

politics and religion journal

politics and religion journal serves as a critical resource for scholars, researchers, and readers interested in the complex interplay between political systems and religious beliefs. This specialized publication explores how religion influences political ideologies, policies, and governance, and conversely, how political contexts affect religious practices and institutions. Coverage includes historical perspectives, contemporary case studies, theoretical frameworks, and empirical research. The politics and religion journal often features interdisciplinary approaches, integrating insights from political science, theology, sociology, and cultural studies. This article will provide an in-depth understanding of the significance of such journals, their thematic focus, and the impact they have on academic discourse and policy-making. The following sections will outline the scope, themes, methodology, and relevance of politics and religion journals in today's global context.

- Overview of Politics and Religion Journals
- Key Themes Explored in Politics and Religion Journals
- Methodologies and Approaches in the Field
- Impact of Politics and Religion Journals on Scholarship and Policy
- Challenges and Future Directions

Overview of Politics and Religion Journals

Politics and religion journals are academic publications dedicated to examining the multifaceted relationship between political power and religious influence. These journals provide a platform for

rigorous scholarship that investigates how religious beliefs shape political behavior, legal frameworks, and public policy. They also analyze how political environments affect religious freedoms, institutional structures, and interfaith dynamics. Typically peer-reviewed, these journals maintain high standards of academic integrity and contribute to the evolving understanding of the politics-religion nexus.

Historical Development

The emergence of politics and religion journals can be traced back to broader interdisciplinary trends in the social sciences and humanities, particularly in the late 20th century. As political scientists and religious studies scholars recognized the importance of studying religion's role in political affairs, dedicated journals began to appear. These publications have since evolved to address contemporary challenges such as secularism, religious nationalism, and the global resurgence of religious movements.

Types of Journals and Their Audiences

There are several types of politics and religion journals, each catering to specific scholarly communities. Some focus on theoretical and philosophical discussions, while others emphasize empirical research and case studies. Audiences typically include academics, policy analysts, religious leaders, and students interested in the intersection of faith and governance.

Key Themes Explored in Politics and Religion Journals

Politics and religion journals cover a broad array of themes that reflect the complexity of their subject matter. These themes often intersect, providing comprehensive insights into how religion and politics influence each other within various contexts.

Religious Influence on Political Systems

One primary focus is the examination of how religion shapes political ideologies, party platforms, and electoral behavior. Scholars analyze the role of religious organizations in mobilizing voters, shaping policy agendas, and influencing legislative processes.

Secularism and State-Religion Relations

Another critical theme involves the study of secularism as a political principle and its implications for state-religion relations. Journals explore different models of secularism worldwide, their successes, challenges, and impacts on religious minorities.

Religion and Political Conflict

Many articles investigate the role of religion in political conflicts, including sectarian violence, religious extremism, and interfaith tensions. Understanding these dynamics is crucial for developing effective conflict resolution strategies.

Religion, Human Rights, and Public Policy

Discussions on religious freedom, human rights, and how public policies accommodate or restrict religious practices are also central to the field. These topics address contemporary debates on issues such as religious dress codes, education, and healthcare.

List of Common Themes in Politics and Religion Journals

- Religious nationalism and identity politics
- Church-state separation and collaboration

- Religion in international relations
- Impact of religion on social justice movements
- Comparative studies of religious political behavior

Methodologies and Approaches in the Field

Politics and religion journals employ diverse methodologies ranging from qualitative to quantitative research, reflecting the interdisciplinary nature of the field. These approaches enable scholars to analyze complex social phenomena with rigor and nuance.

Qualitative Analysis

Qualitative methods include ethnography, case studies, interviews, and discourse analysis. These techniques help uncover the meanings and motivations behind religious and political actions and provide rich contextual understanding.

Quantitative Research

Quantitative approaches involve statistical analysis, surveys, and data modeling. Researchers use these tools to identify patterns, measure correlations, and test hypotheses regarding religion's influence on political behavior and vice versa.

Theoretical Frameworks

The field draws on various theoretical perspectives such as secularization theory, political theology, identity theory, and social movement theory. These frameworks guide the interpretation of empirical

data and facilitate the development of new insights.

