

politics groups and identities

politics groups and identities represent a fundamental aspect of modern political landscapes, shaping how individuals and communities align themselves within the broader spectrum of governance and public discourse. These groups and identities are not only defined by shared beliefs and ideologies but also by cultural, ethnic, social, and economic factors that influence political behavior and policy preferences. Understanding the dynamics of politics groups and identities is essential for analyzing electoral outcomes, policy developments, and social movements. This article explores the various dimensions of political groups and identities, including their formation, impact on political participation, and the role identity politics plays in contemporary society. Additionally, it examines the challenges and opportunities that arise from the intersection of diverse political identities. The following sections provide a comprehensive overview of these topics and more.

- Definition and Types of Politics Groups and Identities
- The Role of Identity in Political Behavior
- Political Mobilization and Group Dynamics
- Intersectionality and Overlapping Identities
- Challenges and Controversies Surrounding Identity Politics

Definition and Types of Politics Groups and Identities

Politics groups and identities encompass a wide range of social and political affiliations that influence how individuals perceive their role in society and engage with political processes. These groups are often categorized based on shared characteristics such as ideology, ethnicity, religion, class, gender, or regional affiliation. Political identities provide a framework through which people interpret political information and make decisions about voting, activism, and policy support.

Ideological Groups

Ideological groups are formed around common political beliefs and values, such as conservatism, liberalism, socialism, or libertarianism. These groups often advocate for specific policy agendas and play a crucial role in shaping party platforms and legislative priorities. Ideological identities help individuals align with political parties or movements that reflect their worldview.

Ethnic and Cultural Groups

Ethnic and cultural identities influence politics by creating solidarity among members who share a common heritage, language, or cultural practices. These groups often seek recognition, representation, and protection of their rights within the political system. Ethnic political groups can

be particularly influential in multicultural societies where identity politics shapes electoral coalitions and policy debates.

Social and Economic Class Groups

Class-based political identities arise from shared economic interests and social status. Working-class, middle-class, and elite groups may have distinct political priorities, such as labor rights, taxation, or social welfare. Class identities often intersect with other forms of political grouping, affecting voting patterns and political participation.

The Role of Identity in Political Behavior

Identity plays a pivotal role in shaping political behavior by providing individuals with a sense of belonging and purpose within the political arena. Political identities influence how people interpret political messages, whom they trust, and the issues they prioritize. This section explores the psychological and sociological mechanisms behind identity's impact on politics.

Psychological Attachment to Political Groups

Individuals develop strong emotional attachments to their political groups, which can reinforce loyalty and motivate participation. This attachment often leads to in-group favoritism and out-group bias, affecting interpersonal and intergroup relations within politics. The sense of identity provides stability in political beliefs and resistance to opposing viewpoints.

Voting Behavior and Group Identity

Group identities are significant predictors of voting behavior. People tend to vote for candidates or parties that they perceive as representing their group's interests and values. This tendency can be observed in demographic voting patterns, such as racial or gender-based voting blocs, which influence electoral outcomes and party strategies.

Political Mobilization and Group Dynamics

Political mobilization refers to the process by which political groups activate their members and supporters to engage in collective action, including voting, protests, and advocacy. The dynamics within and between groups affect the effectiveness of mobilization efforts and the ability to influence political power structures.

Strategies for Group Mobilization

Political groups employ various strategies to mobilize their members, such as grassroots organizing, social media campaigns, and coalition-building. Effective mobilization requires addressing members' interests and fostering a shared identity that motivates collective action.

Intergroup Relations and Coalition Building

Coalitions between different political groups and identities can amplify political influence by pooling resources and expanding constituencies. However, managing diverse interests and maintaining cohesion within coalitions present ongoing challenges.

Intersectionality and Overlapping Identities

Intersectionality refers to the interconnected nature of social categories such as race, gender, class, and sexuality, which create overlapping systems of discrimination or privilege. In politics, recognizing intersectionality is crucial for understanding the complexity of political identities and addressing the needs of diverse constituencies.

Multiple Identities and Political Expression

Individuals often hold multiple political identities simultaneously, which can influence their political perspectives and behavior in nuanced ways. For example, a person may identify as both a racial minority and a member of a particular ideological group, shaping their political priorities and alliances.

