Understanding the Role of Teachers Who Let Students Take Out Braids

Teachers who let students take out braids perform a unique role that combines respect for student autonomy with sensitivity to classroom dynamics. This approach acknowledges that hairstyles such as braids are not only fashion statements but often carry deep cultural and personal meanings. By allowing students to remove braids, teachers demonstrate flexibility and promote an inclusive classroom environment. Such actions also help address practical concerns related to student comfort, hygiene, and self-expression. Understanding this role requires recognizing the balance teachers must strike between enforcing school rules and supporting student individuality.

Definition and Context

The term “teacher who let students take out braids” refers to educators who permit or encourage students to undo braided hairstyles during the school day. This might occur in situations where students find their braids uncomfortable, need to maintain their hair for health reasons, or when the braids interfere with learning activities. In some cases, this allowance is part of a broader school policy on hairstyles, while in others, it reflects individual teacher discretion.

Teacher Responsibilities

Teachers who adopt this approach must be aware of the cultural importance of braids and the potential sensitivities involved. Their responsibilities include communicating respectfully with students about hairstyle preferences, ensuring that classroom activities are not disrupted, and collaborating with school administrators to align with overall policies. This role demands cultural competence and an understanding of the diverse backgrounds of students.

Cultural and Social Significance of Braids in Schools

Braids hold significant cultural and social meaning, especially within communities where braided hairstyles are traditional or symbolic. Recognizing this importance is essential for educators and school systems when developing policies or responding to student needs related to hair.

Cultural Heritage and Identity

For many students, braids are more than a hairstyle—they are a connection to heritage, family traditions, and cultural identity. Braiding techniques and styles often carry historical significance and can be a source of pride. Teachers who respect these aspects by allowing students to manage their braids as needed help affirm students' cultural identities.

Social Implications in Educational Settings

Hairstyles like braids may sometimes be subject to misunderstandings or biases within schools. Allowing students to take out braids when appropriate can reduce stigma, promote inclusivity, and challenge stereotypes. It also serves to create a more welcoming atmosphere, where students feel valued beyond their appearance.

Benefits of Allowing Students to Remove Braids

Permitting students to take out braids during school hours offers several benefits that contribute to their well-being, academic performance, and social experience.

Improved Comfort and Health

Braids, especially when worn tightly or for extended periods, can cause scalp tension, discomfort, or even hair damage. Allowing students to undo their braids can alleviate these issues, promoting better scalp health and physical comfort. This, in turn, supports students' ability to focus and engage in learning.

Enhanced Self-Expression and Confidence

When students are empowered to control their hairstyle choices, including removing braids, they often experience increased self-confidence. This autonomy fosters a positive self-image and encourages students to express their individuality in ways that feel authentic and respectful.

Support for Diverse Learning Environments

Teachers who let students take out braids contribute to a learning environment that values diversity and inclusivity. Such practices can lead to stronger student-teacher relationships and a classroom culture that celebrates differences rather than suppressing them.

Challenges and Considerations for Educators

While allowing students to take out braids has clear benefits, educators must also navigate potential challenges to maintain a balanced and effective classroom environment.

Managing Classroom Time and Activities

Undoing braids can be time-consuming and may distract from instructional time if not managed carefully. Teachers need strategies to minimize disruption, such as scheduling braid removal during breaks or providing designated areas for hair care.

Addressing School Dress Codes and Policies

Some schools have dress codes that include hairstyle regulations. Teachers must understand these policies and work with administrators to ensure that allowing braid removal aligns with school rules. Advocacy for policy adjustments may be necessary in some cases to accommodate cultural hairstyles.

Respecting Privacy and Sensitivity

Students may feel vulnerable removing braids in public or around peers. Educators should ensure that braid removal is conducted in a respectful and private manner whenever possible to protect student dignity and comfort.

Best Practices for Supporting Students' Hairstyle Choices

Implementing effective practices around allowing students to take out braids involves clear communication, cultural sensitivity, and collaborative policy development.

Establishing Open Communication Channels

Teachers should encourage students to discuss their hair care needs openly and create a classroom culture where hairstyle choices are respected. This dialogue helps identify when students require time or space to manage their braids.

