who wrote jack and diet coke: *Jack Be Quick* Donald A. Moses, Donald A. Moses MD, 2007-10 Sociopathic individuals are rampant in our society. They can be likeable people, who we are inclined to trust as they are able to hide their disdain and disregard for others. In *Jack Be Quick*, I have used my psychiatric expertise to create characters who fit the sociopathic profile and initially leave the other characters, and therefore the readers, confused as to their true personality and motivations. Michael Marshall, a wealthy and obviously unscrupulous industrialist, is murdered. A short time later, his widow, Jill, comes to see Dr. Daniel Cooper, a psychiatrist, ostensibly to help her overcome her depression resulting from her husband's murder. Jill expresses doubts to Dr. Cooper, and eventually to Captain Jack DeAngelis, head of the homicide division, as to whether Michael's death was murder with robbery as the motive. Initially, no one suspects that Jill, an attractive woman of

apparent refinement, could be guilty of duplicity in the murder. Through many twists and turns, including the murders of Marshall's accountant and private banker, the involvement of the mob, and the smuggling of drugs, the involvement of Jill becomes clear. Her sociopathic ability to worm her way out of this dilemma fools even the best detectives, but perhaps not the most cunning reader? Jack Be Quick is a murder mystery as well as an intriguing study about the complexities of the human mind.

who wrote jack and diet coke: Encyclopedia of Junk Food and Fast Food Andrew F. Smith, 2006-08-30 Eating junk food and fast food is a great all-American passion. American kids and grownups love their candy bars, Big Macs and supersized fries, Doritos, Twinkies, and Good Humor ice cream bars. The disastrous health effects from the enormous appetite for these processed fat- and sugar-loaded foods are well publicized now. This was particularly dramatically evidenced by Super Size Me (2004), filmmaker Morgan Spurlock's 30-day all-McDonald's diet in which his liver suffered the same poisoning as if he had been on an extended alcohol binge. Through increased globalization, American popular food culture is being increasingly emulated elsewhere in the world, such as China, with the potential for similar disastrous consequences. This A-to-Z reference is the first to focus on the junk food and fast food phenomena from a multitude of angles in addition to health and diet concerns. More than 250 essay entries objectively explore the scope of the topics to illuminate the American way through products, corporations and entrepreneurs, social history, popular culture, organizations, issues, politics, commercialism and consumerism, and much more. Interest in these topics is high. This informative and fascinating work, with entries on current controversies such as mad cow disease and factory farming, the food pyramid, movie tie-ins, and marketing to children, will be highly useful for reports, research, and browsing. It takes readers behind the scenes, examining the significance of such things as uniforms, training, packaging, and franchising. Readers of every age will also enjoy the nostalgia factor, learning about the background of iconic drive-ins, the story behind the mascots, facts about their favorite candy bar, and collectables. Each entry ends with suggested reading. Besides an introduction, a timeline, glossary, bibliography, resource guide, and photos enhance the text. who wrote jack and diet coke: *Jack Sh*t 2: Wait for the Movie, It's in Color* Barry Friedman, Jack Sh*t 2: Wait for the Movie, It's in Color is the second installment (there will be three) in the life of my father, Jack Friedman. "Pushing 90"—that's how he described the last half of his 80s. Still in good health, he moved to Tulsa, Oklahoma, albeit kicking and screaming. "He dragged me here!" he'd say, pointing to me, to those who'd ask and those who didn't. He wasn't completely wrong. Before, three, four times per year I'd fly to Vegas to help him find the lost icons on his desktop, change the oil in a car he should no longer be permitted to drive, organize his seven antihypertensive medicines into plastic dispensers, and occasionally find long-forgotten liquified potatoes. For all his ebullience and energy, my father was, in fact, pushing 90, and men that age have strokes and get lonely and forgetful and yell at those who, according to him, moved the roads. He needed to be closer to me. He needed someone to drive him to Panera. When the time came, I thought, better for him to die across town than in a nursing home in Vegas. His dementia when he arrived in Tulsa just visited occasionally. It was parenthetical, enlightening, and often marked by brilliant non-sequiturs. In time, that would change. But during these early years in Tulsa, Jack Friedman was still very much Jack Friedman.

who wrote jack and diet coke: *As Heard on TV: Popular Music in Advertising* Dr Bethany Klein, 2013-01-28 The use of popular music in advertising represents one of the most pervasive mergers of cultural and commercial objectives in the modern age. Steady public response to popular music in television commercials, ranging from the celebratory to the outraged, highlights both unresolved tensions around such partnerships and the need to unpack the complex issues behind everyday media practice. Through an analysis of press coverage and interviews with musicians, music supervisors, advertising creatives, and licensing managers, *As Heard on TV* considers the industrial changes that have provided a foundation for the increased use of popular music in advertising, and explores the critical issues and debates surrounding media alliances that blur cultural ambitions with commercial goals. The practice of licensing popular music for advertising revisits and continues a number of themes in cultural and media studies, among them the connection between authorship and ownership in popular music, the legitimization of advertising as art, industrial transformations in radio and music, the role of music in branding, and the restructuring of meaning that results from commercial exploitation of popular music. *As Heard on TV* addresses

these topics by exploring cases involving artists from the Beatles to the Shins and various dominant corporations of the last half-century. As one example within a wider debate about the role of commerce in the production of culture, the use of popular music in advertising provides an entry point through which a range of practices can be understood and interrogated. This book attends to the relationship between popular culture and corporate power in its complicated variation: at times mutually beneficial and playfully suspicious of constructed boundaries, and at others conceived in strain and symbolic of the triumph of hypercommercialism.

who wrote jack and diet coke: Getting Over Jack Wagner Elise Juska, 2003-03-18 Where are all the real rock stars? Eliza is looking to date a rock star -- though she uses the term loosely. None of her boyfriends have been famous. Most have unbearable habits and overbearing mothers. A few only played show tunes. Still, they're intense. Pierced. Tragically stubbled. With a predilection for dressing in black. Eliza finds them deep -- in theory, anyway. But in reality, none comes close to the object of her original rock-star crush: actor/crooner Jack Wagner. When her latest catch turns out to be another mama's boy, Eliza begins to realize love is nothing like her favorite '80s song. Is she ready to face the music? Just as Eliza is planning her next move, she's dealt an emotional triple-whammy involving her sister, her best friend, and a horrific blind date. That's when she realizes that only by taking a good look at her past -- and her tape collection -- will she ever be able to hear a different kind of song and live a different kind of life.