Policy Implications of Intersectional Identities

Policies that acknowledge intersectional identities are more likely to address the multifaceted nature of social inequality and representation. Political groups that incorporate intersectionality into their platforms can better represent diverse populations and foster inclusive political environments.

Challenges and Controversies Surrounding Identity Politics

While politics groups and identities can empower marginalized communities and enhance democratic participation, they also generate debates and controversies. Critics argue that identity politics may exacerbate divisions and detract from universal policy goals, while supporters emphasize its role in achieving social justice.

Criticism of Identity-Based Politics

Critics contend that focusing heavily on identity can fragment political discourse and lead to exclusionary practices. They caution that excessive emphasis on group differences may hinder consensus-building and complicate governance.

Advocacy and Empowerment Through Identity Politics

Proponents highlight that identity politics provides a vital platform for historically underrepresented groups to voice their concerns and influence public policy. It fosters political empowerment and challenges systemic inequalities by centering marginalized experiences.

- Recognition of group-specific issues
- Promotion of diversity and inclusion
- Strengthening democratic participation
- Encouragement of social and political reforms

Frequently Asked Questions

What are political identity groups?

Political identity groups are communities of individuals who share common characteristics such as race, ethnicity, religion, gender, or ideology, which influence their political beliefs, behaviors, and affiliations.

How do political groups influence elections?

Political groups influence elections by mobilizing voters, endorsing candidates, shaping public opinion, and advocating for policies that align with their interests, thereby affecting voter turnout and election outcomes.

What role does social media play in shaping political identities?

Social media platforms amplify political identities by allowing individuals to connect with like-minded groups, share information, organize events, and express opinions, often reinforcing existing beliefs and sometimes contributing to polarization.

How do intersectional identities affect political participation?

Intersectional identities, which consider overlapping social categories like race, gender, and class, affect political participation by shaping unique experiences and perspectives that influence how individuals engage with political processes and issues.

What challenges do minority political groups face in

mainstream politics?

Minority political groups often face challenges such as underrepresentation, discrimination, limited access to resources, and systemic barriers that hinder their ability to influence policy and participate fully in political processes.

How can political groups foster social cohesion despite diverse identities?

Political groups can foster social cohesion by promoting inclusive dialogue, emphasizing common goals, encouraging mutual respect, and creating platforms for diverse voices to collaborate on shared political and social objectives.

Additional Resources

1. *Identity and Political Action*

This book explores the ways in which social identities—such as race, gender, ethnicity, and class—influence political behavior and group mobilization. It examines the role of collective identity in shaping political movements and policy outcomes. Through case studies and theoretical frameworks, the author highlights how identity politics can both empower marginalized groups and create social divisions.

2. *The Politics of Group Identity*

Focusing on the intersection of identity and political power, this book analyzes how different groups use identity as a tool for political recognition and rights. It delves into the dynamics of inclusion and exclusion within political systems and the challenges of multiculturalism. The text provides insights into the formation of political coalitions based on shared identities.

3. *Race, Ethnicity, and Political Mobilization*

This volume investigates the political participation of racial and ethnic groups in various democratic societies. It addresses barriers to political engagement and the strategies groups adopt to influence public policy. The book also discusses the impact of demographic changes on electoral politics and group representation.

4. *Gender and Politics: Identity, Sexuality, and Power*

By examining the intersections of gender, sexuality, and political power, this book sheds light on how identity shapes political agendas and activism. It covers feminist movements, LGBTQ+ rights, and the role of gender in political leadership. The author also considers how political institutions respond to these identity-based demands.

5. *Social Movements and Collective Identity*

This book provides a comprehensive overview of how collective identities are constructed and sustained within social movements. It explores the role of identity in mobilizing participants and framing political goals. The author discusses various movements, from civil rights to environmental activism, illustrating the diversity of identity-based politics.

6. *Ethnic Politics in Comparative Perspective*

Offering a comparative analysis, this book examines ethnic group politics across different countries and political systems. It highlights patterns of ethnic conflict, cooperation, and power-sharing

arrangements. The text also investigates the impact of state policies on ethnic identity and political representation.

