

politics in the 1920s

politics in the 1920s marked a pivotal era in American history characterized by significant social, economic, and political shifts. This decade, often referred to as the Roaring Twenties, witnessed the aftermath of World War I and the rise of new political ideologies and movements that shaped the United States' domestic and foreign policies. The political landscape was influenced by the Republican dominance in the White House, the enforcement of Prohibition, and debates over immigration and civil rights. Additionally, the decade saw significant legislative changes and the emergence of influential political figures. This article explores the major themes and developments in politics during the 1920s, providing a comprehensive overview of the era's political climate and its lasting impact on American governance and society.

- The Republican Dominance and Presidential Leadership
- Prohibition and its Political Implications
- Immigration Policies and Nationalism
- Labor Movements and Economic Policies
- Racial Politics and Civil Rights Issues

The Republican Dominance and Presidential Leadership

The 1920s were largely defined by Republican control of the federal government, with three consecutive Republican presidents leading the nation: Warren G. Harding, Calvin Coolidge, and Herbert Hoover. Their administrations emphasized pro-business policies, limited government

intervention, and a return to "normalcy" following the upheaval of World War I. This era saw attempts to stabilize the economy and reduce the national debt through conservative fiscal policies.

Warren G. Harding's Administration

Warren G. Harding, elected in 1920, campaigned on a promise of a "return to normalcy," appealing to Americans weary from war and progressive reforms. His presidency focused on reducing taxes, cutting government spending, and promoting business growth. However, Harding's term was marred by scandals such as the Teapot Dome affair, which exposed corruption within his administration and shook public confidence in the government.

Calvin Coolidge's Conservative Governance

Following Harding's death, Calvin Coolidge assumed the presidency and continued the Republican agenda of limited government and economic conservatism. Coolidge championed laissez-faire capitalism, believing that government should interfere minimally in business affairs. His policies coincided with a period of rapid economic growth, often called the "Coolidge Prosperity," although critics argue that this approach contributed to economic disparities and instability.

Herbert Hoover's Presidency and the Onset of the Great Depression

Herbert Hoover, who became president in 1929, initially continued Republican economic policies but faced unprecedented challenges with the stock market crash and the beginning of the Great Depression. His administration's response to the economic crisis was criticized as inadequate, leading to a decline in Republican popularity by the end of the decade.

Prohibition and its Political Implications

The 1920s were marked by the nationwide enforcement of Prohibition, a constitutional ban on the manufacture, sale, and transportation of alcoholic beverages under the 18th Amendment and the Volstead Act. This policy had profound political and social consequences, influencing law enforcement, political discourse, and public attitudes toward government regulation.

Origins and Enforcement of Prohibition

Prohibition was the result of decades of temperance movements advocating for alcohol restrictions to reduce social problems associated with drinking. Its enforcement was entrusted to federal and state authorities, but widespread noncompliance and the rise of illegal alcohol production and distribution created enforcement challenges.

Political Consequences of Prohibition

Prohibition fueled the growth of organized crime, as bootleggers and speakeasies became ubiquitous. Politically, it created divisions between "wets" who opposed the ban and "drys" who supported it. Politicians often used Prohibition as a campaign issue, and the controversy influenced elections and policymaking throughout the decade.

Repeal Movements and Legacy

By the late 1920s, public opinion shifted against Prohibition due to its unintended consequences. Efforts to repeal the 18th Amendment gained momentum, culminating in the eventual repeal in 1933. The Prohibition era remains a significant example of the complexities of legislating morality and the limitations of government intervention in personal behavior.

Immigration Policies and Nationalism

The 1920s saw the rise of restrictive immigration policies driven by growing nationalism and concerns about cultural change. The decade's politics reflected anxieties about foreign influence and a desire to preserve American identity, leading to significant legislative actions that shaped the country's demographic composition.

