teacher takes students aka shirt: My Family and Other Hazards June Melby, 2014-07-08 A funny, heartwarming memoir about saying goodbye to your childhood home, in this case a quirky, one-of-a-kind, family-run miniature golf course in the woods of Wisconsin When June Melby was ten years old, her parents decided on a whim to buy the miniature golf course in the small Wisconsin town where they vacationed every summer. Without any business experience or outside employees, the family sets out to open Tom Thumb Miniature Golf to the public. Naturally, there are bumps along the way. In My Family and Other Hazards, Melby recreates all the squabbling, confusion, and ultimately triumph, of one family's quest to build something together, and brings to life the joys of one of America's favorite pastimes. In sharp, funny prose, we get the hazards that taunted players at each hole, and the dedication and hard work that went into each one's creation. All the familiar delights of summer are here—snowcones and popcorn and long days spent with people you love. Melby's relationship with the course is love-hate from the beginning, given the summer's freedom it robs her of, but when her parents decide to sell the course years later, her panicked reaction surprises even her. Now an adult living in Hollywood, having flown the Midwest long ago, she flies back to the course to help run it before the sale goes through, wondering if she should try to stop it. As the clock ticks, she reflects on what the course meant to her both as a child and an adult, the simpler era that it represents, and the particular pains of losing your childhood home, even years after you've left it.

teacher takes students aka shirt: *Giant Robot* Eric Nakamura, 2024-10-22 Celebrating the pop culture phenomenon that redefined what it meant to be Asian-American with tributes from Margaret Cho, Randall Park, Jia Tolentino, and more. Los Angeles, 1994. Two Asian-American punk rockers staple together the zine of their dreams featuring Sumo, Hong Kong Cinema and Osamu Tezuka. From the very margins of the DIY press and alternative culture, Giant Robot burst into the mainstream with over 60,000 copies in circulation annually at its peak. Giant Robot even popped right off the page, setting up a restaurant, gallery, and storefronts in LA, as well as galleries and stores in New York and San Francisco. As their influence grew in the 90s and 00s, Giant Robot was eventually invited to the White House by Barack Obama, to speak at Harvard University's Graduate School of Design, and to curate the GR Biennale at the Japanese American National Museum. Home to a host of unapologetically authentic perspectives bridging the bicultural gap between Asian and Asian-American pop culture, GR had the audacity to print such topics side-by-side, and become a touchstone for generations of artists, musicians, creators, and collectors of all kinds in a pre-social media era. Nowhere else were pieces on civil rights activists running next to articles on skateboarding and Sriracha. Toy collectors, cartoonists, and street style pioneers got as many column inches as Michelle Yeoh, Karen O, James Jean, and Haruki Murakami. *Giant Robot: Thirty Years of Defining Asian-American Pop Culture* features the best of the magazine's sixty-eight issue run alongside never-before-seen photographs, supplementary writing by long-term contributing journalist Claudine Ko, and tributes from now-famous fans who've been around since day one. Melancholically! Beautifully!—to the Russian Classics. No one who read Batuman's first article (in the journal *n+1*) will ever forget it. Babel in California told the true story of various human destinies intersecting at Stanford University during a conference about the enigmatic writer Isaac Babel. Over the course of several pages, Batuman managed to misplace Babel's last living relatives at the San Francisco airport, uncover Babel's secret influence on the making of King Kong, and introduce her readers to a new voice that was unpredictable, comic, humane, ironic, charming, poignant, and completely, unpretentiously full of love for literature. Batuman's subsequent pieces—for *The New Yorker*, *Harper's Magazine*, and the *London Review of Books*—have made her one of the most sought-after and admired writers of her generation, and its best traveling companion. In *The Possessed* we watch her investigate a possible murder at Tolstoy's ancestral estate. We go with her to Stanford, Switzerland, and St. Petersburg; retrace Pushkin's wanderings in the Caucasus; learn why Old Uzbek has one hundred different words for crying; and see an eighteenth-century ice palace reconstructed on the Neva. Love and the novel, the individual in history, the existential plight of the graduate student: all find their place in *The Possessed*. Literally and metaphorically following the footsteps of her favorite authors, Batuman searches for the answers to the big questions in the details of lived experience, combining fresh readings of the great Russians, from Pushkin to Platonov, with the sad and funny stories of the lives they continue to influence—including her own.