Impact of Politics and Religion Journals on Scholarship and Policy

Politics and religion journals significantly contribute to academic knowledge and inform public policy debates. Their research findings often influence how governments, NGOs, and international organizations approach issues related to religion and politics.

Advancing Academic Discourse

These journals foster interdisciplinary dialogue and encourage innovative research that challenges existing paradigms. They also provide a repository of knowledge that supports teaching and further study in political science, religious studies, and related disciplines.

Informing Policy-Making

Insights from politics and religion journals assist policymakers in understanding the complexities of religion's role in governance. This understanding is essential for drafting laws that respect religious diversity while maintaining social cohesion and security.

Promoting Social Understanding

By highlighting the nuanced interactions between politics and religion, these journals contribute to greater public awareness and promote tolerance in pluralistic societies.

Challenges and Future Directions

Despite their importance, politics and religion journals face several challenges related to maintaining relevance and addressing emerging issues in a rapidly changing world.

Balancing Objectivity and Sensitivity

Studying religion and politics requires a careful balance between objective analysis and respect for deeply held beliefs. Journals must navigate this terrain to produce credible and respectful scholarship.

Addressing Globalization and Digital Media

The rise of globalization and digital communication has transformed how religion and politics interact. Journals are increasingly focusing on topics such as online religious movements, transnational religious networks, and the impact of social media on political mobilization.

Expanding Interdisciplinary Collaboration

Future research will likely deepen collaboration between political scientists, theologians, sociologists, and other experts to address complex questions about religion's evolving role in global politics.

List of Emerging Topics in Politics and Religion Journals

- Religion and populism in the 21st century
- Impact of artificial intelligence on religious practices and political discourse
- Climate change and faith-based political activism

- Religious responses to pandemics and public health policy
- Intersections of gender, religion, and political participation

Frequently Asked Questions

What is the focus of the Politics and Religion journal?

Politics and Religion is an academic journal that explores the complex interactions between political systems and religious beliefs, practices, and institutions.

How often is the Politics and Religion journal published?

The Politics and Religion journal is typically published quarterly, providing four issues each year.

Who publishes the Politics and Religion journal?

The Politics and Religion journal is published by Cambridge University Press.

Can I access Politics and Religion journal articles online?

Yes, the Politics and Religion journal is available online through academic databases and the publisher's website, often requiring a subscription or institutional access.

What types of articles are featured in Politics and Religion?

The journal features peer-reviewed research articles, theoretical essays, and book reviews that address issues at the intersection of political science and religious studies.

Is Politics and Religion journal interdisciplinary?

Yes, Politics and Religion is an interdisciplinary journal that welcomes contributions from political science, religious studies, sociology, history, and related fields.

How can I submit a paper to Politics and Religion?

Authors can submit manuscripts through the journal's online submission system, following the specific guidelines outlined on the journal's website.

What impact does the Politics and Religion journal have in academia?

Politics and Religion is considered a leading journal in its field, influencing scholarship and fostering dialogue on how religion shapes political behavior and policy worldwide.

Additional Resources

1. *Politics and Religion: A Comparative Introduction*

This book offers a comprehensive overview of the ways politics and religion intersect around the world. It explores how religious beliefs shape political ideologies and policies, and conversely, how political contexts influence religious practices. The author uses comparative case studies to highlight the diversity of these interactions across different cultures and historical periods.

2. *The Sacred and the Political: Religion's Role in Modern Governance*

Focusing on the modern era, this book examines the complex relationship between religion and state governance. It discusses secularism, theocracy, and the challenges of religious pluralism in political institutions. The text provides insights into how religious movements impact policy-making and political legitimacy.

3. *Faith and Power: Religion in Contemporary Political Life*

This volume analyzes the growing influence of religious groups in contemporary politics, particularly in democratic societies. It investigates the mobilization of faith-based organizations and their role in

electoral politics, social movements, and public policy debates. Case studies from various countries illustrate the dynamic interaction between faith and political authority.

4. God and Government: Religion's Influence on Political Systems

Exploring the historical roots and modern manifestations of religious influence on government, this book traces the evolution of church-state relations. It covers topics such as religious law, moral legislation, and the role of religious leaders in political advocacy. The author discusses the tensions and collaborations between religious and political institutions.