The Immigration Act of 1924

This landmark legislation, also known as the Johnson-Reed Act, established strict quotas limiting immigration from Southern and Eastern Europe, and virtually excluded immigrants from Asia. The Act was designed to preserve the ethnic composition of the United States as predominantly Northern and Western European, reflecting nativist and xenophobic sentiments prevalent in the politics of the time.

Rise of Nationalist and Nativist Movements

Organizations such as the Ku Klux Klan experienced a resurgence during the 1920s, promoting white supremacy, anti-immigrant, and anti-Catholic ideologies. These groups influenced local and national politics, advocating for restrictive immigration laws and policies that marginalized minority communities.

Political Debates Over Immigration

The politics of immigration in the 1920s were contentious, pitting economic interests, cultural preservation, and humanitarian concerns against each other. Debates centered on the balance between national security, economic needs for labor, and the principles of American openness and democracy.

Labor Movements and Economic Policies

Labor issues and economic policies were central to politics in the 1920s, as the nation transitioned from wartime production to a consumer-driven economy. The decade saw both labor unrest and government efforts to promote economic growth through business-friendly policies.

Labor Strikes and Union Activity

Despite economic growth, many workers faced low wages and poor working conditions, leading to significant labor strikes throughout the decade. Unions sought better pay and protections, but many faced opposition from employers and government officials who favored open-shop policies and limited union power.

Government's Pro-Business Stance

The Republican administrations of the 1920s promoted policies that favored business interests, including tax cuts for the wealthy, tariff protections, and minimal regulation. This pro-business approach aimed to stimulate investment and consumer spending but also contributed to economic inequality and instability.

Impact on Economic Inequality and the Great Depression

The economic policies of the 1920s, while fostering short-term growth, arguably laid the groundwork for the economic collapse at the decade's end. Concentration of wealth, speculative investment, and lack of adequate financial regulation were critical factors in the stock market crash of 1929 and the ensuing Great Depression.

Racial Politics and Civil Rights Issues

Politics in the 1920s also grappled with significant racial tensions and civil rights challenges. African Americans, Native Americans, and other minority groups faced systemic discrimination and exclusion from many political and economic opportunities despite important cultural and political developments.

The Harlem Renaissance and Political Awareness

The Harlem Renaissance was a cultural and intellectual movement that brought African American art, literature, and music to the forefront. This cultural awakening also fostered increased political consciousness and activism among African Americans, who began demanding greater civil rights and social justice.

Jim Crow Laws and Segregation

Despite cultural advances, the 1920s were marked by the entrenchment of Jim Crow laws in the South, which enforced racial segregation and disenfranchised Black voters. These laws shaped local and national politics by maintaining racial inequality and limiting African American political power.

Native American Citizenship and Political Status

In 1924, the Indian Citizenship Act granted U.S. citizenship to all Native Americans born in the country. While this was a significant political milestone, many Native Americans continued to face legal and social barriers to full political participation for decades afterward.

Summary of Key Political Developments in the 1920s

- Republican dominance with Harding, Coolidge, and Hoover presidencies emphasizing

conservative economic policies.

- Prohibition enforcement creating social challenges and political division.
- Restrictive immigration laws reflecting nationalist and nativist sentiments.
- Labor unrest amid government policies favoring business interests.
- Racial segregation and emerging civil rights activism shaping political discourse.

Frequently Asked Questions

What were the major political themes of the 1920s in the United States?

The 1920s in the United States were characterized by a focus on conservatism, isolationism in foreign policy, economic prosperity known as the 'Roaring Twenties,' and a return to laissez-faire capitalism under Republican leadership.

How did the political landscape change in Europe during the 1920s?

In Europe, the 1920s saw the rise of new political ideologies such as fascism in Italy, communism in the Soviet Union, and the struggle to maintain democratic governments amid economic and social instability following World War I.

What impact did Prohibition have on politics in the 1920s?

Prohibition, enacted through the 18th Amendment, led to significant political challenges including increased organized crime, debates over government regulation and personal freedoms, and eventual

public disillusionment that influenced later policy changes.

