survivor 46 exit interview: Modern Slavery Survivor Pathways Anne-Marie Greenslade, 2024-11-18 This book presents a critical chronology of the modern slavery survivor journey in the UK, from intervention by the authorities to long-term recovery. The work examines the modern slavery survivor pathway and assesses the support systems available to survivors throughout this process. It also explores links to other traumatic crimes and investigates how the role of 'witness' in the criminal justice system impacts survivors' experiences. The work showcases findings from interviews with frontline practitioners alongside analysis of government publications and independent reports. It emphasises the importance of holistic care pathways with a consistent, benchmark standard of support across all services, including advocacy for each individual. It further argues that the UK government needs to extend its anti-slavery efforts towards long-term support and understanding of survivor needs, which should include a focus on survivor narratives and input. It is argued that this would not only improve recovery outcomes but would advance the criminal justice process in this area through witness retention and stronger evidence. The book will be of interest to academics, researchers and policy-makers in the areas of human rights, criminal justice, social justice and victimology. Based on international legal instruments, the work will appeal to an international readership.

survivor 46 exit interview: People's War Anthea Jeffery, 2019-05-15 More than 25 years have passed since South Africans were being shot or hacked or burned to death in political violence, and the memory of the trauma has faded. Nevertheless, some 20 500 people were killed between 1984 and 1994. Conventional wisdom has it that most died as a result of the ANC's people's war. Many books have been written on South Africa's political transition, but none has dealt adequately with the people's war. This book does. It shows the extraordinary success of the people's war in giving the ANC a virtual monopoly on power, as well as the great cost at which this was done. The high price of it is still being paid. Apart from the terror and killings it sparked at the time, the people's war set in motion forces that cannot easily be tamed. Violence, once unleashed, is not easy to stamp out. 'Ungovernability', once generated, is not readily reversed. For this new edition, Anthea Jeffery has revised and abridged her seminal work. She has also included a brief overview of the ANC's National Democratic Revolution for which the people's war was intended to prepare the way. Since 1994, the NDR has been implemented in many different spheres. It is now being speeded up in its second and more radical phase.

secretary of state, the first woman to hold the position. survivor 46 exit interview: *A Man and His Presidents* Alvin Felzenberg, 2017-05-02 A new understanding of the man who changed the face of American politics William F. Buckley Jr. is widely regarded as the most influential American conservative writer, activist, and organizer in the postwar era. In this nuanced biography, Alvin Felzenberg sheds light on little-known aspects of Buckley's career, including his role as back-channel adviser to policy makers, his intimate friendship with both Ronald and Nancy Reagan, his changing views on civil rights, and his break with George W. Bush over the Iraq War. Felzenberg demonstrates how Buckley conveyed his message across multiple platforms and drew upon his vast network of contacts, his personal charm, his extraordinary wit, and his celebrity status to move the center of political gravity in the United States closer to his point of view. Including many rarely seen photographs, this account of one of the most compelling personalities of American politics will appeal to conservatives, liberals, and even the apolitical.

survivor 46 exit interview: *Human Trafficking and Trauma in the Digital Era* Mirjam van Reisen, Munyaradzi Mawere, 2017-02-13 Eritrean refugees crisscross between countries in the Horn of Africa and North Africa in search of a safe place. Along their journeys, they are looted, threatened, intimidated, violated, and held for ransom. This book revisits the human trafficking crisis that first emerged in the Sinai at the end of 2008 and examines the expansion of human trafficking of Eritrean refugees and other forms of exploitation beyond the Sinai. It focuses on the modus operandi of these practices and on identifying their key facilitators and beneficiaries. The book locates the origin of these practices within Eritrea; it reveals how a deliberate policy of impoverishment and human rights abuses has driven the people out of the country, and how individuals within Eritrea, and particularly within the ruling party, benefit from the smuggling and trafficking of Eritrean refugees. The use of information communication technologies (ICTs) is identified as key to the new modus operandi of this criminal business and is found to further facilitate widespread collective trauma amongst Eritreans, who witness the abuse of their family members and fellow nationals through digital networks. An entire section in this book is dedicated to assessing the extent and effects of individual and collective trauma caused by Sinai trafficking and to examining potential approaches to healing. Other sections discuss the vulnerabilities of Eritrean minors and women, and the connections between human trafficking, terrorism and organ trafficking. The last section of the book raises the question of accountability. It examines and evaluates international responses to this forgotten crisis, and discusses the need for policies that tackle the problem where it emerges: in Eritrea.