Collaborating with School Leadership

Working with school administrators to develop inclusive hairstyle policies ensures that practices are consistent and supportive across the institution. This collaboration can promote awareness and reduce conflicts related to hairstyles.

Providing Resources and Support

Schools can offer resources such as hair care supplies, designated spaces for hair maintenance, and educational materials about cultural hairstyles. Such support empowers students to care for their hair healthily and comfortably.

Sample Guidelines for Teachers Allowing Braid Removal

- Schedule braid removal during non-instructional times to minimize disruptions.
- Provide a private or semi-private area for students to manage their hair.
- Respect student preferences about when and how to remove braids.
- Maintain sensitivity to cultural meanings associated with braided hairstyles.
- Communicate clearly with parents and guardians about hairstyle policies and practices.

teacher who let students take out braids: Teaching in the Terrordome Heather Kirn Lanier, 2012-10-01 Only 50 percent of kids growing up in poverty will earn a high school diploma. Just one in ten will graduate college. Compelled by these troubling statistics, Heather Kirn Lanier joined Teach For America (TFA), a program that thrusts eager but inexperienced college graduates into America's most impoverished areas to teach, asking them to do whatever is necessary to catch their disadvantaged kids up to the rest of the nation. With little more than a five-week teacher boot camp and the knowledge that David Simon referred to her future school as "The Terrordome," the altruistic and naïve Lanier devoted herself to attaining the program's goals but met obstacles on all fronts. The building itself was in such poor condition that tiles fell from the ceiling at random. Kids from the halls barged into classes all day, disrupting even the most carefully planned educational activities. In the middle of one lesson, a wandering student lit her classroom door on fire. Some colleagues, instantly suspicious of TFA's intentions, withheld their help and supplies. ("They think you're trying to 'save' the children," one teacher said.) And though high school students can be by definition resistant, in west Baltimore they threw eggs, slashed tires, and threatened teachers' lives. Within weeks, Lanier realized that the task she was charged with—achieving quantifiable gains in her students' learning—would require something close to a miracle. Superbly written and timely, *Teaching in the Terrordome* casts an unflinching gaze on one of America's "dropout factory" high schools. Though Teach For America often touts its most successful teacher stories, Lanier's powerful memoir illuminates a more common experience of "Teaching For America" with thoughtful complexity, a poet's eye, and an engaging voice. As hard as Lanier worked to become a competent teacher, she found that in "The Terrordome", idealism wasn't enough. To persevere, she had to rely on grit, humility, a little comedy, and a willingness to look failure in the face. As she adjusted to a chaotic school administration, crumbling facilities, burned-out colleagues, and students who perceived their school for the failure it was, she gained perspective on the true state of the crisis TFA sets out to solve. Ultimately, she discovered that contrary to her intentions, survival in the so-called Charm City was a high expectation.

teacher who let students take out braids: *Dragons in My Classroom* Barbara Kennard, 2022-06-14 As a young book lover with dyslexia, Barbara found the solution to her reading struggles in Miss Gluding, her first grade teacher, who showed compassion for her student's plight—and knew how to help her. From that time on, Barbara knew what she wanted to be: a teacher, just like Miss Gluding. Unfortunately, Barbara also had some bad teachers in the years that ensued—including her sixth grade teacher, an exacting woman who called attention to Barbara's learning disabilities in front of classmates. Still wanting to follow in Miss Gluding's footsteps in 1964, Barbara vowed she would be a better one than her sixth grade teacher; instead, however, she became very much like her, with unattainable expectations for her students and herself. After seventeen years in the teaching profession, she realized she had to either change her teaching style or change careers. By providence, right as she stood at this crossroads, she was offered the opportunity to teach overseas at The Dragon School in Oxford, England, for a year—an opportunity she jumped at. In the year that followed, Barbara would rely on her faith in God to give up a lot of what she knew about teaching and learn to do it differently—ways that wouldn't have room for her perfectionism. In short, she would have to begin again.

teacher who let students take out braids: *Enticement* Pema Tseden, 2018-09-28 *Enticement* marks the English-language debut of prominent Tibetan writer and filmmaker Pema Tseden. This collection gathers together his most relevant and influential short stories, including *Tharlo*, which he adapted into an award-winning and internationally acclaimed film in 2015. Written originally in the Chinese and Tibetan languages, these stories make use of a variety of literary styles and sources, ranging from traditional Tibetan oral tales to magical realism, surrealism, and the theater of the absurd. They humanize the Tibetan experience by stepping away from patronizing, mystic, or idealized visions of Tibet to speak with empathy and humor about the real challenges faced by Tibetans in the age of globalization.

