Drawing upon the consciousness-raising techniques of the women's liberation movement, they created shocking new art forms depicting female experiences. Collaborative work and performance art - including the famous Cunt Cheerleaders - were program hallmarks. Moving to Los Angeles, the FAP produced the first major feminist art installation, Womanhouse (1972). Augmented by thirty-seven illustrations and color plates, this interdisciplinary collection of essays by artists and scholars, many of whom were eye witnesses to landmark events, relates how feminists produced vibrant bodies of art in Fresno and other locales where similar collaborations flourished. Articles on topics such as African American artists in New York and Los Angeles, San Francisco's Las Mujeres Muralistas and Asian American Women Artists Association, and exhibitions in Taiwan and Italy showcase the artistic trajectories that destabilized traditional theories and practices and reshaped the art world. An engaging editor's introduction explains how feminist art emerged within the powerful women's movement that transformed America. women s history month images: The Religion of Thinness Michelle Mary Lelwica, 2013-10-18 With so many women approaching their diets, body image, and pursuit of a slender figure with slavish devotion, *The Religion of Thinness* is a timely addition to the discussion of our cultural obsession with weight loss. At the heart of this obsession is the belief that in order to be happy, one must be slim, and the attendant myths, rituals, images, and moral codes can leave some women with severe emotional damage. Idealized images in the media inspire devotees of this "religion" to experience guilt for behaviors that are biologically normal and necessary, and Lelwica

offers two ways to combat this dangerous cultural message. Advising readers to look hard at the societal cues that cause them to obsess about their weight, and to remain mindful about their actions and needs, this book will not only help stop the cycle of guilt and shame associated with food, it will help readers to grow and accept their bodies as they are.

women s history month images: *Language and Image in the Reading-Writing Classroom* Kristie S. Fleckenstein, Linda T. Calendrillo, Demetrice A. Worley, 2002-02-01 This volume offers concrete answers to the question of how we can use imagery to enrich the teaching of reading and writing. The chapters are organized according to two guiding principles. First, each addresses specific aspects of the inextricable integration of imagery and language in the teaching of reading and writing. Imagery is not privileged over language; the fusion of the two is emphasized. Second, each focuses on a particular kind of imagery--mental, graphic, or verbal--describing teaching/learning strategies based on the deployment of that kind of imagery in the classroom. There is currently a renewed acknowledgment of the importance of imagery in meaning. The rapid spread of the World Wide Web, computer interfacing, and virtual reality further highlights the need to attend to the influence of imagery in a networked world. In response to these shifts in scholarly and cultural perspectives, NCTE has established a committee on visual literacy, and an emphasis on visual literacy has been incorporated into the IRA/NCTE Standards for the English Language Arts. This book contributes significantly toward filling the need for explicit and specific theory-based methods teachers can use to integrate imagery into their pedagogy. Accessible and lively chapters include classroom activities and student-generated examples. *Language and Image in the Reading-Writing Classroom* is an excellent text for preservice and in-service pedagogy courses and an important resource for practicing teachers, researchers, and professionals in the field.

women s history month images: Hidden Buddhas (Large Print 16pt) Liza Dalby, 2010-06 *Hidden Buddhas* may well be Liza Dalby's best work yet; with its fascinating story of characters caught up in a world they themselves don't understand. Besides taking us on a journey through little-known corners of Japan, it offers us an engaging and believable portrait of people driven to do things they may not have imagined." - Arthur Golden, author of *Memoirs of a Geisha* According to Buddhist theology, the world is suffering through a final corrupt era called mapp. As mapp continues, chaos will increase until the center can no longer hold. Then the world will end. In Japan, many believe that Miroku, Buddha of the Future, will appear and bring about a new age of enlightenment. From this ancient notion of doom and rebirth comes a startling new novel by the acclaimed author of *Geisha* and *The Tale of Murasaki*. Hundreds of temples in Japan are known to keep mysterious "hidden buddhas" secreted away except on rare designated viewing days. These statues are not hidden because they are powerful - their power lies in their being hidden. Are they being protected, or are they protecting the world? In this novel, one Buddhist priest struggles with the dictates of his inherited orthodoxy, while another rebels. An American graduate student begins to suspect the mysterious purpose of the hidden buddhas, just as he falls in love with a beautiful Japanese artist who is haunted by an aborted child. The weaving of karma that brings these two together results in a tech-savvy half-Western, half-Japanese child who text-messages her way through the profane world to enlightenment. Tracing the lives of its characters through the late twentieth century to the present, from Paris to Kyoto to California, *Hidden Buddhas* turns a cosmopolitan eye on discipline and decadence in religion, fashion, politics, and modern life. Liza Dalby is an anthropologist and writer specializing in Japan. She lives in Berkeley, California.

