**pregnant teacher found dead in classroom: European-language Writing in Sub-Saharan Africa** Albert S. Gérard, 1986-01-01 The first major comparative study of African writing in western languages, *European-language Writing in Sub-Saharan Africa*, edited by Albert S. Gérard, falls into four wide-ranging sections: an overview of early contacts and colonial developments "Under Western Eyes"; chapters on "Black Consciousness" manifest in the debates over Panaficanism and Negritude; a group of essays on mental decolonization expressed in "Black Power" texts at the time of independence struggles; and finally "Comparative Vistas," sketching directions that future comparative study might explore. An introductory essay stresses the millennia of writing in Africa, side by side with a richly eloquent and artistic set of vernacular oral traditions; written and oral traditions have become interwoven in adaptations of imported forms and linguistic innovations that challenge traditional "high" literary norms. Gérard uses the mathematical concept of "fuzzy sets" to explain why the focus on "Black Africa" has led him to set aside for future analysis the literatures produced in North Africa, which fall under the influence of Muslim civilization, as well as the diasporic literatures of the New World. Over sixty scholars from twenty-two countries contribute specialized studies of creative writing by leading authors in the nineteenth and twentieth centuries such as Achebe, Mphahlele, Ngugi, Senghor, Soyinka, and Tutuola. Critical analyses are organized primarily around regions, reflecting different colonial languages imposed through schools and other social institutions. Some authors trace the adaptation of western genres, others identify syncretism with folktales or myths. The volumes are attentive to the heterogeneity of national literatures addressed to polyethnic and multilingual populations, and they note the instrumental politics of language in newly independent states. A closing chapter, "Tasks Ahead," identifies areas for future scholars to explore.

But now, in *The Dead Speak on Life before and after Death*, she provides a window into her unique life that includes her communication with spirits, animals, guides, saints, and angels. With a sprinkle of humor, she shares her journey from her first spirit sighting as a teenager to an adult who has made peace with her divine gift. Filled with love and wisdom from the dead, *The Dead Speak on Life before and after Death* demonstrates the dead continue their joyous life as spiritual beings on the other side. They try to communicate with you to let you know they want you to be happy, they are sorry for the hurt and pain they caused you, and you don't need to fear death. Your loved ones are not lost to you; the spirit is eternal.

**pregnant teacher found dead in classroom:** Heart of a Lamb Courage of a Lion Boab Curran, 2013 Written by first-time author Bob Curran, 'Heart of a Lamb Courage of a Lion' tells a heart-breaking story of the life of the writer from early years growing up in 60's Dundee to life as an acclaimed amateur fighter and Royal Engineer. Make no mistake; this is a very brave piece to have been written. Whilst many have penned autobiographies, I can think of none that have offered themselves so 'warts and all' as Curran. The Scotsman endured a brutal upbringing at the hands of a violent alcoholic father and suffered more of the same growing up attending tough Catholic schools. Beaten to a pulp by his Dad, teachers and school bullies on a regular basis, the tiny lad not only suffered physical hurt but deep emotional scars that remain to this very day. Around the horrendous treatment came the boxing bug as the bullied youngster joined a local boxing club aged seven and became instantly addicted. Boxing firstly out of the Camperdown ABC before joining the Lochee Boys club, the diminutive lad improved his confidence and well-being as a young fighter weighing not even seven stone (98lbs). There's a highly amusing tale about the young Curran whipping a well-known politician in his time at Lochee. Thirty years or so later the same politician would brag on 'Celebrity Big Brother' about boxing out of Lochee to the writer's obvious irritation. Already a handy fighter and 1970 Scottish youth champion, the teenage Curran enlisted in the Army aged 16 where his boxing career flourished, going 50-2 in his time there. The talented Curran would box the likes of (future pro British champion) George Feeney in a glittering forces career which saw him crowned British bantamweight champion in the 1973 NABC championships. At 18-years-old Bob was offered a pro contract by Dave Boy Green's manager Andy Smith but turned it down with hopes of winning the national ABA's and competing in the Olympics. Curran turned down the lucrative offer but, despite his obvious talent, never achieved either distinction and also never turned professional. Here is where the story really sours and the book starts becoming increasingly hard to read. You'll keep reading though as Bob suffers some spectacular mishaps. The Scottish soldier, still suffering low self-esteem issues and with an under-lying self-loathing, went completely off the rails following the break-up of his brief, and disastrous, first marriage. The marriage ended bitterly and further knocked the young man's spirits as he spiralled into depression. Eventually thrown out of the forces following a destructive episode in Cyprus, Curran was forced to regroup and face up to life away from his beloved 59 Independent Commando squadron. The role of an Army physical training instructor is one he had relished and loved before his marriage break-up. While the book details in depth Curran's days as a champion boxer and Royal Engineer, the remaining thirty-odd years are skipped through in minimal time. The former soldier turned to drugs and heavy drinking in the years after but cleaned up after finding religion. He got married again and had children but nothing is mentioned other than none wanted to be included in the biography. The former fighter was forced into early retirement in 1999 following a work accident left him with a serious back injury. It is an engrossing read which proves amusing, sincere and fascinating. The almost Jekyll-and-Hyde character of Curran leaps out of the pages as a well-intentioned, but emotionally scarred individual, who has an amazing knack of making a bad situation even worse (especially with his sometimes acid tongue). You will laugh and cry at the manner the story is told; very honest with no bravado. He remains however a man of sound morals despite his colourful life. Considering he has faced; a violent upbringing, paedophile attacks, messy relationships, life in the Army, all his amateur fights plus drugs and alcohol abuse, Bob must be commended by dealing with all of the above and never dodges any subject no matter how the situation may reflect him (on a few occasions diabolically so). In closing, a brutal read which deals with many subjects everyone could do with learning more about; especially post-traumatic stress disorder and issues with self-esteem. A highly entertaining book for all but the faint-hearted.