7. *The Dynamics of Political Identity*

This work investigates how political identities are formed, transformed, and contested over time. It explores the psychological and social underpinnings of political group affiliation. The author integrates insights from political science, sociology, and psychology to explain the fluid nature of political identities.

8. *Religion, Identity, and Political Conflict*

Focusing on the complex relationship between religion and politics, this book analyzes how religious identities influence political alignments and conflicts. It examines case studies where religious identity has been a source of both political mobilization and division. The author also discusses secularism and the politics of religious pluralism.

9. *Class, Identity, and Political Representation*

This book explores the interplay between socioeconomic class and political identity, emphasizing how class shapes political attitudes and group affiliations. It considers the challenges of representing diverse class interests in democratic institutions. The author also examines the rise of populism and its relation to class-based identity politics.

politics groups and identities: *The Politics of Protest* Nadia E. Brown, Ray Block Jr., Christopher Stout, 2020-12-17 This collection provides a deep engagement with the political implication of Black Lives Matter. This book covers a broad range of topics using a variety of methods and epistemological approaches. In the twenty-first century, the killings of Black Americans have sparked a movement to end the brutality against Black bodies. In 2013, #BlackLivesMatter would become a movement-building project led by Alicia Garza, Patrisse Cullors, and Opal Tometi. This movement began after the acquittal of George Zimmerman, who murdered 17-year-old Trayvon Martin. The movement has continued to fight for racial justice and has experienced a resurgence following the 2020 slayings of Ahmaud Arbery, George Floyd, Breonna Taylor, Sean Reed, Tony McDade, and David McAtee among others. The continued protests raise questions about how we can end this vicious cycle and lead Blacks to a state of normalcy in the United States. In other words, how can we make any advances made by Black Lives Matter stick? The chapters in this book were originally published in the journal *Politics, Groups, and Identities*.

politics groups and identities: *Asian Pacific American Politics* Andrew Aoki, Pei-te Lien, 2020-06-29 Asian Pacific American Politics presents some of the most recent research on Asian American politics, including both quantitative and qualitative examinations of the role of Asian and Pacific Islander Americans in some of today's major political controversies. In the highly polarized politics of the United States in the early 21st century, non-Black racial minorities such as Asian Americans and Pacific Islander Americans will increasingly find themselves swept into the epicenter

of many of the divisive controversies. This timely volume presents the latest scholarly research on some of these issues, examining questions such as Asian American support for #Black Lives Matter, responses to racially-charged attacks, and the differences in the political socialization, politicization, and community-based activism within and across sectors of the Asian American population. In addition to examining political identity, voting participation, political mobilization, transnational politics, and partisan formation, the volume also investigates important, but little discussed, issues such as the Native Hawaiian sovereignty movement, political incorporation of Filipino Americans, and the struggle to establish comfort women memorials in the United States. Contributors also examine, through dialogues, how Asian Americans fit into the larger world of American racial politics, the extent to which they are likely to build coalitions with other communities of color, and the boundaries and contours of Asian American political theory. Exploring and Expanding the Political World Pioneered by Don T. Nakanishi, *Asian Pacific American Politics* will be of great interest to scholars of race and ethnicity in American politics, immigration and minority incorporation, ethnic identity politics, and political participation and democratic inclusion of Asians. The chapters were originally published in *Politics, Groups, and Identities*.

politics groups and identities: *American Politics and the African American Quest for Universal Freedom* Robert C. Smith, Sherri L. Wallace, Hanes Walton, Jr., 2025-08-29 *American Politics and the African American Quest for Universal Freedom* is known for its lucid style, student-oriented approach, and wide-ranging perspective. Designed to allow flexibility in teaching approaches, this tenth edition retains all the features that made previous editions so popular. All chapters have been updated with new content and the latest data available, including:

