Overview of Premium Economy on Austrian Airlines

Austrian Airlines' premium economy cabin is a relatively recent addition to its fleet, introduced to

enhance passenger comfort on long-haul flights. Positioned between economy and business class, premium economy offers a blend of affordability and luxury. This cabin class caters to travelers who desire more space, better service, and elevated amenities without paying the premium business class fare. The airline operates this service primarily on intercontinental routes, ensuring that passengers enjoy a relaxed and enjoyable journey across continents.

Purpose and Target Audience

The premium economy class of Austrian Airlines is targeted at both leisure travelers seeking a more comfortable flight and business travelers who may not require full business class services but want an upgrade from economy. It appeals to those who value additional personal space, enhanced dining options, and priority services while remaining budget-conscious.

Aircraft Featuring Premium Economy

Premium economy seating is available on Austrian Airlines' long-haul aircraft, including the Boeing 777 and the Boeing 787 Dreamliner. These modern aircraft are equipped to provide an optimal premium economy environment with state-of-the-art seating and cabin features designed for passenger comfort.

Seating and Comfort

One of the most significant advantages of flying premium economy with Austrian Airlines is the improved seating arrangement. Compared to standard economy, premium economy offers wider seats, increased legroom, and greater recline, which significantly enhance comfort, especially on longer flights.

Seat Dimensions and Configuration

The premium economy seats on Austrian Airlines typically measure around 19 inches in width, which

is wider than economy class seats. Legroom is increased, with a seat pitch often ranging from 38 to 40 inches, allowing passengers to stretch out more comfortably. The seating configuration usually follows a 2-3-2 layout on wide-body aircraft, providing easier aisle access and a more spacious feel.

Additional Comfort Features

Seats in premium economy are equipped with adjustable headrests, footrests, and enhanced cushioning. Passengers also benefit from more storage space for personal items and power outlets for charging electronic devices. The cabin ambiance is designed to be quieter and more relaxing, contributing to a better overall travel experience.

In-Flight Services and Amenities

Austrian Airlines enhances the premium economy experience with a range of in-flight services that surpass those found in economy class. These benefits focus on elevating passenger convenience, entertainment, and dining quality.

Dining Experience

Passengers in premium economy enjoy a higher standard of meal service. Austrian Airlines provides a separate menu featuring gourmet dishes prepared with fresh ingredients. Meals are served on real china with metal cutlery, and passengers have access to a selection of complimentary beverages, including wines and spirits, which are not typically available in economy class.

Entertainment and Connectivity

The premium economy cabin offers larger personal entertainment screens with an extensive selection of movies, TV shows, music, and games. Noise-canceling headphones may also be provided to enhance the viewing and listening experience. Some aircraft are equipped with Wi-Fi services, allowing

passengers to stay connected during the flight at an additional cost.

Additional Amenities

Passengers receive amenity kits containing travel essentials such as eye masks, earplugs, and skincare products. Enhanced blankets and pillows are provided to ensure restful sleep. Furthermore, priority boarding and dedicated cabin crew attention contribute to a smoother and more personalized service.

Baggage Allowance and Policies

Baggage policies for premium economy passengers on Austrian Airlines are more generous compared to standard economy, offering increased checked baggage allowances and priority handling.

Checked and Carry-On Baggage

Typically, premium economy passengers are entitled to two checked bags, each weighing up to 23 kilograms (50 pounds), depending on the route. Carry-on allowances also tend to be more flexible, with an additional personal item permitted alongside the standard cabin bag. These allowances provide convenience for travelers carrying more luggage without incurring extra fees.

Priority Baggage Handling

One of the benefits of premium economy is priority baggage handling, which ensures that checked luggage is among the first to be delivered at baggage claim. This feature reduces waiting times and enhances the overall travel experience, especially upon arrival in busy airports.

Booking and Upgrade Options

Securing a seat in premium economy on Austrian Airlines can be done through various booking channels, with multiple opportunities to upgrade from economy or business class depending on availability and fare rules.

Booking Process

Passengers can book premium economy tickets directly through Austrian Airlines' official website, travel agencies, or online travel platforms. It is advisable to book early to secure preferred seats and take advantage of promotional fares. Premium economy fares often include flexible conditions compared to economy tickets.

