medicine bow virginian hotel: The Old Iron Road David Haward Bain, 2022-09 In the summer of 2000 David Haward Bain and his family left their home in Vermont and headed west in search of America's past. Spiritually, their journey began on a Kansas trail where the author's grandmother was born in a covered wagon in 1889. Between the Missouri River and the Golden Gate, they retraced the entire route of the first transcontinental railroad and large stretches of the Oregon and California trails, and the equally colorful old Lincoln Highway. Following vanished iron rails and wagon wheel ruts, bumping down backroads and main streets, they discovered the deep, restless, uniquely American spirit of adventure that connects our past to our present. A superb writer and an exacting researcher, Bain conjures up a marvelous sense of coming unstuck in time as he lingers in the ghost towns and battlegrounds, prairies and river ports, trainyards, museums, deserts, and diners that line his cruise west to California. Bain encounters a fascinating cast of characters, both historic and contemporary, as well as memories of his grandparents and the journeys that shaped his own heritage. Writing in the tradition of William Least Heat-Moon and Ian Frazier, and with an engaging warmth and a deep grasp of history all his own, Bain has fashioned a quintessentially American journey.

Harman, 2021-04-26 The previous edition of *Plains to the Pacific* won a national award in the Spiritual and Inspirational category with IndieReader in 2017. The emergence of this project is due to a fascinating discovery by coauthor James Harman: his great-grandfather Robert Slothower (born in 1871) had written a life-story manuscript. Robert's story represents a challenging life met with great courage. The son and grandson of Civil War soldiers who fought on the Union side, Robert Slothower clearly inherited the strength of a bygone era. Farming, homesteading, and painful lessons of loss are part of Robert Slothower's life. Being separated from the rest of his family for seven years as a boy. Then as a young man, the pain of losing his young wife on the remote Wyoming homestead is overwhelming, but Robert Slothower overcomes adversity and rebuilds his life. medicine bow virginian hotel: Lincoln Highway 101 John Mulhern III, 2015-03-31 In this book, John Mulhern III writes about traveling a total of 6,281 miles in 15 days - a route through sixteen widely (and wildly) different states including not only stops in the cities of New York City, Salt Lake City, San Francisco, and Denver, but also nights in the small cities and towns of

Warsaw, Marshalltown, and North Platte. medicine bow virginian hotel: American Road Pete Davies, 2014-01-14 A fascinating account of the greatest road trip in American history. On July 7, 1919, an extraordinary cavalcade of sixty-nine military motor vehicles set off from the White House on an epic journey. Their goal was California, and ahead of them lay 3,250 miles of dirt, mud, rock, and sand. Sixty-two days later they arrived in San Francisco, having averaged just five miles an hour. Known as the First Transcontinental Motor Train, this trip was an adventure, a circus, a public relations coup, and a war game all rolled into one. As road conditions worsened, it also became a daily battle of sweat and labor, of guts and determination. *American Road* is the story of this incredible journey. Pete Davies takes us from east to west, bringing to life the men on the trip, their trials with uncooperative equipment and weather, and the punishing landscape they encountered. Ironically one of the participants was a young soldier named Dwight Eisenhower, who, four decades later, as President, launched the building of the interstate highway system. Davies also provides a colorful history of transcontinental car travel in this country, including the first cross-country trips and the building of the Lincoln Highway. This richly detailed book offers a slice of Americana, a piece of history unknown to many, and a celebration of our love affair with the road.

Evanston survived and thrived through many boom and bust cycles by having a good strong base of loving, committed citizens. Told through the eyes of a city official who served Evanston as a three-term city council member and a three-term mayor, and meticulously documented using city council minutes, Mayor Ottley shows how this role affected his life and family, and the hell he went through trying to keep the community together through one of the most challenging boom periods in Wyoming history. The book gives a full account of the best and worst of politics in a small town, and how untruths, innuendoes, partisan politics, and right-down vicious lies came close to splitting the city. But this mayor, who was dedicated to the people and driven by his love for his community, was able to keep the economy strong and the community united.