- Inclusive and affirming language throughout.
- Enhanced discussion on “Elements of Black Culture” and the political significance of African American music and the Black Church.
- Black American public opinion and the various strands of African American ideology.
- The CROWN Act, the politics of black hair, and the African American celebrity impact on politics.
- Political significance of the increasing ethnic diversity of Black communities due to immigration from Africa and the Caribbean and the latest on “Black Lives Matter” discussion.
- Discussion on the first Black sorority political action committee established in the U.S. and advocacy organizations serving the Black LGBTQIA+ community.
- Characteristics of eligible and registered Black voters, the coverage of the 2024 presidential and congressional elections, and the results of the congressional elections with respect to partisan control of Congress and the size of the Black congressional delegation.
- Demographic characteristics of the members of the 118th Congress now includes sexual orientation and generational data for comparison.
- Race policies of former President Biden, reclassifying him as “antiracist.” An alternative method of ranking presidents that brings the views of Black experts to the conversation and includes a discussion of the record number of Black political appointments and policies implemented under Biden.
- Confirmation hearing of the first Black woman, Justice Ketanji Brown Jackson, appointed to the Supreme Court. New material on the Voting Rights Act, Affirmative Action, and the Pigford cases testing institutional racism.
- “Tennessee Three,” highlighting racism in the rare expulsion of two Black members of the Tennessee House of Representatives, and how Republican state-controlled legislatures are stunting the quest for universal freedom.
- Revisions using the Urban League’s State of Black America “Equality Index,” as a measure of material well-being in the African American community, to examine historic and systemic patterns in structural inequities as manifested in economics, health, education, social justice, and civic engagement.
- Updated Textbook Media Integration Guide featuring lecture power points, chapter summaries, critical thinking questions, the profiles and “Faces and Voices”, and the links to the biographical material and videos.

American Politics and the African American Quest for Universal Freedom continues to offer a comprehensive, rigorous, and accessible understanding of how the presence of African Americans in the United States has profoundly influenced and influences American politics. It remains essential reading for all students of American Government, Black Politics, and African American Studies, particularly those approaching the study of race and politics for the first time.

politics groups and identities: Body Politics Nadia E. Brown, Sarah Allen Gershon, 2020-05-21 The politics of the body is often highly contested, culturally specific, and controlled, and this book calls our attention to how bodies are included or excluded in the polity. With governments regulating bodies in ways that mark the political boundaries of who is a citizen, worthy of protection and rights, as well as those who transgress socially proscribed norms, the contributors to this volume offer a systematic investigation of both theoretical and empirical account of bodily differences broadly defined. These chapters, diverse in both the populations and the political behaviours examined, as well as the methodological approaches employed, showcase the significance of body politics in a way few edited works in political science currently do. Arguing that the body is an important site to understand power relations, this book will be of interest to those studying the unequal application of rights to women, racial and ethnic minorities, the LGBTQ community, and people with disabilities. This book was originally published as a special issue of *Politics, Groups, and Identities*.

politics groups and identities: Handbook on Politics and Public Opinion Rudolph, Thomas J., 2022-08-18 Examining the nature of public opinion in democratic societies, this Handbook succinctly illustrates the importance of public opinion as an instrument of popular control and democratic accountability. Expert contributors in the field provide a thorough review of a variety of theoretical and methodological approaches to the study of this timely topic.

politics groups and identities: The Routledge Companion to Race and Ethnicity Stephen M. Caliendo, Charlton D. McIlwain, 2020-10-27 The second edition of *The Routledge Companion to Race and Ethnicity* offers readers a broad overview of scholarly exploration of the ways that humans have organized themselves (and have been organized) according to racial and ethnic divisions. More than 80 scholars from around the world and representing multiple academic traditions contribute entries to this accessible yet sophisticated volume that addresses contemporary issues in historical context. The first half of the book challenges readers to grapple with some of the most controversial aspects of categorization, prejudice and discrimination through focused chapters ranging from the notion of Whiteness to the supposed biological rationale for racial categorization. The second half is comprised of 70 shorter entries on specialized concepts, persons and groups that are crucial to understanding these issues. Taken as a whole, this volume provides a broad, multi-disciplinary and global overview of issues that continue to provide challenges to notions of equality and justice.