Upgrade Opportunities

Existing economy passengers may upgrade to premium economy using Austrian Airlines' frequent flyer miles or by paying an additional fee. Upgrades are subject to availability and can be done during booking, at check-in, or at the airport. Business class passengers occasionally downgrade to premium economy to reduce travel costs while retaining enhanced comfort.

Frequent Flyer Benefits

Members of Austrian Airlines' Miles & More program can earn and redeem miles when flying premium economy. The class offers a higher mileage accrual rate than economy, rewarding loyal customers with faster points accumulation and access to exclusive benefits.

Comparing Premium Economy to Other Classes

Understanding how premium economy on Austrian Airlines compares to economy and business class helps travelers choose the best option for their needs and budget.

Premium Economy vs. Economy

The key differences include increased seat size and legroom, enhanced meal service, priority boarding, and additional baggage allowances. Premium economy passengers enjoy a more relaxed cabin environment and improved amenities, making it an excellent choice for those seeking extra comfort without the high cost of business class.

Premium Economy vs. Business Class

While business class offers lie-flat seats, lounge access, and a wider range of luxury services, premium economy provides many comfort upgrades at a fraction of the price. It lacks some of the exclusive perks of business class but remains a superior option to standard economy, balancing cost and comfort effectively.

When to Choose Premium Economy

Passengers should consider premium economy when they want a more comfortable flight experience without the expense of business class. It is particularly suitable for medium to long-haul flights where extra space and amenities significantly impact passenger well-being.

- Wider seats and more legroom than economy
- Enhanced meal service with complimentary beverages

- Priority boarding and baggage handling
- Access to upgraded entertainment systems

As little empirical work in this field exists, this study contributes to research by exploring how passenger airlines leverage innovation in such market conditions from a strategic and organizational view. Comprehensive case studies of a sample of eight passenger airlines constitute the empirical basis. The analysis detects patterns of innovations and draws conclusions on the strategic innovation behavior in the airline industry. premium economy austrian airlines: Kundenbindungsmanagement internationaler Fluggesellschaften: Eine Analyse von Frequent Flyer Programmen in der Aviation Branche Jan Pohlkamp, 2015-03-10 Der 23. November 2009 war ein besonderer Tag für die französische Fluggesellschaft Air France. Als erste Luftverkehrsgesellschaft Europas konnte Air France mit dem neuen, größten Passagierflugzeug der Welt - dem Airbus A380-800 - Linienflug-Premiere feiern. Mit der Airline hatten jedoch auch die Mitglieder des Air France/KLM-Vielfliegerprogrammes 'Flying Blue' Grund zur Freude. Bereits für den ersten kommerziellen Flug von Paris nach New York hatten Vielflieger die Chance, ihre Bonusmeilen gegen ein exklusives Flugticket für den A380 einzutauschen. Kunden ohne den entsprechenden Flying Blue-Kontostand an Bonuspunkten kamen hingegen nur über eine Auktion mit kräftigen Preisaufschlägen in diesen Genuss. Dieses aktuelle Beispiel einer exklusiven Prämie zeigt nur einen kleinen Einblick in die Welt der Frequent Flyer Programme und offenbart doch das gesamte Konzept dieser Kundenbindungsmaßnahme. Frequent Flyer Programme (FFP) - oder auch Vielfliegerprogramme - bieten Passagieren die Möglichkeit, Bonuspunkte für geflogene Meilen zu sammeln und diese gegen Prämien einzutauschen. Dadurch erhoffen sich die Fluggesellschaften, rentable Kunden zu identifizieren, zu entwickeln und langfristig zu binden. Diese Form der Kundenbindungsprogramme hat ihren Ursprung im Jahr 1981. American Airlines implementierte damals eine Produktförderungsmaßnahme, die in ihrer Basisversion in den darauffolgenden Jahren zu den aktuellen Vielfliegerprogrammen weiterentwickelt wurde. Durch eine umfassende Studie fand American Airlines unter dem damaligen CEO Robert Crandall heraus, dass durch den immer größer werdenden Bedarf an Flugreisen ein Bonusprogramm nicht nur attraktiv auf Kunden wirken würde, sondern auch einen intelligenten Distributionskanal zur Verkaufsförderung darstelle. Zum damaligen Zeitpunkt bot das Pionierprogramm AAdvantage ein Bonusprogramm nur für sehr aktive Vielflieger an, bei dem der Gegenwert der Bonuspunkte noch sehr gering war und die Punkte am Jahresende verfielen. Ergänzend waren mit der Autovermietung Hertz und der Hotelkette Hyatt nur zwei Programmpartner integriert worden und das Einlösen der Bonusmeilen beschränkte sich auf ausgewählte Freiflüge und Upgrades sowie einige Prämien der beiden Partner. Daraufhin wurde das Konzept von AAdvantage bereits kurz nach der Einführung von einigen Wettbewerbern als Marketingspielerei belächelt. [...]

