This diet focuses on natural, minimally processed foods that are abundant in nutrients and promote heart health. The Mediterranean diet is characterized by a high intake of plant-based foods, moderate consumption of fish and poultry, limited red meat, and use of healthy fats, particularly olive oil. These components work synergistically to reduce inflammation, improve cholesterol levels, and support overall health.

## Fruits and Vegetables

A wide variety of fresh fruits and vegetables form the foundation of the Mediterranean diet. These foods provide essential vitamins, minerals, fiber,

and antioxidants. Common choices include leafy greens, tomatoes, cucumbers, bell peppers, berries, oranges, and grapes. Seasonal and local produce is preferred to maximize flavor and nutritional value.