Who were the key political leaders in the United States during the 1920s?

Key political leaders in the U.S. during the 1920s included Presidents Warren G. Harding, Calvin Coolidge, and Herbert Hoover, all of whom emphasized pro-business policies and limited government intervention.

How did the League of Nations influence global politics in the 1920s?

The League of Nations aimed to maintain peace and promote cooperation after World War I, but its effectiveness was limited due to the absence of major powers like the United States and its inability to prevent conflicts, shaping international relations throughout the decade.

What role did women play in politics during the 1920s?

Following the passage of the 19th Amendment in 1920, which granted women the right to vote in the U.S., women became more politically active, influencing legislation and social reforms, although their full political integration was gradual.

Additional Resources

1. Red Scare: The Politics of Fear in the 1920s

This book explores the widespread fear of communism and radical leftism that gripped the United States during the 1920s. It delves into the government's response, including the Palmer Raids and the rise of the FBI under J. Edgar Hoover. The book also examines how this era shaped American political discourse and civil liberties.

2. The Jazz Age and American Politics

Examining the intersection of cultural change and political developments, this book analyzes how the Jazz Age influenced political attitudes and policies in the 1920s. It covers Prohibition, women's

suffrage, and the shifting social norms that impacted electoral politics and governance. The work provides insight into how cultural revolutions affect political structures.

3. Isolationism and International Relations: The U.S. in the 1920s

This book focuses on the United States' foreign policy of isolationism after World War I and its political implications. It discusses the refusal to join the League of Nations, disarmament conferences, and trade policies of the decade. The book highlights the tension between isolationist tendencies and emerging global responsibilities.

4. Harding to Hoover: Republican Politics of the 1920s

Covering the presidencies of Warren G. Harding, Calvin Coolidge, and Herbert Hoover, this book outlines the Republican dominance in the 1920s. It discusses key policies such as economic laissez-faire, tax cuts, and regulatory rollback. The book also addresses scandals like the Teapot Dome and their impact on political trust.

5. The Ku Klux Klan and Political Power in the 1920s

This book investigates the resurgence of the Ku Klux Klan and its influence on local and national politics during the 1920s. It looks at the Klan's role in promoting nativism, racism, and anti-immigrant legislation. The work provides a critical view of how extremist groups affected political landscapes in this decade.

6. Women's Suffrage and Political Change in the 1920s

Focusing on the aftermath of the 19th Amendment, this book examines how women's political participation reshaped American politics in the 1920s. It explores the challenges and successes of early female politicians and activists. The book also assesses the impact of women's votes on policy and party dynamics.

7. Economic Boom and Political Consequences in the Roaring Twenties

This book analyzes the relationship between the economic prosperity of the 1920s and political decisions. It covers issues such as stock market speculation, regulatory policies, and the lead-up to the Great Depression. The book argues that political complacency contributed to economic

vulnerabilities.

8. *Prohibition Politics: The Law and Its Impact in the 1920s*

Examining the political battles surrounding Prohibition, this book highlights the enforcement challenges and societal reactions to the 18th Amendment. It discusses the rise of organized crime, changes in voter behavior, and the eventual political push for repeal. The book offers insight into how moral legislation shaped political agendas.

9. *Race Relations and Political Struggles in the 1920s*

This work explores the complex dynamics of race and politics during the 1920s, including the Harlem Renaissance and the rise of civil rights activism. It details legislative efforts, racial violence, and the political mobilization of African Americans. The book provides a nuanced understanding of race as a central political issue in the decade.