5. Religion, Politics, and Public Life: Normative Perspectives

This book provides a normative analysis of the place of religion in public and political life. It debates the ethical and philosophical foundations of secularism, religious freedom, and the role of religion in a pluralistic society. Through theoretical frameworks, it addresses contemporary controversies surrounding religion and politics.

6. Political Theology in the 21st Century

Dedicated to the study of political theology, this work explores how theological concepts influence political ideologies and actions today. It examines themes such as sovereignty, justice, and authority through the lens of religious thought. The book includes discussions on the resurgence of political theology in global conflicts and social justice movements.

7. Religion and Politics in the Global South

Focusing on countries in Africa, Asia, and Latin America, this book investigates the powerful role of religion in shaping political landscapes in the Global South. It highlights how religious identities intersect with issues of ethnicity, nationalism, and development. The text also considers the impact of globalization on religious political activism.

8. The Politics of Religious Freedom

This book addresses the contentious issue of religious freedom in international and domestic politics. It explores legal frameworks, human rights debates, and the political challenges in protecting religious liberties. Through case studies, the author illustrates conflicts arising from competing claims of

religious freedom and other societal values.

9. *Religion, Ideology, and Political Conflict*

This volume examines how religious ideologies contribute to political conflict and violence. It analyzes the causes and consequences of religiously motivated political struggles, including terrorism, civil wars, and sectarianism. The book also discusses pathways to reconciliation and peacebuilding in contexts marked by religious-political tensions.

politics and religion journal: Political Science of Religion Maciej Potz, 2019-08-14 This book introduces political science of religion – a coherent approach to the study of the political role of religion grounded in political science. In this framework, religion is viewed as a political ideology providing legitimation for power and motivating political attitudes and behaviors of the public. Religious organizations are political actors negotiating the political system in the pursuit of their faith-based objectives. Religion is thus interpreted as a power resource and religious groups as political players. The theoretical framework developed in the first part is applied to the study of theocracies and contemporary democracies, based on the case studies of Poland and the USA. The empirical analysis of resources, strategies and opportunities of religious actors demonstrates their ability to influence the politics of democracies and non-democracies alike. Using a multilevel approach, the book seeks to explain this tremendous political potential of religion.

politics and religion journal: The Routledge Handbook of Religion, Politics and Ideology Jeffrey Haynes, 2021-08-14 This comprehensive handbook examines relationships between religion, politics and ideology, with a focus on several world religions — Christianity, Islam, Buddhism, Hinduism and Judaism — in a variety of contexts, regions and countries. Relationships between religion, politics and ideology help mould people's attitudes about the way that political systems, both domestically and internationally, are organised and operate. While conceptually separate, religion, politics and ideology often become intertwined and as a result their relationships evolve over time. This volume brings together a number of expert contributors who explore a wide range of topical and controversial issues, including gender, nationalism, communism, fascism, populism and Islamism. Such topics inform the overall aim of the handbook: to provide a comprehensive summary of the relationships between religion, politics and ideology, including basic issues and new approaches. This handbook is a major research resource for students, researchers and professionals from various disciplinary backgrounds, including religious studies, political science, international relations, and sociology.

politics and religion journal: Religion and Contemporary Politics Timothy J. Demy, Jeffrey M. Shaw Ph.D., 2019-09-19 With respect to the countries of the world, this work addresses two basic

questions: How does religion affect politics in this country? and How does politics affect religion in this country? Although there are many books on the topics of religion and politics, reference works that consider the two together are few, with those that do exist primarily addressing theory rather than trends. The present work does the latter, contextualizing them within regional and national boundaries. In so doing, it recognizes the power of political and religious ideas and movements on individuals, communities, and nations, making the work a valuable resource for several disciplines, among them political science, international relations, religion, and sociology. The work focuses on the interplay of religion and politics in countries around the world with an emphasis on the post-2000s. It is organized by global geographic regions including Africa, Central and South America, and the Middle East and presents countries alphabetically within those sections. Each region has a brief overview of the political-religious dynamics of the area so readers can compare and contrast the dynamics between and among countries in a region. The work also includes an introduction, sidebars, and a bibliography.