women s history month images: Women of Color in the Aviation Industry Shannon McLoughlin Morrison, 2023-08-04 *Women of Color in the Aviation Industry* offers a critical look at the reasons why the aviation industry remains underrepresented with minoritized groups,

particularly women of color. Despite the increased efforts to advocate for diversity, equity, and inclusion within the industry, the diversity of its employees remains stagnant. Through interviews and conversations with a number of women of color, this book argues that the industry is not doing enough to create and sustain a more equitable workforce. In this book, readers will discover why less than 4% of qualified, commercial airline pilots are women, and of that, less than 1% are Black women. The numbers of Latinx, Indigenous people, Asian, and other people of color working in the aviation industry are lacking. This book explores how the aviation industry often fails to incorporate the experiences of women of color when developing and implementing diversity, equity, and inclusion initiatives, and offers different perspectives on why it remains challenging to recruit and retain minoritized people to the industry. By bringing in the experiences of a variety of women, this book asks readers to reflect on what it means for an organization to describe itself as one that supports diversity, equity, and inclusion. This timely, important book is a valuable resource for a wide spectrum of researchers and students in aviation as well as gender, race, and ethnic studies. Whilst the examples in this book serve as a case study for aviation, it can be used to examine other fields encountering similar challenges in creating a more equitable workforce.

women s history month images: From the Dress-Up Corner to the Senior Prom Jennifer Bryan, 2012-03-22 Very few PreK-12 teachers are adequately trained to address the gender identity and sexual identity of their students in a developmentally-appropriate and pedagogically-sound manner. women s history month images: Voices of the Sacred Feminine Karen Tate, 2014-11-28 Most of us have come to realize patriarchy - rule by a male-dominated society revering solely a male God - is not working for Mother Earth or most of the people on the planet. How do we counter beliefs that there is no option but the authoritarian father? How does society go about making a course correction? How do ideas that permeate every level of society from womb to tomb, boardroom to bedroom, voting booth to the workplace shift into a more fair, equal, and just world of partnership, sharing, caring and peace? Those are exactly the questions discussed on the long-running radio show, /Voices of the Sacred Feminine/, hosted by Rev. Dr. Karen Tate in her show dedicated to the Sacred Feminine as deity, archetype and ideal. Never before has an internet radio show cast such a wide net to include so many voices whose ideals are in alignment with “sacred feminine liberation theology.” If we can imagine it, vision it, and restore ancient truths swept beneath the rug and kicked to the curb by patriarchy, then we can manifest it! Hear solutions from these visionaries, scholars, wayshowers, foremothers and activists - women and men - dedicated to reshaping our world... women s history month images: Women, Gender, and History Education Marie-Hélène Brunet, Kristina R. Llewellyn, Rose Fine-Meyer, 2024-11-07 This is the first edited collection to focus on women, gender, and history education in Canada. The aim of this edited collection is threefold: to offer a historical analysis of women and gender in K-12 teaching and learning of history; to provide an examination of women and gender in relation to contemporary pedagogy, curriculum, and resources in K-12 history education and teacher education; and, to explore the future of history education when informed by intersectional feminism and gender theory. Readers are introduced to the ways in which women’s historical narratives have been repeatedly marginalized, despite the efforts of feminist activists and educators. This collection is the beginning of a long overdue

conversation about women and gender in how we teach and learn about the past.