politics groups and identities: The Handbook of Race, Ethnicity, Crime, and Justice Ramiro Martinez, Jr., Meghan E. Hollis, Jacob I. Stowell, 2018-09-12 This Handbook presents current and future studies on the changing dynamics of the role of immigrants and the impact of immigration, across the United States and industrialized and developing nations. It covers the changing dynamics of race, ethnicity, and immigration, and discusses how it all contributes to variations in crime, policing, and the overall justice system. Through acknowledging that some groups, especially people of color, are disproportionately influenced more than others in the case of criminal justice reactions, the "War on Drugs", and hate crimes; this Handbook introduces the importance of studying race and crime so as to better understand it. It does so by recommending that researchers concentrate on ethnic diversity in a national and international context in order to broaden their demographic and expand their understanding of how to attain global change. Featuring contributions from top experts in the field, *The Handbook of Race and Crime* is presented in five sections—An Overview of Race, Ethnicity, Crime, and Justice; Theoretical Perspectives on Race and Crime; Race, Gender, and the Justice System; Gender and Crime; and Race, Gender and Comparative Criminology. Each section of the book addresses a key area of research, summarizes findings or shortcomings whenever possible, and provides new results relevant to race/crime and justice. Every contribution is written by a top expert in the field and based on the latest research. With a sharp focus on contemporary race, ethnicity, crime, and justice studies, *The Handbook of Race and Crime* is the ideal reference for advanced undergraduate students, graduate students, and scholars interested in the disciplines such as Criminology, Race and Ethnicity, Race and the Justice System, and the Sociology of Race.

politics groups and identities: Muslims, Identity, and American Politics Brian Calfano,

2018-04-27 Calfano provides an examination of the pressures faced by Muslims, often considered political and social outsiders in western nations, especially in the United States. Identity is a complex concept, especially when considering the role that group attachments play in affecting how one sees her/his role in the political environment of their country of residence. Perhaps the greatest tension in this regard is felt by those who are often considered outsiders in their home country, despite significant ties to their nation. Though citizens and second generation residents in many cases, American Muslims face a combination of suspicion, government scrutiny, and social segregation in the United States, despite significant education and economic assimilation in America. The crux of the investigation advanced here centres on how group influence, emotions, and religious interpretation contribute to the political orientation and behaviour of a national sample of Muslims living in the American context. A compelling explanation as to how members of an ostracized political group marshal the motivation to push through suspicion to become fully engaged political actors, this book has wide relevance and will be of interest to scholars researching Muslims and political participation across the fields of political science, history, sociology, and religion.

politics groups and identities: *Handbook of Organizational Politics* Eran Vigoda-Gadot, Amos Drory, 2006 This exciting Handbook offers a broad perspective on the intriguing phenomena of power, influence and politics in the modern workplace, their meaning for individuals, groups and other organizational stakeholders, and their effect on organizational outcomes and performances. The contributors illustrate the fact that organizational politics has many facets and definitions, all relating to the use of personal or aggregate power in influencing others and better achieving goals in the workplace. However, politics in organizations is difficult to study, as neither employees nor management are keen to divulge the political secrets and dynamics that help them to promote their own ideas and goals and to advance in the workplace. In the face of this challenge, the Handbook presents a comprehensive collection of original studies and theoretical discussions from across the globe. Providing a starting point for new research in the area, issues dealt with include: politics, personality and leadership ethics, fairness and prospects of trust in workplace politics organizational politics and employees well-being strategy, change and decision-making as a political process human resource management and consulting in a political sphere. Offering a fresh and up-to-date take on the topic, this highly original Handbook will be a fascinating read for academics, students and researchers in the fields of management and organizational behavior. The wide range of perspectives presented in this book, written by some of the leading scholars and researchers in the field, will also be invaluable to practitioners in management and to individuals in organizations who require a better understanding of the meaning of power and influence in the modern workplace.

politics groups and identities: Gender and Political Psychology Zoe Oxley, 2017-10-02 This book showcases new work done by gender politics scholars and political psychologists, covering a variety of political psychology topics. These include stereotyping and prejudice, intergroup conflict, social identity, attitude formation, group affinity, group decision-making, anxiety, contextual effects on individual behaviour, and the evolutionary roots of political behaviour. Political psychological insights are applied to address topics of longstanding concern within the field of gender and politics. Among the citizenry, gender differences in political ideology, responses to partisan conflict, Hispanic identity formation, and symbolic racism are explored. Other chapters pose the following questions relating to female candidates: What have been the effects of state parties' gender-inclusive policies? Who is most likely to gender stereotype candidates? Are general attitudes toward women in political office related to vote choice in specific contests? What are the implications of politicized motherhood? Finally, a set of essays engage a variety of themes related to gender, decision-making rules, and authority in small deliberative bodies. This book was originally published as a special issue of *Politics, Groups, and Identities*.