politics in the 1920s: The Concise Princeton Encyclopedia of American Political History
Michael Kazin, Rebecca Edwards, Adam Rothman, 2011-08-08 An essential guide to U.S. politics, from the founding to today With 150 accessible articles written by more than 130 leading experts, this essential reference provides authoritative introductions to some of the most important and talked-about topics in American history and politics, from the founding to today. Abridged from the acclaimed Princeton Encyclopedia of American Political History, this is the only single-volume encyclopedia that provides comprehensive coverage of both the traditional topics of U.S. political history and the broader forces that shape American politics—including economics, religion, social movements, race, class, and gender. Fully indexed and cross-referenced, each entry provides crucial context, expert analysis, informed perspectives, and suggestions for further reading. Contributors include Dean Baker, Lewis Gould, Alex Keyssar, James Kloppenberg, Patricia Nelson Limerick, Lisa McGirr, Jack Rakove, Nick Salvatore, Stephen Skowronek, Jeremi Suri, Julian Zelizer, and many more. Entries cover: Key political periods, from the founding to today Political institutions, major parties, and founding documents The broader forces that shape U.S. politics, from economics, religion, and social movements to race, class, and gender Ideas, philosophies, and movements The political history and influence of geographic regions

politics in the 1920s: The Women's Joint Congressional Committee and the Politics of

Maternalism, 1920-30 Jan Wilson, 2010-10-01 The rise and fall of a feminist reform powerhouse Jan Doolittle Wilson offers the first comprehensive history of the umbrella organization founded by former suffrage leaders in order to coordinate activities around women's reform. Encompassing nearly every major national women's organization of its time, the Women's Joint Congressional Committee (WJCC) evolved into a powerful lobbying force for the legislative agendas of more than twelve million women. Critics and supporters alike came to recognize it as the most powerful lobby in Washington. Examining the WJCC's most consequential and contentious campaigns, Wilson traces how the group's strategies, rhetoric, and success generated congressional and grassroots support for their far-reaching, progressive reforms. But the committee's early achievements sparked a reaction by big business that challenged and ultimately limited the programs these women envisioned. Using the WJCC as a lens, Wilson analyzes women's political culture during the 1920s. She also sheds new light on the initially successful ways women lobbied for social legislation, the limitations of that process for pursuing class-based reforms, and the enormous difficulties the women soon faced in trying to expand public responsibility for social welfare. A volume in the series Women in American History, edited by Anne Firor Scott, Susan Armitage, Susan K. Cahn, and Deborah Gray White

politics in the 1920s: The Private Roots of Public Action Nancy Burns, Kay Lehman Schlozman, Sidney Verba, 2009-07-01 Why, after several generations of suffrage and a revival of the women's movement in the late 1960s, do women continue to be less politically active than men? The Private Roots of Public Action is the most comprehensive study of this puzzle of unequal participation.

politics in the 1920s: Violence and Nationalist Politics in Derry City, 1920-1923 Ronan Gallagher, 2003 This book concentrates on three critical years in the development of Derry, when the corporation was controlled by a nationalist Sinn Fein majority. In January 1920 the city elected its first nationalist mayor and corporation since the 1600s. The book recounts the life of this corporation and the subsequent violence and destruction, as the city sought to define its position within the national struggle for independence. Particular attention is paid to 1920 when, for a brief moment, the city came to the brink of civil war. The book also examines the day-to-day operation of the corporation (particularly the ambitious Banagher water scheme) as well as the circumstances the corporation found itself in nationally, when Sinn Fein accepted a truce with the British in 1921.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

politics in the 1920s: The Global 1920s Richard Carr, Bradley W. Hart, 2016-01-29 The 1920s is often recognised as a decade of fascism, flappers and film. Covering the political, economic and social developments of the 1920s throughout the world, The Global 1920s takes an international and cross-cultural perspective on the critical changes and conditions that prevailed from roughly 1919 to 1930. With twelve chapters on themes including international diplomacy and the imperial powers, film and music, art and literature, women and society, democracy, fascism, and science and technology, this book explores both the 'big' questions of capitalism, class and communism on the one hand and the everyday experience of citizens around the globe on the other. Utilising archival sources throughout, it concludes with an extensive discussion of the circumstances surrounding the 1929 stock market crash and the onset of the Great Depression, the effects of which were felt worldwide. Covering topics from the oil boom in South America to the start of civil war in China, employment advances and setbacks for women across the globe, and the advent of radio and air travel, the authors provide a concise yet comprehensive overview of this turbulent decade. Containing illustrations and a selection of discussion questions at the end of each chapter, this book is valuable reading for students of the 1920s in global history.