politics and religion journal: *When Politics Meets Religion* Marko Veković, Miroljub Jevtić, 2024-08-05 *When Politics Meets Religion* presents a fresh exploration of the relationship between religion and politics worldwide. The volume includes topics covering Europe, such as the European far right, the contours of European identity, and how religious cleavages affect value orientation of Europeans. It also covers country-focused issues and events, such as the influence of Orthodox Christianity in Russia, Christian nationalism in the United States, the influence of religion on Turkish foreign policy, the political role of the Catholic Church in the Philippines, Chinese attitudes towards religious deprivatization, and how liberation theology found its way from Latin America to the Holy Land. The volume is supplemented with several analyses on the intersection between law, society, and religion. It deals with religious mediation and political conflicts, how the current religious governance in France affects the Orthodox Jewish community, as well as how taxing the church's economic activities can be a contributor to the common good, and why Muslims should treat Sharia law as only a moral code in the context of the Universal Declaration of Human Rights. Through rigorous research, case studies, and critical analysis, this volume explains how religion and politics mix in different settings, and why it is important for us to study this complex relationship. The volume will appeal to scholars and graduate students of political science and religious studies, as well as interested professionals working for non-governmental organizations (NGOs) or governments.

politics and religion journal: *Religion and Politics* Johann P. Arnason, 2014-04-23 Combining theoretical and empirical research, these 12 essays examine the role of religion and its prospects in Europe. On the one hand, the volume discusses growing Islamic presence in Europe as a reminder of enduring religious pluralism, not least in view of the high prominence given to Islamic experience in arguments against over-generalised notions of secularisation. On the other hand, it explores the question of Christian motivated extremism and religious nationalism. Against this background, the contributors discuss the role of religion in other countries throughout the world including China, Japan, Russia and the MENA region.

politics and religion journal: *Peace, Politics, and Religion* Jeffrey Haynes, 2020-12-14 Relationships between peace, politics and religion are often controversial, and sometimes problematic. Religion is a core source of identity for billions of people around the world and it is hardly surprising that sometimes it becomes involved in conflicts. At the same time, we can see religion involved not only in conflict. It is also central to conflict resolution, peace-making and peacebuilding. Religious involvement is often necessary to try to end hatred and differences, frequently central to political conflicts especially, but not only, in the Global South. Evidence shows that religious leaders and faith-based organisations can play constructive roles in helping to end violence, and in some cases, build peace via early warnings of conflict, good offices once conflict has erupted, as well as advocacy, mediation and reconciliation. The chapters of this book highlight that religion can encourage both conflict and peace, through the activities of people individually and collectively imbued with religious ideas and ideals.

politics and religion journal: Religion and Politics in the United States Kenneth D. Wald, Allison Calhoun-Brown, 2014-03-04 From marriage equality, to gun control, to immigration reform and the threat of war, religion plays a fascinating and crucial part in our nation's political process and in our culture at large. Now in its seventh edition, *Religion and Politics in the United States* includes analyses of the nation's most pressing political matters regarding religious freedom, and the ways in which that essential constitutional freedom situates itself within modern America. The book also explores the ways that religion has affected the orientation of partisan politics in the United States. Through a detailed review of the political attitudes and behaviors of major religious and minority faith traditions, the book establishes that religion continues to be a major part of the American cultural and political milieu while explaining that it must interact with many other factors to influence political outcomes in the United States.

politics and religion journal: An Introduction to Religion and Politics Jonathan Fox, 2013-05-07 *An Introduction to Religion and Politics* offers a comprehensive overview of the many theories of religion and politics, and provides students with an accessible but in-depth account of the most significant debates, issues and methodologies. Fox examines the ways in which religion influences politics, analyses the current key issues and provides a state of the art account of religion and politics, highlighting the diversity in state religion policies around the world. Topics covered include: Secularism and secularization Religious identity Religious worldviews, beliefs, doctrines and theologies Religious legitimacy Religious institutions and mobilization Rational and functional religion Religious fundamentalism Conflict, violence and terror This work combines theoretical analysis with data on the religion policies of 177 governments, showing that while most of the world's government support religion and many restrict it; true neutrality on the issue of religion is extremely rare. Religion is becoming an inescapable issue in politics. This work will be essential reading for all students of religion and politics, and will also be of great interest to those studying related subjects such as comparative politics, international relations and war and conflict studies.

