political science major usf: *Afro-Politics and Civil Society in Salvador da Bahia, Brazil* Kwame Dixon, 2022-08-02 Brazil's Black population, one of the oldest and largest in the Americas, mobilized a vibrant antiracism movement from grassroots origins when the country transitioned from

dictatorship to democracy in the 1980s. Campaigning for political equality after centuries of deeply engrained racial hierarchies, African-descended groups have been working to unlock democratic spaces that were previously closed to them. Using the city of Salvador as a case study, Kwame Dixon tracks the emergence of Black civil society groups and their political projects: claiming new citizenship rights, testing new anti-discrimination and affirmative action measures, reclaiming rural and urban land, and increasing political representation. This book is one of the first to explore how Afro-Brazilians have influenced politics and democratic institutions in the contemporary period. Publication of the paperback edition made possible by a Sustaining the Humanities through the American Rescue Plan grant from the National Endowment for the Humanities.

But, in the last three decades, Tampa has seen the rise of a new and vibrant immigrant community, namely the Indian American community (meaning those men and women with roots in India) that is helping lead Tampa into a better tomorrow. Yet, the majority of the Tampa Bay community still seems unaware of the significance of Indian Americans in the life of the city.