politics in the 1920s: Understanding Racist Activism Kathleen M. Blee, 2017-07-20 White supremacist groups are highly secretive, so their public propaganda tells us little about their operations or the people they attract. To understand the world of organized racism it is necessary to study it from the inside by talking to their members and observing their groups. Doing so reveals a

disturbing picture of how fairly ordinary white people learn to embrace the vicious ideas and dangerous agendas of white supremacy. This book takes the reader inside organized racism, revealing the kind of women and men who join groups, such as the Ku Klux Klan or neo-Nazi skinheads, and what they do in those groups. The volume collects significant published works from renowned scholar Kathleen M. Blee's work on racist activism, alongside new essays on the theories, methods, and approaches of studying racist activism. Discussing topics such as emotional issues in research, the place of violence and hate in white supremacy, and how women are involved in racial terrorism, Blee makes use of a range of sources, including oral histories, ethnographic observations, and interviews, to shape her findings. Written by the pioneer and leading scholar of women in racist activism, this volume is essential reading for students, scholars, and general readers interested in the areas of social movements, politics, race studies, and American history.

politics in the 1920s: English Party Politics: The twentieth century Alan Beattie, 1970

politics in the 1920s: Chilean Politics, 1920-1931 Frederick M. Nunn, 1970

politics in the 1920s: The Associational State Brian Balogh, 2015-04-22 In the wake of the New Deal, U.S. politics has been popularly imagined as an ongoing conflict between small-government conservatives and big-government liberals. In practice, narratives of left versus right or government versus the people do not begin to capture the dynamic ways Americans pursue civic goals while protecting individual freedoms. Brian Balogh proposes a new view of U.S. politics that illuminates how public and private actors collaborate to achieve collective goals. This associational synthesis treats the relationship between state and civil society as fluid and challenges interpretations that map the trajectory of American politics solely along ideological lines. Rather, both liberals and conservatives have extended the authority of the state but have done so most successfully when state action is mediated through nongovernmental institutions, such as universities, corporations, interest groups, and other voluntary organizations. The Associational State provides a fresh perspective on the crucial role that the private sector, trade associations, and professional organizations have played in implementing public policies from the late nineteenth through the twenty-first century. Balogh examines key historical periods through the lens of political development, paying particular attention to the ways government, social movements, and intermediary institutions have organized support and resources to achieve public ends. Exposing the gap between the ideological rhetoric that both parties deploy today and their far less ideologically driven behavior over the past century and a half, *The Associational State* offers one solution to the partisan gridlock that currently grips the nation.

politics in the 1920s: Republican Women Catherine E. Rymph, 2006 In the wake of the Nineteenth Amendment, Republican women set out to forge a place for themselves within the Grand Old Party. As Catherine Rymph explains, their often conflicting efforts over the subsequent decades would leave a mark on both conservative

politics in the 1920s: Black Women as Leaders Lori Latrice Martin, 2019-03-14 This book examines how black women have identified challenges in major social institutions across history and demonstrated adaptive leadership in mobilizing people to tackle those challenges facing black communities. Most studies about black women and social justice issues focus on the responses of black women to racism within the context of the feminist movement and/or the responses of black women to sexism in black liberation movements. Such discussions often fail to explore the ways in which black women's commitment to negotiating their racial, gender, and class identities, while engaged in the practice of leadership, is discouraged and ignored. *Black Women as Leaders* analyzes the commitment of contemporary black women to social justice issues from the perspective of adaptive leadership. It shows how black women are often forced into the public practice of leadership due to violent attacks from people with whom they are engaged in interpersonal relationships. The book also breaks new ground by revealing how black women suffer from the devaluation and vilification of their engagement in the practice of leadership in private settings, such as their homes and selected religious and institutional settings.