politics and religion journal: Routledge Handbook of Religion and Politics ,
politics and religion journal: Religion and Politics in International Relations Timothy Fitzgerald, 2011-10-27 Scholars in International Relations concerned with religion and its relations to world politics are rhetorically constructing a powerful modern myth. A component of this myth is that religion is inherently violent and irrational unless controlled by the secular state, which is inherently rational and only reluctantly violent. Timothy Fitzgerald discusses how, in this modern myth, religion appears as a force of nature which either assists or threatens the sacred secular order of things, and how religion is portrayed as a kind of universal essence which takes many forms, its recent most dangerous manifestation being Islamic terrorism. This book illustrates that the essential distinction between irrational religion and rational secular politics appears as an unquestioned preconception on the basis of which policy is conducted, countries invaded and wars fought. Arguing that this rhetorical construction of religion provides the foundation for faith in the rationality of modern liberal capitalism, Fitzgerald demonstrates how a historically contingent discourse has been transformed into a powerful set of global assumptions.

politics and religion journal: Popular Politics and the Quest for Justice in Contemporary China Susanne Brandtstädter, Hans Steinmüller, 2017-06-14 This book examines facets of popular politics that are, above all, animated by a quest for justice as law, fairness and public virtue. The aim is to better understand how the political emerges in the interstices of state law and local moralities. The contributors to the book focus on the interplay between private and public spaces, between morality and law, and between 'front stage' and 'back stage,' to explore how the common quest for justice, which takes on state slogans but cannot be absorbed by state institutions, changes Chinese society from the bottom-up by creating self-reflective new publics.

politics and religion journal: Comparative Public Opinion Cameron D. Anderson, Mathieu Turgeon, 2022-07-22 This book presents a comprehensive examination of public opinion in the democratic world. Built around chapters that highlight key explanatory frameworks used in understanding public opinion, the book presents a coherent study of the subject in a comparative perspective, emphasizing and interrogating immigration as a key issue of high concern to most mass publics in the democratic world. Key features of the book include: Covers several theoretical issues and determinants of opinion such as the effects of personality, age and life cycle, ideology, social class, partisanship, gender, religion, ethnicity, language, and media, highlighting over time the effects of political, social, and economic contexts. Each chapter explores the theoretical rationale, mechanisms of effect, and use in the scholarly literature on public opinion before applying these to the issue of immigration comparatively and in specific places or regions. Widely comparative using a nine-country sample (Australia, Canada, France, Germany, Italy, Portugal, Switzerland, the United

Kingdom, and the United States of America) in the analysis of individual-level determinants of public opinion about immigration and extending to other countries like Belgium, Brazil, and Japan when evaluating contextual factors. This edited volume will be essential reading for students, scholars, and practitioners interested in public opinion, political behaviour, voting behaviour, politics of the media, immigration, political communication, and, more generally, democracy and comparative politics.

politics and religion journal: The SAGE Handbook of the Sociology of Religion James A Beckford, Jay Demerath, 2007-10-29 In their introduction to this Handbook, the editors affirm: 'Many sociologists have come to realise that it makes no sense now to omit religion from the repertoire of social scientific explanations of social life'. I wholeheartedly agree. I also suggest that this wide-ranging set of essays should become a starting-point for such enquiries. Each chapter is clear, comprehensive and well-structured - making the Handbook a real asset for all those engaged in the field. - Grace Davie, University of Exeter Serious social scientists who care about making sense of the world can no longer ignore the fact that religious beliefs and practices are an important part of this world... This Handbook is a valuable resource for specialists and amateurs alike. The editors have done an exceptionally fine job of incorporating topics that illuminate the range and diversity of religion and its continuing significance throughout the world. - Robert Wuthnow, Princeton University At a time when religions are increasingly affecting, and affected by, life beyond the narrowly sacred sphere, religion everywhere seems to be caught up in change and conflict. In the midst of this contention and confusion, the sociology of religion provides a rich source of understanding and explanation. This Handbook presents an unprecedentedly comprehensive assessment of the field, both where it has been and where it is headed. Like its many distinguished contributors, its topics and their coverage are truly global in their reach. The Handbook's 35 chapters are organized into eight sections: basic theories and debates; methods of studying religion; social forms and experiences of religion; issues of power and control in religious organizations; religion and politics; individual religious behaviour in social context; religion, self-identity and the life-course; and case studies of China, Eastern Europe, Israel, Japan, and Mexico. Each chapter establishes benchmarks for the state of sociological thinking about religion in the 21st century and provides a rich bibliography for pursuing its subject further. Overall, the Handbook stretches the field conceptually, methodologically, comparatively, and historically. An indispensable source of guidance and insight for both students and scholars. Choice 'Outstanding Academic Title' 2009

