Until he showed up and saved me. THREE DAYS Since I threw a drink at the man my father expected me to marry, then found myself slammed against a wall with Penn Everett's seductive voice whispering a proposal I couldn't refuse. THREE HOURS To fall into hate with the man who reminded me of so many things and hid so much behind his lies. He couldn't be the man who saved me three years ago...but there's something so familiar... THREE MINUTES For our relationship to switch from no-strings to marriage. He announced it to my father—he's ecstatic. He told my friends—they're shocked. But he didn't ask me, he commanded me—and I'm livid. THREE SECONDS For his lies to slowly steal my heart and make me believe, hope...trust. THREE BREATHS For his truth to destroy me. THRONE OF TRUTH TWO YEARS Since my life changed for the second time and not necessarily for the better. Two years since I traded prison bars for streets and hunted a runaway who I'd met in an alley. TWO DAYS Since I forgot how to lie, woke to fists, and chased after the girl who'd been stolen from me. TWO HOURS To save her, rescue her, keep my lies intact. She looks at me full of hate. I look at her full of confession. TWO MINUTES For our relationship to switch from mutual dislike to floundering with unknowns. I've hurt her. Now, she's hurt me. I guess we're even. TWO SECONDS For her to listen, to see, to finally know who I am. The answer comes with hardship. The answer isn't what she wants to hear. TWO BREATHS For me to walk out the door. TWO HEARTBEATS For it all to be over.

premiums go to cover 'lifestyle' activities. Lifestyle is therefore the largest category of discretionary spending with the potential of reducing our costs by up to this same 50%%. Lifestyle is also a far more accurate predictor of our future health care needs and social service requirements. This allows lifestyle to provide the best measure of planning & forecast over today's 'comparison shopping' models. ROOPA highlights the number of savings and other advantages gained from this dual track of lifestyle and its corresponding social costs models. The 'social cost' of obesity averages around \$150 billion a year. This comes to about 10 cents per item (of junk food). Every soda pop, hamburger and candy bar will now have this 10 cent premium. The more soda you drink, the more you have already paid into your own health coverage for obesity. It's the most affordable 'pay as you go' insurance plan. It cost a dime.

teacher sentenced for sleeping with student: Sexing the Teacher Sheila Cavanagh, 2007-05-10 *Sexing the Teacher* is a provocative study of public and professional responses to female teacher sex scandals in Canada, the United States and Britain. Sheila Cavanagh examines the moral and professional panic over sexual transgressions in the educational milieu by analyzing several sensationalized legal cases, including Mary Kay Letourneau, Amy Gehring, and Heather Ingram. Deploying queer theory, psychoanalysis, postcolonial theory, and feminist film theory, Cavanagh analyses deep-seated anxieties about white female teacher sexualities and offers a critique of the damage that gets done in the name of child protectionism. Arguing that foundational assumptions about race, gender, class, sexuality, and family are all central to the panic, Cavanagh questions the conventional wisdom and politics governing our conceptualization of sex scandals in education. She also demonstrates that public upset over female teacher sexual transgressions, ostensibly about child welfare, is also about the regulation of gender, heteronormative, and white reproductive futures: a hidden curriculum in Western educational systems. Timely, original, and controversial, *Sexing the Teacher* will appeal to scholars and students in education, sociology, gender, sexuality, and cultural studies, as well as to general readers interested in the sensationalism over school sex scandals that has dominated recent headlines.