politics in the 1920s: Arkansas Democratic Politics, 1896-1920 Richard L. Niswonger,

1990

politics in the 1920s: *The Presidency of Calvin Coolidge* Robert H. Ferrell, 1998 The first book-length assessment of Coolidge's presidency in thirty years draws on the recently opened papers of his White House physician for hitherto unknown personal information. Ferrell (history, Indiana U.) exonerates Coolidge for the failures of his party's foreign policy, but holds him accountable for having had insufficient economic savvy to warn Wall Street against the overspeculation that caused the Depression. Annotation copyrighted by Book News, Inc., Portland, OR

politics in the 1920s: The Presidency and the Law David Gray Adler, Michael A. Genovese, 2002 Political scandals have always demonstrated the capacity of our executive officials for self-inflicted injuries, and the Clinton administration was no exception. Unilateral warmaking, claims of executive privilege and immunity, and last-minute pardons all tested the limits of presidential power, while the excesses of the Special Prosecutor cast doubts on available remedies. For eight years, Republicans and Democrats engaged in guerrilla warfare aimed at destroying the careers and lives of their adversaries while tests of presidential power were resolved by the courts, resulting in a reshaping of the scope and power of the presidency itself. This book examines the many controversial and important battles that led to the shrinking of the presidency under the law during the Clinton administration. Located at the intersection of law and politics, it helps readers understand the dramatic changes that took place in the relationship of presidential power to the law during the Clinton years and shows how one president's actions—and congressional and legal reactions to them—have altered presidential prerogatives in ways that his successors cannot ignore. The Presidency and the Law offers an assessment of changes in constitutional and legal understanding of the American presidency, exploring such topics as war power, executive privilege, pardon power, impeachment, executive immunity, independent counsel, and campaign finance. In examining these collisions between president and the law, its distinguished contributors bring the lessons of Watergate and Iran-Contra into the Clinton era and contribute to a Madisonian view that presidents should not operate outside statutory and constitutional constraints. While the essays offer several criticisms of that administration's exercise of power and its interpretation of constitutional provisions and law, many of the authors have been supportive of Clinton and his policy pursuits, and all seek to examine the potential impact of the Clinton administration without being predictive or legalistic. They offer instead commentary, analysis, and criticism that examine the legality and constitutionality of President Clinton's actions within a broader political and historical context. The presidency is constitutionally weaker and politically more vulnerable than the office Bill Clinton assumed in 1993, and it remains to be seen what impact these changes will have on the presidency in the 21st century. This book points the way to assessing that impact, and is essential reading for anyone concerned with the future of our democracy.

politics in the 1920s: Divided Lives Rosalind Rosenberg, 2008-05-13 In this lively and informed exploration of women's lives in the larger context of U.S. social and political history, Rosalind Rosenberg shows how American traditions of federalism, racial and ethnic diversity, geographic mobility, and relative abundance have both aided and hindered women's strides toward equality.

politics in the 1920s: Encyclopedia of U.S. Political History Andrew Whitmore Robertson, 2010 Annotation st1\ : {behavior:url(#ieooui) } Unparalleled coverage of U.S. political development through a unique chronological frameworkEncyclopedia of U.S. Political History explores the events, policies, activities, institutions, groups, people, and movements that have created and shaped political life in the United States. With contributions from scholars in the fields of history and political science, this seven-volume set provides students, researchers, and scholars the opportunity to examine the political evolution of the United States from the 1500s to the present day. With greater coverage than any other resource, the Encyclopedia of U.S. Political History identifies and illuminates patterns and interrelations that will expand the reader's understanding of American political institutions, culture, behavior, and change. Focusing on both government and

history, the Encyclopedia brings exceptional breadth and depth to the topic with more than 100 essays for each of the critical time periods covered. With each volume covering one of seven time periods that correspond to key eras in American history, the essays and articles in this authoritative encyclopedia focus on the following themes of political history: The three branches of government Elections and political parties Legal and constitutional histories Political movements and philosophies, and key political figures Economics Military politics International relations, treaties, and alliances Regional histories Key Features Organized chronologically by political eras Reader & BAD:rsquo;s guide for easy-topic searching across volumes Maps, photographs, and tables enhance the text Signed entries by a stellar group of contributors