politics and religion journal: Routledge Handbook of Peace, Security and Development Fen Osler Hampson, Alpaslan Özerdem, Jonathan Kent, 2020-06-04 This Handbook offers a comprehensive examination of the peace, security, and development nexus from a global perspective, and investigates the interfaces of these issues in a context characterised by many new challenges. By bringing together more than 40 leading experts and commentators from across the world, the Handbook maps the various research agendas related to these three themes, taking stock of existing work and debates, while outlining areas for further engagement. In doing so, the chapters may serve as a primer for new researchers while also informing the wider scholarly community about the latest research trends and innovations. The volume is split into three thematic parts: Concepts and approaches New drivers of conflict, insecurity, and developmental challenges Actors, institutions, and processes. For ease of use and organisational consistency, each chapter provides readers with an overview of each research area, a review of the state of the literature, a summary of the major debates, and promising directions for future research. This Handbook will be of much interest to students of peace and conflict studies, development studies, security studies, and International Relations.

politics and religion journal: From Democratization to Security Politics: The Transformation of Turkey's Justice and Development Party Fatih Ceran, 2023-02-24 INTRODUCTION.. 3 PART I 25 CHAPTER I 27 Glimpse into Conceptual Toolbox CHAPTER II 47 19th Century Reforms: The Tragedy of Turkish Soul CHAPTER III 91 Transformation of the AKP: A Puzzling and Eventful Journey Part II 95 CHAPTER IV.. 97 Reformism and Co-habitation with Secularist Establishment (2002-2007)

CHAPTER V.. 135 Consolidation of Power and Disarticulation of Secularist Establishment (2007-2011) CHAPTER VI 175 From Electoral Hegemony to Systemic Domination (2011-2016) CHAPTER VII 207 2016-2021: Systemic Domination AKP IN POWER: A DIZZYING JOURNEY THROUGH CONSERVATISM.. 265 In this insightful book, Fatih Ceran offers a retrospective analysis of the two decade rule of AKP in Turkey and explores into the question on everyone's mind: How did we get here? Putting the Securitization Approach of Copenhagen School at work and employing critical discourse analysis at every level Ceran provides a nuanced examination of the complex political and social dynamics that shaped contemporary Turkey. Samim AKGÖNÜL, University of Strasbourg With a focus on democratic rights that have been promoted and demoted by the same political figures as their collective and personal interests changed, the book provides on how the AKP first reformed and then drifted down the authoritarian path. İftar Gözaydın, ELIAMEP Fellow, Winner of Human Rights Award of University of Oslo This book sheds new light on Turkey's transformation from an imperfect parliamentary democracy to an a la Turca presidential system and puts forward a multidimensional analysis on how the Political Islamists made inroads into country's secularist political system and then obtained full control over it. Ceran's masterful and meticulous analysis is a must read for students and scholars of contemporary Turkey. Ahmet Erdi Ozturk, London Metropolitan University

politics and religion journal: Worldly Politics and Divine Institutions Nahshon Perez, 2023 *Worldly Politics and Divine Institutions* explores four instances of democratic governments becoming intertwined with religious matters: when the U.K. Supreme Court forced a government-funded faith school (the British JFS School) to change its admission policies; when The European Court of Human Rights ruled that the Catholic Church could dismiss religion teachers in Spanish public schools; when the Italian government upheld mandatory crucifixes in all public school classrooms; and the Bladensburg World War I Memorial (the Peace Cross) case in Maryland, where the U.S. Supreme Court ruled that the cross's public placement did not violate the U.S. Constitution's First Amendment.

