teacher student love relationship quotes: **Trust-Based Observations** Craig Randall, 2020-07-30 The results are in: observations are not improving teaching and learning. Pertinently, the Gates Foundation's recently completed effort to improve student outcomes through enhancing the teacher evaluation process failed to achieve substantive improvement. The way observations are currently designed serve as an obstacle to teacher risk-taking. Teachers fear negative evaluations when their pedagogy is rated, and they lack faith in being supported by supervisors because a trusting relationship between them and their observer has not been built. *Trust-Based Observations: Maximizing Teaching and Learning Growth* is a schema changing evaluation model that understands people perform at their best when they feel safe and supported. It begins with twelve, 20 minute observations per week followed by collegial conversations driven by reflective questions, sharing observed teaching strengths, and the building of safe and trusting relationships with teachers. Add the elimination of rating pedagogical skills and replace it with rating mindset, and teachers trust. When teachers fully embrace risk-taking and innovation, it leads to remarkable teaching transformations and improved student learning.

teacher student love relationship quotes: *Re/Presenting Gender and Love* Dikmen Yakali Çamoğlu, 2019-01-04 This volume was first published by Inter-Disciplinary Press in 2015. This volume presents interdisciplinary explorations aiming to understand the interaction and interconnection between the concepts of love and gender. Throughout the chapters, the reader can pursue various representations of gender and love and explore how their meanings are produced in different periods and geographies. These representations produce embodied individuals and shared meanings in which gender and love mutually construct each other. As you will see in the following chapters, what we set out to understand, most of the time, was not individual relationships but the relations of power. Thus, these essays show how gender and love are represented in various discourses; produced in knowledge – in philosophy, psychology, literature and popular culture; and regulated by the discursive practices and disciplinary techniques of different societies.

teacher student love relationship quotes: *Ennobling Love* C. Stephen Jaeger, 2010-08-03 Richard, Duke of Aquitaine, son of the King of England, remained with Philip, the King of France, who so honored him for so long that they ate every day at the same table and from the same dish, and at night their beds did not separate them. And the King of France loved him as his own soul; and they loved each other so much that the King of England was absolutely astonished at the vehement love between them and marveled at what it could mean. Public avowals of love between men were common from antiquity through the Middle Ages. What do these expressions leave to interpretation? An extraordinary amount, as Stephen Jaeger demonstrates. Unlike current efforts to read medieval culture through modern mores, Stephen Jaeger contends that love and sex in the Middle Ages relate to each other very differently than in the postmedieval period. Love was not only a mode of feeling and desiring, or an exclusively private sentiment, but a way of behaving and a social ideal. It was a form of aristocratic self-representation, its social function to show forth virtue in lovers, to raise their inner worth, to increase their honor and enhance their reputation. To judge from the number of royal love relationships documented, it seems normal, rather than exceptional, that a king loved his favorites, and the courtiers and advisors, clerical and lay, loved their superiors and each other. Jaeger makes an elaborate, accessible, and certain to be controversial, case for the centrality of friendship and love as aristocratic lay, clerical, and monastic ideals. *Ennobling Love* is a magisterial work, a book that charts the social constructions of passion and sexuality in our own times, no less than in the Middle Ages.

It also offers a variety of ways for classroom discussion to consider a representative sentence or two from a young adult novel, and from that allow students to connect to linked passages in the rest of the novel. These approaches for classroom discussion are drawn from a variety of contemplative traditions, including Jewish and Christian faith traditions and include florilegium, lectio divina, PaRDeS, Ignatian Imagination, havruta, and marginalia. Drawing from a range of in-class experiences, the authors explain each approach in the context of twelve popular and critically interesting young adult novels including *The Hate U Give*, *Long Way Down*, *Speak*, *The Poet X*, *The Fault in our Stars*, *Brown Girl Dreaming*, and others. While Levinas enjoys prominence in the philosophical and scholarly community, especially in Europe, there are few if any books or articles written that take Levinas's extremely difficult to understand, if not obtuse, philosophy and apply it to the everyday lives of real people struggling to give greater meaning and purpose, especially ethical meaning, to their personal lives. This book attempts to fill in the large gap in the Levinas literature, mainly through using a Levinasian-inspired, ethically-infused psychoanalytic approach.
