wordpress development company in dubai: Implementing Takaful in India Syed Ahmed Salman, 2021-10-07 This book encourages insurance companies and regulators to explore offering Islamic insurance to boost the insurance industry in India. wordpress development company in dubai: Arab Human Development in the Twenty-first Century Bahgat Korany, 2014-10-01 With its emphasis on the primacy of change, this study arrives at a particularly auspicious moment, as the Middle East continues to be convulsed by the greatest upheavals in generations, which have come to be known as the Arab Spring. Originally prepared as the tenth-anniversary volume of the UNDP's Arab Human Development Report, Arab Human Development in the Twenty-first Century places empowerment at the center of human development in the Arab world, viewing it not only from the vantage point of a more equitable distribution of economic resources but also of fundamental legal, educational, and political reform. The ten chapters in this book follow closely this political economy framework. They look back at what Arab countries have achieved since the early 2000s and forward to what remains to be done to reach full development. Supported by a wealth of statistical material, they cover the rule of law, the evolution of media, the persistence of corruption, the draining of resources through armed conflict, the dominance and increase of poverty, the environment, and religious education. The concluding chapter attempts an inventory of the world literature and different experiences on democratic transition to explore where the region could be heading. This critical and timely study is indispensable reading to development specialists and to Middle East scholars and students alike, as well as to anyone with an interest in the future trajectory of the region.

wordpress development company in dubai: Tourism in the Green Economy Maharaj Vijay Reddy, Keith Wilkes, 2015-06-05 The concept of the green economy has now entered mainstream policy debates and been endorsed by a range of United Nations and other organizations. The Rio+20 UN conference specifically drew attention to the green economy approach in the context of sustainable development to move away from business-as-usual practices, act to end poverty, address

environmental destruction and build a bridge to the sustainable future. It is increasingly recognized that the tourism sector can make a major contribution to the green economy through more sustainable practices, climate change mitigation and ecotourism. The role of tourism sector will continue to be crucial in the post-2015 sustainable development agenda too. However, there are ambiguities about how tourism and allied industries can maximize their contribution to human well-being and ensure environmentally sustainability, embracing issues of political economy, geography and business ethics. In this context, this book provides consensus about what the green economy entails, what role tourism can play in a green economy, early responses from many countries, on-going and emerging research initiatives that will enable tourism's transition to a green economy. The chapters address three key themes: understanding the Green Economy concept and the role of tourism; responses and initiatives in greening tourism; and emerging techniques and research implications. A wide range of case studies from around the world and in different contexts is included to demonstrate the extent of the challenge and range of opportunities for the tourism industry.

wordpress development company in dubai: *Unsettling Colonial Modernity in Islamicate Contexts* Kara Adbolmaleki, Roxana Akhbari, Siavash Saffari, 2017-05-11 By focusing on colonial histories and legacies, this edited volume breaks new ground in studying modernity in Islamicate contexts. From a range of disciplinary perspectives, the authors probe 'colonial modernity' as a condition whose introduction into Islamicate contexts was facilitated historically by European encroachment into South Asia, the Middle East, and Northern Africa. They also analyze the various modes through which, in Europe itself, and in North America by extension, people from Islamicate contexts have been, and continue to be, otherized in the constitution and advancement of the project of modernity. The book further brings to light a multiplicity of social, political, cultural, and aesthetic modes of resistance aimed at subverting and unsettling colonial modernity in both Muslim-majority and diasporic contexts.

wordpress development company in dubai: The Right Place Arturo Bris, 2021-07-28
The Right Place explains why firms succeed in one country and fail in another, irrespective of their inner drivers, and suggests potential initiatives that governments can take to help the private sector create jobs and, consequently, make their countries more prosperous. The competitiveness race is not unlike a cycling race. If you want to ride fast, you need three things: a good bike, to be in good shape, and a smooth and fast road. In a collaborative model, you might say the business is the bicycle, the business leader is the cyclist, and the road is the government and the external environment. The responsibility of a government is to design and build the best possible road. It turns out that when the road is good, good cyclists suddenly appear and want to race on it. In this book, competition and macroeconomics expert, Arturo Bris, provides the analysis of country competitive performance based on 30 years advising countries on this topic. The typical mistakes that countries make are revealed and the pillars necessary in building a competitive economy: economic performance as a necessary condition for prosperity; government efficiency, so the public sector can create the conditions for a productive economy; business efficiency, so companies can create jobs; and infrastructure, both tangible and intangible, so businesses and individuals can operate efficiently. With contemporary case studies throughout, the book provides an illuminating read for politicians, business leaders and students of macroeconomics.

