pray for business owners: An Investigation Into Christian Sme Owner-Managers' Conceptualisations of Practice Andrea Werner, 2008 This study investigates how Christianity impacts on the way owner-managers of small to medium-sized enterprises (SMEs) conceptualise their worlds of business practice. The context for the research is the more general issue of how civil society and its institutions influence economic activity and how they might provide a counterbalance to the potentially negative impacts of 'unrestrained' self-interested economic behaviour. The study is based on qualitative interviews with SME owner-managers in Germany and the U.K. who regard themselves as practising Christians. Using a socio-psychological approach, the data analysis yielded a range of linguistic and conceptual resources that are peculiar to Christian discourse and that have the potential to influence business activity in rather distinctive ways. This book outlines the effects that these Christian resources can have on these owner-managers and how they may be linked to specific business practices. Attention is drawn to the fact that Christian conceptual resources can be interpreted and exploited in different ways, which leads to differences in how Christian owner-managers apply their faith to their business. Furthermore, the study maps out the - often interacting - influence of other discursive contexts and resources. The specific influence of the SME context will be discussed and some differences with regards to the two national contexts in which

the research was conducted will be highlighted. The book also addresses how the socio-psychological approach that was chosen for this study may be used for investigations into the impact of other civil society contexts.

pray for business owners: *The Only Prayer I'll Ever Pray: Let My People Go* Donald R. Wright, 2009-11 The Only Prayer I'll Ever Pray: Let My People Go is a stirring call for blacks in America to critically examine their loyalty and dedication to religion and to begin adapting a lifestyle centered on rational thinking. It is time to break the chains of mental bondage caused by religious dogma. This book is a compelling presentation of practical reasons using a common sense approach that encourages blacks in America to disregard their need for religion. It provides a perspective on the harmful influences of religion. Author Donald R. Wright addresses the effects organized religion, primarily Christianity, has had on blacks in America from slavery to the present. He gives a brief but concise explanation as to how slaves were converted to Christianity. He has decoded this Matrix called religion. This book presents the case as an advocate for an alternative view. The author explains a part of his life's journey that began in 2002 and how it brought forth significant changes and new interests. The book explores questions many Christians have wanted to ask, but are afraid, or if certain ones are asked, they are told to just have faith. In 2004, after another disturbing church experience, this author made a commitment to be a more knowledgeable Christian in lieu of being a handicapped Christian; totally dependent upon pastors, preachers, and teachers for interpretation and instruction regarding the Bible. This commitment led to a discovery of the many contradictions in the Bible. A contradiction makes truth difficult to attain. Further study led to a thorough evaluation of Christianity. This book provides compelling definitions of religion; covers the mis-education of Christians; religious loyalty of blacks; the influence of preachers and the mega church; and black men and the church. It challenges the so-called moral authority of religion and the deprivation of children having the freedom to choose a religion or reject religion in its totality. It is a quest to invigorate thoughts that will move our society toward positive change. Donald R. Wright, former deacon in a Baptist church, has been on a truth-seeking journey regarding religion and its practices for the past five years. He graduated from Tennessee State University with a Bachelor of Science degree in Electrical Engineering and is a professional engineer. He currently owns an engineering consulting firm in Houston, Texas. Wright and his wife have been married for 29 years and they have one daughter. He is a native of Fayette, Alabama.

pray for business owners: 15 Secrets of Prayer Warriors Robert A. Avila, 2021-11-17 Prayer is a key interface with God. "Many Christians will not pray for a fish. They think the matter is too small for prayer. They think prayer is for conquering attacks from spirits of cancer, tuberculosis, and

death. They use prayer at the big moments, but not the small. Christians turn to God during major life trials. And, they should. However, they should also turn to God for things considered minor or inconsequential. Nothing is too big or too small for God.” Do you want to pray and make a difference? If you want to see greater results from your prayers, this book is for you. Not every prayer is equal. Why do some prayers have bigger impact than others? Here are 15 secrets that empower prayers of all types, from new understandings to salvation of loved ones. Veteran prayer warriors learn prayer magnification techniques from scripture and from the Holy Spirit. They learn, too, from trial and error. The “secrets” in this book are proven. Following the methods in this book, you will make breakthroughs in becoming a prayer warrior, develop effective prayer habits, and recognize when spiritual warfare is taking place, and respond to win. Many testimonies of these techniques are included. These prayer secrets are used by pastors, mothers, soldiers, and people in all walks of life. Bonus book: A vision, ‘How to Draw Near to God.’ The Holy Spirit explains the three types of Christians, and how to identify which you are, and how to elevate from one class to the next. Pray, or be defeated.

pray for business owners: *Religion, Migration and Business* María Villares-Varela, Olivia Sheringham, 2020-10-07 This book critically interrogates the role of religious faith in the experiences and practices of migrant entrepreneurs against the backdrop of neoliberal Britain. Focussing on Pentecostalism, a popular Christian denomination amongst migrant groups in the UK, the authors draw on primary qualitative data to examine the ways in which Pentecostal beliefs and values influence the aspirations and practices of migrant entrepreneurs. The book also explores the role of Pentecostal churches in supporting entrepreneurial activities among migrant communities, arguing that these institutions simultaneously comply and contest the formation of neoliberal subjectivities: providing cultural legitimacy to the entrepreneurial subject, whilst also contesting the community erosion of neoliberalism, (particularly in an austerity context) and fostering a strong a sense of belonging among congregants. The book offers an interdisciplinary perspective spanning sociology, geography and entrepreneurship studies to explain how values and faith networks shape everyday life, work and entrepreneurial practices.