survivor 46 exit interview: *Caught in the Crosshairs* Amber Day, 2025-07-01 The landscape of comedy has undergone a seismic shift in recent years with an increasing number of female comedians breaking through to mainstream audiences. Women are claiming high-profile roles as late-night hosts, sketch comedians, television producers, and standup stars. As they disrupt industry norms and transgress cultural boundaries, they have also become lightning rods for controversy, eliciting flares of anger, amazement, revulsion, or hope. *Caught in the Crosshairs* delves not only into the work of feminist icons like Samantha Bee, Amy Schumer, Leslie Jones, Michelle Wolf, and Hannah Gadsby, but also into the discourse surrounding their comedy. Author Amber Day argues that these debates transcend mere entertainment; they are cultural battlegrounds for larger philosophical and political conflicts, interrogating ideals of gender, race, power, and public space. We see conflicts over what should be considered scandalous or beyond the pale, who should be in the intended audience, what is appropriate behavior for which performing bodies, and what the boundaries of comedy ultimately are. *Caught in the Crosshairs* is an examination of how feminist comedy reflects the tensions of our times, disrupting established narratives and challenging traditional power structures.

survivor 46 exit interview: What the World Might Look Like Susie O'Brien, 2024-05-14 The idea of resilience is everywhere these days, offering a framework for thriving in volatile times. Dominant resilience stories share an attachment to a mythologized past thought to hold clues for navigating a future that is understood to be full of danger. These stories also uphold values of settler colonialism and white supremacy. What the World Might Look Like examines the way resilience thinking has come to dominate the settler-colonial imagination and explores alternative approaches to resilience writing that instead offer decolonial models of thought. The book traces settler-colonial resilience stories to the rise of resilience science in the 1970s and 1980s, illustrating how the discipline supports the projects of white supremacy and colonialism. Working to unravel the blanket of common sense that shrouds the idea of resilience, the book is equally cautious of settler-colonial antiresilience stories that invoke the idea of death as an antidote to unbearable life. Susie O'Brien argues that, although the dominant narratives of resilience are problematic, resilience itself is neither inherently good nor inherently bad. Appreciating the significance of resilience stories requires asking what worlds and what communities they are meant to preserve. Looking at the fiction of Alexis Wright, David Chariandy, and Leanne Betasamosake Simpson, O'Brien points to the potential of Black and Indigenous thinking around resilience to figure decolonial possibilities for planetary flourishing. Exposing the complexities and limits of resilience, What the World Might Look Like questions the concept of resilience, highlighting how Black and Indigenous novelists can offer different decolonial ways of thinking about and with resilience to imagine things "otherwise."

survivor 46 exit interview: Vulnerable Subjects G. Thomas Couser, 2018-08-06 My primary concern is with the ethics of representing vulnerable subjects—persons who are liable to exposure by someone with whom they are involved in an intimate or trust-based relationship, unable to represent themselves in writing, or unable to offer meaningful consent to their representation by someone else.... Of primary importance is intimate life writing—that done within families or couples, close relationships, or quasi-professional relationships that involve trust—rather than conventional biography, which can be written by a stranger. The closer the relationship between writer and subject, the greater the vulnerability or dependency of the subject, the higher the ethical stakes, and the more urgent the need for ethical scrutiny.—from the Preface Vulnerable Subjects explores a range of life-writing scenarios—from the celebrity to the ethnographic—and a number of life-writing genres from parental memoir to literary case studies by Oliver Sacks. G. Thomas Couser addresses complex contemporary issues; he investigates the role of disability in narratives of euthanasia and explores the implications of the Human Genome Project for life-writing practices in any age when many regard DNA as a code that scripts lives and shapes identity. Throughout, his book is concerned with the ethical implications of the political and economic, as well as the mimetic, aspects of life writing.
