women s history month 2024 logo: *Gimme a Crisis* Howard Green, 2025-10-07 Bestselling author Howard Green profiles former Scotiabank CEO Rick Waugh and sketches an unprecedented and up-close picture of what it is like to run a global bank, often during financial chaos, while leading more than 80,000 employees in more than fifty countries. From navigating a violent economic default and loss in Argentina and a bail-out of the Dominican Republic to surviving the global financial crisis, actively promoting women in banking, and helping secure the NBA's Raptors for Toronto, Rick Waugh was in the room. Green captures the riveting stories, intense conflicts, and pivotal moments that occurred at one of Canada's biggest banks, a significant player in international finance. Waugh's clear-eyed approach to managing risk offers lessons for steering through economic uncertainty, lessons that will be increasingly relevant as we enter a new era of global insecurity. women s history month 2024 logo: Social Equity in a Post-Roe America Lorenda A. Naylor, Heather Wyatt-Nichol, 2024-04-30 Despite hundreds of federal laws and U.S. Supreme Court decisions prohibiting discrimination based on sex and race, American women and people of color continue to face pervasive individual and structural discrimination. Women often lack equal pay for equal work, affordable childcare, and paid family medical leave. Following the overturning of Roe vs. Wade, safe, legal abortion has become inaccessible in approximately half the country, disproportionately impacting poor women. Women and people of color are underrepresented in elected offices at the federal and state levels, and the voting rights of people of color continue to be eroded. Employing a public administration framework, *Social Equity in a Post-Roe America* documents the scope and breadth of inequality in the United States, linking social equity to sex, race, and the rule of law. This insightful and provocative new book examines U.S. Supreme Court decisions and federal statutes across four public policy domains that increasingly influence U.S. democracy and impact the lives of American women. These policy domains consist of political representation, which includes citizenship and voting rights, contraception, abortion, and employment. *Social Equity in a Post-Roe America* offers policy recommendations to increase equitable access and equal opportunity for women and people of color. It is required reading for all students of public administration, public policy, and political science, as well as for engaged citizens.

women s history month 2024 logo: EVE, A SERPENT, AND A WOMAN'S PLACE Geoffrey W. Sutton, 2025-02-11 The purpose of *Eve, A Serpent, and a Woman's Place* is to extend the exploration of the relationship between Christianity and psychology beyond the first volume in the series titled *Apes, Adam, and an Ark*, which reviewed various Christian and psychological perspectives on God's creation of the cosmos, the creation or evolution of life, and God's widespread destruction of life in the massive flood only a few chapters into the Bible. This volume begins with the story of Eve and her encounter with a talking snake, which provides a foundation for the way ancient men and contemporary Christians view the relationship between women and men as well as appropriate roles for women in Christian ministry. For thousands of years men have viewed women as wives, mothers, and helpers rather than leaders, pastors, supervisors, teachers, warriors, or professionals. Soon after Eve, divine laws would govern the lives of ancient women and their relationships to God and men. Many stories offer glimpses into the biblical worldview of women that would provide a framework for the Christian era. My purpose in writing this book is to examine the similarities and differences among those components of Christian worldviews that indicate such a limited role for the daughters of Eve. I conclude by considering which Christian perspectives hold the potential for relating well with the worldviews of societies that have drawn upon evidence-based discoveries, including those from psychology, to embrace women as equals, respect them as leaders, and welcome them to places previously set aside for men.

women s history month 2024 logo: The Gender of Things Maria Rentetzi, 2023-09-29 The *Gender of Things* is a highly interdisciplinary book that explores the power relationship between gender and the material culture of technoscience, addressing a seemingly straightforward question: How does a thing—such as a spacesuit, a humanoid robot, or a surgical instrument—become a gendered object? These 14 short chapters cover an original selection of “things”: from cosmeceuticals to early motor scooters, from Scrum boards to border walls, and from robots to the human body and its parts. By historically examining how significance has been attached to specific things and how things were designed and produced, the chapters reveal how the concept of gender has been embedded and finds expression in the material world of science and technology. With insights from science and technology studies (STS), anthropology, the history of ergonomics, museum studies, the history of science, technology, and medicine but also the philosophy and sociology of technology and feminist new materialism, this collection reminds us that our material creations not only bear knowledge about our world. The *Gender of Things* will be of key interest to undergraduate and graduate students and research scholars of STS as well as gender studies. The Introduction and Chapter 4 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

Martin, 2025-09-23 This collection of interviews with Julie Dash (b. 1952) offers an in-depth exploration of the life, career, and creative processes of one of the most groundbreaking filmmakers in American cinema. Dash, whose landmark film *Daughters of the Dust* (1991) became the first feature by an African American woman to receive a wide theatrical release in the United States, has continuously pushed the boundaries of cinematic representation, exploring African American history, culture, and identity through a distinctly poetic and visionary lens. Dash's use of Black feminist narrative and her ability to supplant the status quo of Black women's representation in cinema aligned with the evolution of Black women's writing and visual arts that exploded in the eighties and early nineties. Starting with her

debut film *Illusions* (1982) and touching upon other works such as *Praise House* (1991), the eighteen interviews collected in this volume weave together the stylistic integrity and unconventional model of storytelling that Dash thoughtfully midwives into existence. *Julie Dash: Interviews* will put students, scholars, and admirers of Dash's oeuvre in close proximity to her creative thought process and influences as well as make accessible an archive of conversations in which she discusses the longevity of her career, intergenerational shifts, and the reception of her work across the globe.