teacher who let students take out braids: *Who You Claim* Robert Garot, 2010-02 2011 Honorable Mention for the American Sociological Association Community and Urban Section's Robert E. Park Book Award The color of clothing, the width of shoe laces, a pierced ear, certain brands of sneakers, the braiding of hair and many other features have long been seen as indicators of gang involvement. But it's not just what is worn, it's how: a hat tilted to the left or right, creases in pants, an ironed shirt not tucked in, baggy pants. For those who live in inner cities with a heavy gang presence, such highly stylized rules are not simply about fashion, but markers of who you claim, that is, who one affiliates with, and how one wishes to be seen. In this carefully researched ethnographic account, Robert Garot provides rich descriptions and compelling stories to demonstrate that gang identity is a carefully coordinated performance with many nuanced rules of style and presentation, and that gangs, like any other group or institution, must be constantly performed into being. Garot spent four years in and around one inner city alternative school in Southern California, conducting interviews and hanging out with students, teachers, and administrators. He shows that these young people are not simply scary thugs who always have been and always will be violent criminals, but that they constantly modulate ways of talking, walking, dressing, writing graffiti, wearing make-up, and hiding or revealing tattoos as ways to play with markers of identity. They obscure, reveal, and provide contradictory signals on a continuum, moving into, through, and out of gang affiliations as they mature, drop out, or graduate. *Who You Claim*

provides a rare look into young people's understandings of the meanings and contexts in which the magic of such identity work is made manifest.

teacher who let students take out braids: *Pencils Down* Wayne Au, Melissa Bollow Tempel, 2012 This powerful collection from the groundbreaking Rethinking Schools magazine takes high-stakes standardized tests to task. Despite overwhelming evidence that the tests are invalid ways to measure teaching and learning -- and continuing signs of their unjust effects on students and teachers -- reformers and policymakers continue to force high-stakes tests into the public schools. Through articles that provide thoughtful and emotional critiques from the frontlines of education, Pencils Down deconstructs the damage that standardized tests wreak on our education system and the human beings that populate it. Better yet, it offers visionary forms of assessment that are not only more authentic, but also more democratic, fair, and accurate.

teacher who let students take out braids: *Studying Diversity in Teacher Education* Arnetha F. Ball, Cynthia A. Tyson, 2011-01-16 Studying Diversity in Teacher Education is a collaborative effort by experts seeking to elucidate one of the most important issues facing education today. First, the volume examines historically persistent, yet unresolved issues in teacher education and presents research that is currently being done to address these issues. Second, it centers on research on diverse populations, bringing together both research on diversity and research on diversity in teacher education. The contributors present frameworks, perspectives and paradigms that have implications for reframing research on complex issues that are often ignored or treated too simplistically in teacher education literature. Concluding the volume with an agenda for future research and a guide for preparing teachers for diversity education in a global context, the contributors provide a solid foundation for all educators. Studying Diversity in Teacher Education is a vital resource for all those interested in diversity and education research.

This ground-breaking science fiction novel of Dystopian politics in an oddly familiar alien culture that pits gender "norm" against gender-bend in an age-old battle. Tathrelle is the only liberal in the Cabossian government. She represents the will of the people and is responsible for communicating with them about how the war with the Cavirii is going. She has a pregnant wife, and all seems well. The future seems promising, until she meets her new assistant. Something is off with the man. When Tathrelle wakes up the morning after she first met him, she notices that subtle changes seem to have taken place overnight. She shrugs them off. But it happens again and again. Someone, somehow, is changing everything she knows, as Tathrelle begins to wonder if her memories are faulty or if her mind is going. Can she trust the face she sees in the mirror? Is Caboss winning the war or losing it? Why is she suddenly the one who is pregnant? Only her dreams provide a clue, a small vestige of what came before. Trust your dreams, not your memory.