**pregnant teacher found dead in classroom:** *The Gay Male Sleuth in Print and Film* Drewey Wayne Gunn, 2012-11-08 In *The Gay Male Sleuth in Print and Film* (2005), scholar Drewey Wayne Gunn examined the history of gay detectives beginning with the first recognized gay novel, *The Heart in Exile*, which appeared in 1953. In the years since the original edition's publication, hundreds of novels and short stories in this sub-genre have been produced, and Gunn has unearthed many additional representations previously unrecorded. In this new edition, Gunn provides an overview of milestones in the development of gay detectives over the last several decades. Also included in this volume is an annotated list of novels, short stories, plays, graphic novels, comic strips, films, and television series with gay detectives, gay sleuths of secondary importance, and non-sleuthing gay policemen. The most complete listing available—including the only listing of early gay pulp novels, present-day male-to-male romances, and erotic films—this new edition brings the work up to date with publications missed in the first edition, particularly cross-genre mysteries, early pulps, and some hard-to-find volumes. *The Gay Male Sleuth in Print and Film: A History and Annotated Bibliography* lists all printed works in English (including translations) presently known to include gay detectives (such as amateur sleuths, police detectives, private investigators, and investigative reporters), from the 1929 play *Rope* until the present day. It includes all films in English, subtitled or dubbed, from the screen version of *Rope* in 1948 and the launch of the independent film *Spy on the Fly* in 1966 through the end of 2011. Complete with two appendices—a bibliography of sources and a list of Lambda Literary Awards—and indexes of titles, detectives, and actors, this extensively revised and updated reference will prove invaluable to mystery collectors, researchers, aficionados of the subgenre, and those devoted to GLBTQ studies.

**pregnant teacher found dead in classroom: Modern Ghost Melodramas** Michael Walker, 2025-10-01 The popular and critical successes of films like *The Sixth Sense* and *The Ring* and its sequels in the late 1990s led to an impressive international explosion of scary films dealing with ghosts. This book takes a close look at a number of those films from different countries, including the United States, Japan, South Korea, Spain, and Great Britain. Making a crucial distinction between these atmospheric films and conventional horror, Michael Walker argues that they are most productively seen as ghost melodramas, which opens them up to a powerful range of analytic tools from the study of melodrama, including, crucially, psychoanalysis.
