years as a General Authority of the Church—as a member of the Quorum of the Twelve, as a Counselor to four Church Presidents, and for 17 years as the President of the Church. He taught the restored gospel of Jesus Christ with eloquence, tenderness, and conviction, calling for the people to “live in harmony with the designs of our Heavenly Father.” His ministry was marked by his powerful witness of Jesus Christ: “I have received the witness of the Spirit in my own heart, and I testify before God, angels and men... that I know that my Redeemer lives.” Today his messages and sermons continue to give divine direction on our path of eternal progress. Our work in this world, said President Smith, “is to do good, to put down iniquity under our feet, to exalt righteousness, purity, and holiness in the hearts of the people, and to establish in the minds of our children, above all other things, a love for God and his word.” He declared that “to be a Latter-day Saint requires the sacrifice of worldly aims and pleasures; it requires fidelity, strength of character, love of truth, integrity to principle, and zealous desire to see the triumphant, forward march of truth.” The First Presidency and Quorum of the Twelve Apostles have established the series Teachings of Presidents of the Church to help Church members deepen their understanding of gospel doctrines and draw closer to Jesus Christ through the teachings of the prophets in this dispensation. When people understand the gospel of Jesus Christ, you will see them walking straightforward, according to the word of the Lord, and the law of God, strictly in accordance with that which is consistent, just, righteous, and in every sense acceptable to the Lord.” Each chapter in this book includes four sections: (1) a statement that briefly summarizes the focus of the chapter; (2) “From the Life of Joseph F. Smith,” which illustrates the chapter’s teachings by an example from President Smith’s life or his wisdom; (3) “Teachings of Joseph F. It's clear that their influence is still growing in our communities, places of business, and in the political arena. With more than six decades of combined experience, the authors tackle such tough questions as: Why don't you accept Mormons as Christians? Do you believe Mormonism is a cult? If the LDS church is not true, which church is? How can you explain the many contradictions found throughout the Bible? After offering analysis and responses to these and other questions, McKeever and Johnson provide helpful appendices that summarize Mormon beliefs, provide 101 Bible references to use in conversation, and expose common logical fallacies. teachings of presidents of the church: The Seeker's Guide to Faith J. Peter Baumgarten, 2020-11-23 The Seeker's Guide to Faith confronts and answers the thirteen principal arguments against God that are now advanced by modern secularist movement (sometimes called New Atheism) using the powerful insights and teachings of The Church of Jesus Christ of Latter-day Saints. There are many books written to encourage faith for people who are experiencing doubts about God generally. However, this book is the only one of its kind by a Latter-day Saint author that directly and specifically challenges all the main arguments against faith in God that are now aggressively asserted by the belligerent modern secular movement. Its uniqueness is enhanced by the fact that the doctrines and teachings of The Church of Jesus Christ of Latter-day Saints are used whenever applicable to effectively answer the challenges raised by this movement. This author believes that the unique teachings and insights of the Church are better suited than those of any other faith for answering those challenges. Furthermore, the author's professional and volunteer activities have afforded him the opportunity to know and work with people of nearly all religious backgrounds, in nearly all walks of life. Recent experiences have led him to examine the reasons many apparently intelligent people reject faith. His legal background and training have aided him in spotting and understanding the weaknesses and flaws of the logical underpinnings of atheism. His Gospel upbringing as a member of The Church of Jesus Christ of Latter-day Saints has helped him see through the fog of the dogma and arguments of atheism to the "More Excellent Way" afforded by the Gospel's plan of happiness. He hopes The Seeker's Guide to Faith will help others who stand at the crossroads of their doubts to find their faith in Heavenly Father and His Son, Jesus Christ.

teachings of presidents of the church: O Wondrous Plan J. Peter Baumgarten, 2025-07-11 The idea of predestination, which seems to have a scriptural basis, is actually a Trojan horse. While appearing to many to be a gift of grace, it is actually full of deceptions and completely inconsistent to the plan of salvation-holding that man has no free choice and that God has already selected a favored few of his children for salvation while committing the rest (most of mankind) to damnation, regardless of merit. To explore this subject with maximum clarity, I will present the doctrine of predestination in sharp relief to the true doctrines of the wondrous plan of salvation for all mankind. This presentation includes a detailed description of what the doctrine consists of, its origin and history, the scriptural authority referenced to support the doctrine, its implications, and a discussion of how and why the idea of predestination is inconsistent and at odds with the gospel of Jesus Christ. To better introduce this subject, I begin the first chapter of this book with a personal experience-an experience that heightened my own awareness of the issue.