politics groups and identities: A Novel Approach to Politics Douglas A. Van Belle, 2024-08-28 A textbook your students will want to read. If you would like students to understand hard political concepts, this work makes it accessible for them. By using pop culture, we can open ideological ideas and students are not bound by their own preconceived ideas. —Leah Murray,

Weber State University A Novel Approach to Politics turns the conventional textbook wisdom on its head by using pop culture references to illustrate key concepts and cover recent political events. Adopters of previous editions are thanking author Douglas A. Van Belle for some of their best student evaluations to date. With this Seventh Edition, Van Belle brings the book fully up-to-date with recent events, current policy debates, international happenings, and other assorted political matters. Understanding politics requires a willingness to engage with ideas, arguments, and information that makes you uncomfortable, Van Belle takes the most tumultuous political periods in recent history head-on. Somehow, he weaves in recent movies and books into the text as he works in a solid foundation in institutions, ideology, and economics controversies into all that sizzle, which is certain to captivate students. Included with this title: LMS Cartridge: Import this title's instructor resources into your school's learning management system (LMS) and save time. Don't use an LMS? You can still access all of the same online resources for this title via the password-protected Instructor Resource Site. Select the Resources tab on this page to learn more.

politics groups and identities: Identity Politics in the United States Khalilah L. Brown-Dean, 2019-09-20 In 2017, a white supremacist rally at the University of Virginia forced many to consider how much progress had been made in a country that, nine years prior, had elected its first Black president. Beyond these racial flashpoints, the increasingly polarized nature of US politics has reignited debates around the meaning of identity, citizenship, and acceptance in America today. In this pioneering book, Khalilah L. Brown-Dean moves beyond the headlines to examine how contemporary controversies emanate from longstanding struggles over power, access, and belonging. Using intersectionality as an organizing framework, she draws on current tensions such as voter suppression, the Me Too movement, the Standing Rock protests, marriage equality, military service, the rise of the Religious Right, protests by professional athletes, and battles over immigration to show how conflicts over group identity are an inescapable feature of American political development. Brown-Dean explores issues of citizenship, race, ethnicity, gender, sexual identity, and religion to argue that democracy in the United States is built upon the battle of ideas related to how we see ourselves, how we see others, and the mechanisms available to reinforce those distinctions. Identity Politics in the United States will be an essential resource for students and engaged citizens who want to understand the link between historical context, contemporary political challenges, and paths to move toward a stronger democracy.

politics groups and identities: Newcomers, Outsiders, and Insiders Rodney E. Hero, Sr., Ronald Schmidt, Sr., Andrew L. Aoki, Yvette M Alex-Assensoh, 2009-12-21 How has the arrival of new racial and ethnic groups affected the political gains of long-standing minorities in the United States?

politics groups and identities: Identity Politics Nils Holtug, 2025-03-12 According to a common narrative, identity politics derives from leftist postmodernism, and is antithetical to both liberalism and Enlightenment universalism. This narrative, however, is false. Identity politics is propagated not only by the left but also by the right-and it is not tied to postmodernism. Various forms of identity politics are, in fact, quite compatible with liberalism and Enlightenment values. Based on a liberal egalitarian framework, Nils Holtug argues that some forms of identity politics are well worth pursuing, while others should clearly be resisted. Among other things, identity politics can serve to increase the opportunities of worse off, marginalized groups. In this book, Holtug considers and assesses specific identity policies, including affirmative action for African Americans, opposition to the n-word and blackfacing, and the backlash against cultural appropriation and out-group representation in art. Identity Politics surveys various forms of 'cancel culture', such as no platforming and the pulling down of statues depicting morally compromised historical figures. Holtug also scrutinizes instances that are more specific to the political right, including white supremacy and ethnopluralism. Finally, he considers the suggestion that identity politics is divisive and drives down social solidarity, arguing that while some forms of identity politics do indeed drive down solidarity, this is less clear in the case of the minority-accommodating policies.