politics and religion journal: *Nigeria - Politics, Religion, Pentecostal-Charismatic Power and Challenges* Akintayo Emmanuel, 2023-10-13 Nigeria presents an enthralling case study for understanding developing archetypes in interreligious encounters in Africa. The global community needs a cultural understanding and sensitivity for productive engagement with the Arab and non-Arab Muslim world. The Nigeria religious exigencies provide a requisite intelligence into the challenges facing a global community seeking to foster peace. Without a domain of tolerance, love, equity and justice, Nigeria will continually be immured by pessimism, parochialism, cynicism and mutual suspicion. Despite being the largest economy in Africa and the most populous Black country, Nigeria demonstrates incessantly an uncommon fault-line between Christianity and Islam. The significance of this goes beyond the borders of Nigeria but has become a global showcase anywhere the two religions exist contemporaneously. Nigeria is the nexus between west and central Africa. Rooted in the dusty Sahel of the north, the savannah plains, the rich rainforests of the Atlantic coast, the rocky hills of the West, and the oil-filled swamps of the Delta. Nigeria is the beauty, sound, vision, passion and the soul of the African continent. In Nigeria, the Nigeria Pentecostal-Charismatic Movement possesses a distinctive flair that demands a holistic understanding of the movement's historical, cultural, fundamental and religious dimensions in a multifarious religious landscape. The disquisition of the movement's political cognizance, identity, power, authority, theology, popular culture, ethics and missiological impact in northern Nigeria presents a fine embroidery of their trials, frustrations and challenges, but inveterate in faith, hope and love that opens up innovative panoramas of peaceful dialogical prospects and coexistence between Christians and Muslims in northern Nigeria. In Nigeria - Politics, Religion, Pentecostal-Charismatic Power and Challenges, Akintayo Emmanuel reconnoiters the complex missiological hindrances challenging the Nigerian Pentecostal-Charismatic Movement. Their contextual missional landslide disheveled with complicated paradoxes in the way the Christian majority have responded to Muslims in northern Nigeria is anatomized. The Nigerian Pentecostal-Charismatic Movement's puissance to solve some of

Nigeria political, ideological, cultural and spiritual dimensions of crisis and sectarian violence is achievable if the movement can mitigate her missiological hindrances. The responses of Nigerian Pentecostal-Charismatic Movement to Nigeria's socio-political and ethno-religious complexities can construct a great future for the soul of Nigeria. They do not only have the capacity to provide the Christian alternatives to Nigeria's peculiarities, they can also stimulate Nigeria's deification among other nations by continuing to disentangle from unscrupulousness and atrociousness embedded within—a reproach and opprobrium to any people.

politics and religion journal: Conceptualising Comparative Politics Anthony Petros Spanakos, Francisco Panizza, 2015-07-16 Comparative politics often involves testing of hypotheses using new methodological approaches without giving sufficient attention to the concepts which are fundamental to hypotheses, particularly the ability of these concepts to 'travel'. Proper operationalising requires deep reflection on the concept, not simply establishing how it should be measured. *Conceptualising Comparative Politics* - the flagship book of Routledge's series of the same name - breaks new ground by emphasising the role of thoroughly thinking through concepts and deep familiarity with the case that inform the conceptual reflection. In this thought-provoking book, established academics as well as emerging scholars in the field collect (and invite) scholarship in the tradition of conceptual comparative politics. The book posits that concepts may be used comparatively as 'lenses', 'building blocks' and 'scripts', and contributors show how these conceptual tools can be employed in original comparative research. Importantly, contributors to *Conceptualising Comparative Politics* do not simply use concepts in one of these three ways but they apply them with careful consideration of empirical variation. The chapters included in this volume address some of the most contentious issues in comparative politics (populism, state capacity, governance, institutions, elections, secularism, among others) from various geographic regions and model how scholars doing comparative politics might approach such subjects. Concepts make possible scholarly conversations including creative confrontations across paradigms. *Conceptualising Comparative Politics* will challenge you to think of how to engage in conceptual comparative inquiry and how to use various methodologically sound techniques to understand and explain comparative politics.

politics and religion journal: Hermeneutics, Politics, and the History of Religions Christian Wedemeyer, Wendy Doniger, 2010-03-08 This volume comprises papers presented at a conference marking the 50th anniversary of Joachim Wach's death, and the centennial of Mircea Eliade's birth. Its purpose is to reconsider both the problematic, separate legacies of these two major twentieth-century historians of religions, and the bearing of these two legacies upon each other.