teacher sentenced for sleeping with student: Gender Lessons Scott Richardson, 2015-06-17 Public schools in early America were designed to ensure the reproduction of Eurocentric social values. It could be argued that little has changed. *Gender Lessons* takes an in-depth look at how schools institutionalize gender—how kids are taught the rules and expectations of performing masculinity and femininity. This work provides extensive examples of how elementary, middle, and high schools: sextype; defend and preserve patriarchy; weave gendered expectations in all things school related; promote inequity; and limit their students' potential by explicitly and implicitly teaching that they must fit into only one of two boxes...“girl” or “boy.” Richardson argues that schools—a powerful and wide reaching publicly funded mechanism—should be engaged in social (re)imagination that disbands the antiquated girl/boy and feminine/masculine binary so that kids might have a chance at being themselves. This book is sure to provoke conversation in courses and professional communities interested in education, gender studies, social work, sociology, counseling and guidance. “In the 1970s, feminists fought to reform sexist school curricula and challenged taken-for-granted tracking of boys and girls. Forty years later, drawing from personal experiences and insightful research in schools, Scott Richardson shows us that the job is far from finished. Informal interactions and stubborn sexist beliefs about gender difference still press girls and boys in primary, middle and high schools into different—and highly constraining—gender boxes. Anyone who cares about taking the next steps toward gender equality in schools will find in *Gender Lessons* a useful and hopeful map to a better future for our kids.” – Michael A. Messner, Ph.D., Professor of Sociology and Gender Studies at the University of California, Berkeley and author of *Some Men: Feminist Allies and the Movement to End Violence Against Women* “This book is unique in that it includes data from elementary, middle, and high schools from both students' and teachers' perspectives. These examples are familiar to anyone working in K-12 schools, but his analysis offers a new lens for many that can expose the frustrating and often heartbreaking nature of these taken-for-granted cultural norms.” – Elizabeth J. Meyer, Ph.D., Assistant Professor of Education at

California Polytechnic State University and author of *Gender and Sexual Diversity in Schools*

teacher sentenced for sleeping with student: Juvenile Justice Laura L. Finley, 2007-08-30 Throughout U.S. history, attitudes toward young people have vacillated between fear of and fear for. These attitudes impact social programs for youth, including the system of juvenile justice. Attitudes are shaped by the socio-political and cultural climate of the times, and can be traced back to colonial times. However, changing mores and values often create confusion and conflict, resulting in ineffective strategies for preventing and responding to juvenile delinquency. Tracing the history of juvenile justice back to the pre-colonial era through the present day, Finley sheds light on just how we arrived where we are in terms of juvenile justice. She connects the competing attitudes about young people to the social, economic, and political changes of a given era, and offers recommendations for establishing more effective and more humane policies toward juveniles in the justice system. Early America is known for its harsh treatment of young people, most notably, the stubborn child laws, which authorized use of the death penalty for children who defied their parents. Yet, even then, many people held more nurturing attitudes toward youth. Thus originated the mixed messages in the U.S. regarding juvenile delinquency and the hodgepodge of approaches that follow. The establishment of the juvenile justice system, founded on the concept of *parens patriae*, or the state as parent, would seem to have settled the debate over how juvenile offenders should be treated. In reality, however, there remains much controversy over how best to handle juvenile offenders, especially those who commit the most serious offenses. While some still maintain juveniles are developmentally different and should be treated in ways consistent with these differences, others are dismayed at what they feel to be a system that is too lenient and that leads to higher juvenile crime rates and more serious offenses. With the advent of three strikes laws, curfew laws, boot camps, and referring juveniles to adult courts, and subsequently assigning them to adult prisons, many question just how we got to this place in juvenile justice. Here, Finley offers the history behind the controversial goals and development of the juvenile justice system, providing detailed descriptions of the major trends in juvenile justice. Addressing the most current aspects of the controversy, she also sheds light on issues of race, social class, and gender. Offering recommendations for addressing the weaknesses and confusion in the system, Finley offers a unique and compelling perspective on controversial subject.

teacher sentenced for sleeping with student: Into Abyssinia Carl E. Hansen, 2023-03-29 In this autobiographical book, the author gives an informative and lively account of the first eight years of his and his family's living and serving in pre-revolutionary feudal Ethiopia. It is a story of adventure as a novice missionary couple learns and adapts to a vastly different culture while raising a family in the less developed hinterlands. The events take place from 1967 to 1975, a pivotal time in Ethiopia's history; a time marked by growing discontent with feudalism and the ancient imperial regime that supported it. It was a time of growing turmoil that, in the midst of drought and famine, spilled over into an armed revolution; a time when ignorant men with guns over-powered the best minds and forced a tradition-bound society to join in a bloody experiment with radical socialism. It was a time when the slow and difficult years of missionary effort in planting the seeds of the Christian gospel began to sprout and take root and grow into what would become a mighty movement of transformation in that society.