premium economy austrian airlines: A World Made for Money Bret Wallach, 2015-05 A spirited and incisive survey of economic geography, A World Made for Money begins with the author stopped at a red light in Norman, Oklahoma. Observing the landscape of drugstores and banks, and for that matter the stoplight and roads themselves, Bret Wallach observes, Everything I see has been built to make money or, at the very least, to facilitate making money. This, he argues, is a global phenomenon that nonetheless has occurred only within the past hundred years or so. Although guidebooks and culture brokers often disparage these landscapes of commerce, Wallach--recipient of a MacArthur genius grant--argues that we would do well to pay them close attention. A World Made for Money provides a compelling, condensed tour of our world. From Silicon Valley to Sri Lanka, from post-Soviet Russia to post-apartheid South Africa, Wallach looks at how human beings are buying, manufacturing, working, growing and shipping food, and accessing the natural resources to fuel it all. These essential facets of daily life, propelled by the profit motive, represent a transnational force shaping our surroundings and environment in ways that may not always be beautiful (or even healthy) but that are fundamental to understanding how the world works in the twenty-first century. Wallach examines the relationship between acquisitiveness and landscape, reveals surprising contradictions and nuances, and provides fresh perspective on politically charged topics such as sprawl, deindustrialization, and agribusiness.

premium economy austrian airlines: *Der Markt für Flugtickets in Europa* Elmar Wilhelm Fürst, 2013-03-08 Die Kundenorientierung ist für alle Arten von Verkehrsbetrieben ein konstitutives Merkmal: Transportleistungen werden - vom Sonderfall der Eigenbedarfsdeckung abgesehen - jeweils für einen Markt, d.h. mit Blickrichtung auf einen bestimmten Kundenkreis produziert. Nur

durch seinen Markt hat der Verkehrsbetrieb seine wirtschaftliche Existenzgrundlage. Wer den Kunden am besten zufrieden stellt, hat die größten Überlebenschancen. Wettbewerbssysteme haben ein hohes Innovations tempo, weil neue Leistungsangebote dem einzelnen Unternehmen die Möglichkeit bieten, sich gegenüber seinen Konkurrenten zu profilieren und dadurch seinen Marktanteil zu vergrößern. Der Luftverkehr ist zwar schon seit einigen Jahrzehnten dem rauen Wind des internationalen Wettbewerbs ausgesetzt, aber erst in jüngster Zeit wurde die volle Schärfe des auf Wettbewerbsmärkten stattfindenden Ausleseprozesses sichtbar. In immer kürzer werdenden Intervallen müssen die Airlines Leistungsqualität und Preis variieren, um neue Passagiere zu gewinnen und/oder den vorhandenen Kundenstamm nicht zu verlieren. Die vorliegende Arbeit untersucht die aktuelle Marktsituation im Personenluftverkehr. Sie behandelt die verkehrspolitischen Rahmenbedingungen, unter denen die Airlines als Leistungsanbieter derzeit und in nächster Zukunft arbeiten müssen; sie analysiert die aktuellen Verhaltensänderungen der Konsumenten beim Ticketkauf und entwickelt aus dem Analyseergebnis Empfehlungen für das Marketing der Luftverkehrsgesellschaften. Da das Interesse der Airlines, ihre Kunden stärker an sich zu binden, von der Größe der jeweiligen Gesellschaft unabhängig ist, dürften die Ergebnisse dieser Untersuchung einen breiten Leserkreis ansprechen. o. Prof. Dr. Peter FALLER IX Vorwort Das vorliegende Buch ist inhaltsgleich mit der vor kurzem an der Wirtschaftsuniversität Wien approbierten Dissertation. Lediglich einige Formatierungen wurden verändert.
