolve tort disputes in the shadow of tort law. Robbennolt and Hans here shed fascinating light on the tort system, and on the psychological dynamics which undergird its functioning.

mathias v accor economy lodging: LAW OF COPYRIGHT, SECOND EDITION DAS, JATINDRA KUMAR, 2021-02-01 The book attempts to critically analyse the cases on the law of copyright as well as statutory provisions of law of copyright. When the first edition of the book was published in 2015, there was no readable and dependable book for the general reader interested to be acquainted with the changing features of the law of copyright immediate after the enactment of the Copyright (Amendment) Act 2012. Since the publication of this book, the Finance Act 2017 has introduced Appellate Board in place of Copyright Board as well as the Supreme Court and High Courts in India have also delivered a large number of judicial decisions on the law of copyright. In this edition the author has surveyed all such Courts decisions and analysed them and inserted them in appropriate places of the book and also examined the impact of the Appellate Board. It presents not only the provisions of the Copyright Act 1957 in the form of a normative, but points out the changes made thereon by formal amendments as well as conflicts of law which have been settled by judicial interpretations. The book is divided into ten chapters. Chapter 1 is introductory, while Chapters 2 and 3 discuss the origin and development of law of copyright at international as well as national level. The most important debatable issue in copyright law is “works in which copyright subsists”, and the Chapter 4 is devoted to this aspect. Chapter 5 explores various issues relating to author of work, owner of copyright and recognised rights of copyright owner. The terms of copyright, licensing of copyright, international copyright and registration of copyright are the

subject matter of Chapter 6, while rights of broadcasting organisation and of performers (neighbouring rights) are the subject matter of Chapter 7. Internet is the greatest communication medium of the contemporary era, and there is an inherent link between law of copyright and internet. Therefore, Chapter 8 is devoted to discuss various issues relating to “protection of copyright in internet.” While Chapter 9 demonstrates the law relating to infringement of copyright and defences of copyright liability. Chapter 10, the concluding chapter, discusses the enforcement of copyright in India in detail. Though the book is designed for the undergraduate and postgraduate students of Law, it will be equally beneficial for the researchers, academicians, jurists, lawyers, judges as well as members of civil society. **TARGET AUDIENCE** • Undergraduate and postgraduate students of Law. • Researchers, Academicians, Jurists, Lawyers, Judges as well as members of Civil Society.

mathias v accor economy lodging: French Civil Liability in Comparative Perspective Jean-Sébastien Borghetti, Simon Whittaker, 2019-12-26 The French law of torts or of

extra-contractual liability is widely seen as exceptional. For long it was based on a mere five articles of the Civil Code of 1804, but on this foundation the courts and legal scholars have constructed liabilities for fault and strict liability of an extraordinary breadth and significance. While the rest of the general law of obligations (including contract) in the Civil Code was reformed in 2016 by executive ordonnance, this area was left aside, being the subject in 2017 of a proposal by the French Government for the legislative reform of the law of civil liability, a new legislative category to include both contractual and extra-contractual liability. This work considers important aspects of this developing area of French law in a series of essays by French lawyers and comparative lawyers working in French law and other civil law systems. In doing so, it provides insight into the doctrinal thinking and judgments of French lawyers as well as the possible directions in which this area of the law may be developed in the future.

mathias v accor economy lodging: An Elephant in the Living Room

Wendell Whitney Thorne, 2009-05 If You Hate Lawyers, you'll Love An Elephant In The Living Room - Is It Too Late To Kill All The Lawyers? The United States has drifted away from the Founders' concept of We The People to a nation gripped by the rule of Law. Nearly everything we do on a daily basis from before we're born until after we die falls under the cloud of The Law. Worse than that, in the past several decades The Law has deputized us into a legion of civil litigants and pseudo-prosecutors who have been conditioned to seek legal retribution for every conceivable wrongdoing of another. The problem? The Law is a shaky house of cards poorly constructed and self-affirmed by her well-paid practitioners, whose sole goal is to stir the pot of dispute amongst The People to feed the greedy monster called The Law, and to line the pockets of her lawyers. An Elephant In The Living Room - Is It Too Late To Kill All The Lawyers? is one insider's view--one who's been there, done that--of The Law; how it hurts, how it hinders, and how it subtly but deftly burdens The People with mind-boggling constraints on Liberty, Life and the Pursuit of Happiness. An Elephant In The Living

Room - Is It Too Late To Kill All The Lawyers?, through both personal experience anecdotes as well as historically significant legal cases, tells it like it is in layman's language while offering inspiration and encouragement, empowering The People to take our Country back!