politics groups and identities: Rights, Democracy, and Fulfillment in the Era of Identity

Politics David Ingram, 2004-04-09 Introduction : new critical theory : taking rights, democracy, and identity politics seriously -- Human rights and differends : the fragmentation of reason and identity in the (post)modern age -- White man's burden? ethnicity and race in the era of identity politics -- Identity politics and the law : reflections on disability -- Democracy and racial identity : reconsidering representation -- Democracy and the rule of law : differends and crises in postliberal capitalism -- Toward a pragmatist and perfectionist theory of rights -- Human rights and international justice -- Concluding remarks : achieving global harmony through transformative dialogue.

politics groups and identities: The Oxford Handbook of Gender and Politics Georgina Waylen, Karen Celis, Johanna Kantola, S. Laurel Weldon, 2013-02-12 As a field of scholarship, gender and politics has exploded over the last fifty years and is now global, institutionalized, and ever expanding. The Oxford Handbook of Gender and Politics brings to political science an accessible and comprehensive overview of the key contributions of gender scholars to the study of politics and shows how these contributions produce a richer understanding of politics and societies. Like the field it represents, the handbook has a broad understanding of what counts as political and is based on a notion of gender that highlights masculinities as well as femininities, thereby moving feminist debates in politics beyond the focus on women. It engages with some of the key aspects of political science as well as important themes in gender and feminist research (such as sexuality and body politics), thereby forging a dialogue between gender studies in politics and mainstream political science. The handbook is organized in sections that look at sexuality and body politics; political economy; civil society; participation, representation and policymaking; institutions, states and governance as well as nation, citizenship and identity. The Oxford Handbook of Gender and Politics contains and reflects the best scholarship in its field.

politics groups and identities: British Multiculturalism and the Politics of Representation Lasse Thomassen, 2017-03-08 Uses poststructuralist theory to connect inclusion, exclusion and identity, using real-world case studies from British culture, politics and law Lasse Thomassen applies a fresh, poststructuralist approach to reconcile the theoretical and practical issues surrounding inclusion, exclusion and representation. He opens up debates and themes including Britishness, race, the nature and role of Islam in British society, homelessness and social justice. Thomassen argues that the politics of inclusion and identity should be viewed as struggles over how these identities are represented. He develops this argument through careful analysis of cases from the last four decades of British multiculturalism, including public debates about the role of religion in British society, Gordon Brown and David Cameron's contrasting versions of Britishness, legal cases about religious symbols and clothing in schools, and the Nick Hornby novel *How to Be Good*.

politics groups and identities: The Rise of Ethnic Politics in Nepal Susan I. Hangen, 2009-12-04 This book argues that ethnic politics have the potential to strengthen rather than destabilize democracy. It studies one of Nepal's most significant social movements and examines the role it has played in the process of democratization in Nepal. It demonstrates that ethnic parties are not antithetical to democracy and that democratization can proceed in diverse and unexpected ways.

politics groups and identities: Introducing Comparative Politics Stephen Orvis, Carol Ann Drogus, 2020-01-07 The graphics in the book are extremely reader-friendly. The language is clear and easy for students to follow. Instructor resources are quite helpful (and a key part of my decision-making). Overall, this is the best comparative politics text for undergrads that I have found. It covers all the important topics in the field and presents them in a way that is accessible to students. —Laura N. Bell, West Texas A&M University Organized thematically around important questions in comparative politics—who rules? what explains political behavior? where and why?—Introducing Comparative Politics, Fifth Edition, integrates a set of extended case studies of 11 countries that vividly illustrate issues in cross-national context. Serving as touchstones, the cases are placed within the chapters where they make the most sense—not separated from the theory or in a separate volume—helping students make connections between the two earlier in the semester.

The book's hybrid organization gives students a more holistic view of comparative politics. A Complete Teaching & Learning Package LMS Cartridge (formally known as SAGE Coursepacks) Import this title's instructor resources into your school's learning management system (LMS) and save time.