VOLUME 1 Colonial Beginnings through Revolution 1500 & BAD:ndash;1783 Volume Editor: Andrew Robertson, Herbert H. Lehman College The colonial period witnessed the transformation of thirteen distinct colonies into an independent federated republic. This volume discusses the diversity of the colonial political experience & BAD:mdash;a diversity that modern scholars have found defies easy synthesis & BAD:mdash;as well as the long-term conflicts, policies, and events that led to revolution, and the ideas underlying independence.

VOLUME 2 The Early Republic 1784 & BAD:ndash;1840 Volume Editor: Michael A. Morrison, Purdue University No period in the history of the United States was more critical to the foundation and shaping of American politics than the early American republic. This volume discusses the era of Confederation, the shaping of the U.S. Constitution, and the development of the party system.

politics in the 1920s: Women in the United States, 1830-1945 S. J. Kleinberg, 1999-08-23 Women in the United States, 1830-1945 investigates women's economic, social, political and cultural history, encompassing all ethnic and racial groups and religions. It provides a general introduction to the history of women in industrializing America. Both a history of women and a history of the United States, its chronology is shaped by economic stages and political events. Although there were vast changes in all aspects of women's lives, gender (the social roles imputed to the sexes) continued to define women's (and men's) lives as much in 1945 as it had in 1830.

politics in the 1920s: Louisiana Bennett H. Wall, John C. Rodrigue, 2014-01-28 Covering the lively, even raucous, history of Louisiana from before First Contact through the Elections of 2012, this sixth edition of the classic Louisiana history survey provides an engaging and comprehensive narrative of what is arguably America's most colorful state. Since the appearance of the first edition of this classic text in 1984, Louisiana: A History has remained the best-loved and most highly regarded college-level survey of Louisiana on the market Compiled by some of the foremost experts in the field of Louisiana history who combine their own research with recent historical discoveries Includes complete coverage of the most recent events in political and environmental history, including the continued aftermath of Katrina and the 2010 BP oil spill Considers the interrelationship between Louisiana history and that of the American South and the nation as a whole Written in an engaging and accessible style complemented by more than a hundred photographs and maps

politics in the 1920s: The Sikhs of the Punjab J. S. Grewal, 1998-10-08 In a revised edition of his original book, J. S. Grewal brings the history of the Sikhs from its beginnings in the time of Guru Nanak, the founder of Sikhism, right up to the present day. Against the background of the history of the Punjab, the volume surveys the changing pattern of human settlements in the region until the fifteenth century and the emergence of the Punjabi language as the basis of regional articulation. Subsequent chapters explore the life and beliefs of Guru Nanak, the development of his ideas by his successors and the growth of his following. The book offers a comprehensive statement on one of the largest and most important communities in India today.

politics in the 1920s: Anxious Decades: America in Prosperity and Depression, 1920-1941 Michael E. Parrish, 1994-04-17 Impressively detailed. . . . An authoritative and epic overview.—Publishers Weekly In the convulsive years between 1920 and 1941, Americans were first dazzled by unprecedented economic prosperity and then beset by the worst depression in their history. It was the era of Model T's, rising incomes, scientific management, electricity, talking

movies, and advertising techniques that sold a seemingly endless stream of goods. But it was also a time of grave social conflict and human suffering. The Crash forced Hoover, and then Roosevelt and the nation, to reexamine old solutions and address pressing questions of recovery and reform, economic growth and social justice. The world beyond America changed also in these years, making the country rethink its relation to events in Europe, Latin America, and Asia. The illusion of superiority slowly died in the 1930s, sustaining a fatal blow in December 1941 at Pearl Harbor.