teacher who let students take out braids: *The Cypresses Believe in God* José María Gironella, 2005 Considered by many critics to be the greatest novel about the Spanish Civil War, this classic work by Spaniard Jose Maria Gironella is an unbiased account of the complicated events, movements and personalities that led up to the war. Beginning in 1931, Cypresses covers the next five years of political unrest, culminating in the explosion of the brutal war that wreaked such great havoc on Spain and its citizens. In his epic novel, both gripping and suspenseful, Gironella deftly portrays the human conflict, both internal and external. The most influential philosophical movements of the 20th century are embodied in various characters. Through them, the reader is introduced to every faction involved--anarchist, communist, Catholic, royalist, existentialist, and others.

teacher who let students take out braids: Tallgrass Sandra Dallas, 2007-04-03 An essential American novel from Sandra Dallas, an unparalleled writer of our history, and our deepest emotions... During World War II, a family finds life turned upside down when the government opens a Japanese internment camp in their small Colorado town. After a young girl is murdered, all eyes (and suspicions) turn to the newcomers, the interlopers, the strangers. This is Tallgrass as Rennie Stroud has never seen it before. She has just turned thirteen and, until this time, life has pretty much been what her father told her it should be: predictable and fair. But now the winds of change are coming and, with them, a shift in her perspective. And Rennie will discover secrets that can destroy even the most sacred things. Part thriller, part historical novel, Tallgrass is a riveting exploration of the darkest--and best--parts of the human heart.

teacher who let students take out braids: My Double Life 1 Nicholas Hagger, 2015-06-07 Lost in a dark wood like Dante, Nicholas Hagger tells the story of his search for meaning, purpose and truth that took him to Iraq and Japan, and encounters with Zen and China's Cultural Revolution, which he was the first to discover. In Libya, then a Cold-War battleground, he began four years' service and a double life as an undercover British intelligence agent (here revealed for the first time). He witnessed Gaddafi's Egyptian/Soviet-backed coup, and its terrifying aftermath tore into his personal life, plunged him into a Dark Night of the Soul and faced him with execution. He went on to serve in London as Prime Minister Edward Heath's "unofficial Ambassador" to the African liberation movements at the height of Soviet and Chinese expansion in Africa during the Cold War. Despite being routinely followed by surveillance squads he found Reality on a 'Mystic Way' of loss, purgation and illumination. He now perceived the universe as a unity, and had 16 experiences of the metaphysical Light.

teacher who let students take out braids: Let Nothing You Dismay Mark O'Donnell, 2011-07-20 In his brilliant new novel, the first since the widely enjoyed Getting Over Homer, Mark O'Donnell takes us on a wild and funny tour through the Christmas season's ultimate challenge: the day of too many parties. It's Christmas Eve Eve Eve Eve Eve in Manhattan--five days from the holiday Ground Zero--but Tad Leary, the most confused man on earth, doesn't know whether to celebrate or go crazy. He's just been fired, he's about to be evicted from his sublet, he's getting nowhere on his overdue folklore thesis, Social Hierarchies of Imaginary Places, and on top of everything else--or rather underneath everything else--at age thirty-four (older than Christ), he's five-foot-one and still baby-faced, so he's treated like a child wherever he goes. Nonetheless, he's been invited to seven (a magic number one of his rivals is writing a thesis about) different Christmas parties that day, and he decides to explore every one of them for possible work, apartments, love, and just plain distraction. Tad's a walking punch bowl of joy and fear, goodwill and alienation, running a constant mental argument with himself throughout his long marathon. By midnight, he will have visited all parts of his past--from brunch with his rumpled Boston Irish parents and arguably more successful brothers, to dinner with his beautiful Swedish ex-girlfriend, to a fancy, colossal uptown bash where, by now dangerously looped, he bumps into an ex-boyfriend (more confusion!) looking as glorious and golden as a roast turkey. A farcical, over-the-top feast of twisted one-liners and outrageous imagery, Let Nothing You Dismay depicts Tad's--and everyone's--struggle

for survival, with a bracing combination of Darwinian theory and hallucinatory fairy-tale wonder. It's a Chekhov story told with P. G. Wodehouse flippancy, or a tale of Celtic mysticism as S. J. Perelman might have rendered it. Above all, the bright spots in this darkest night of the soul prove that comical epiphany isn't just for Christmas anymore.