wordpress development company in dubai: Hostile Business and the Sovereign State Michael J. Strauss, 2018-12-14 This book describes and assesses an emerging threat to states' territorial control and sovereignty: the hostile control of companies that carry out privatized aspects of sovereign authority. The threat arises from the massive worldwide shift of state activities to the private sector since the late 1970s in conjunction with two other modern trends - the globalization of business and the liberalization of international capital flows. The work introduces three new concepts: firstly, the rise of companies that handle privatized activities, and the associated advent of post-government companies that make such activities their core business. Control of them may reside with individual investors, other companies or investment funds, or it may reside with other states through state-owned enterprises or sovereign wealth funds. Secondly, imperfect privatizations: when a state privatizes an activity to another state's public sector. The book identifies cases where this is happening. It also elaborates on how ownership and influence of companies that perform privatized functions may not be transparent, and can pass to inherently hostile actors, including criminal or terrorist organizations. Thirdly, belligerent companies, whose conduct is hostile to those of states where they are active. The book concludes by assessing the adequacy of existing legal and regulatory regimes and how relevant norms may evolve.

wordpress development company in dubai: Imperii islamice Justin Marozzi, 2021-08-05 O istorie a civilizațiilor bogate ale islamului spusă prin intermediul celor mai importante orașe ale imperiilor islamice Civilizația islamică a fost cândva invidiată de întreaga lume. Printr-o succesiune de capitale sclipitoare, cosmopolite, imperiile islamice au dominat Orientul Mijlociu, Africa de Nord, Asia Centrală și multe părți ale subcontinentului indian, în timp ce Europa privea cu lașitate de pe margini. Secole la rând, califatul a fost victorios atât pe câmpul de luptă, cât și în bătălia ideilor, orașele sale aveau o grandoare artistică de neegalat, putere comercială, sfințenie spirituală și gândire orientată spre viitor, în care nimic nu era de neatins. Imperii islamice este o istorie a acestor civilizații bogate și variate, de-a lungul a cincisprezece ani, începând cu Mecca, în secolul al VII-lea, și până la ascensiunea uluitoare a orașului Doha, în secolul XXI. Justin Marozzi unește cu inteligență punctele definitorii ale istoriei islamice: de la momentul în care profetul Mahomed a primit revelația divină la Mecca, Prima Cruciadă și Căderea Constantinopolului din 1453 până la crearea republicii mercantile Beirut în secolul al XIX-lea și dezvoltarea orașului Dubai în secolul XX. „Remarcabilă! Marozzi este cel mai bun scriitor de călătorie din noua generație.” Sunday Telegraph „Marozzi combină jurnalul de călătorie cu istoria în această colecție fluidă și bogată de vinete despre marile orașe ale civilizației islamice. Amploarea și detaliul cercetării lui oferă o bine-venită variație la

perspectiva tipică asupra istoriei islamului.” Publishers Weekly „O schimbare de la tonul deseori posomorât al literaturii despre această zonă” The Economist „Marozzi este un scriitor desăvârșit și ambițios. Ultima sa lucrare, Imperii islamice, este o relatare zdrobitoare, vibrantă și adesea ireversibilă a celor mai emblematice orașe ale islamului de la începutul acestei religii. Asemenea unui colecționar erudit, el adună materiale din fiecare sursă disponibilă – texte principale, atât religioase, cât și istorice, pre cum și o abundență de texte secundare – și le împletește pe toate cu dexteritate.” Wall Street Journal „Este plăcut să citești o carte despre islam scrisă de cineva care combină o erudiție profundă cu inteligență emoțională și empatie [...] O lectură plăcută de la prima până la ultima pagină.” Financial Times „Justin Marozzi este o raritate prețioasă – un călător critic care este și un scriitor cu un simț minunat al limbii, un talent al povestirii și o sensibilitate și o subtilitate de invidiat.” William Dalrymple, istoric JUSTIN MAROZZI a fost corespondent extern pentru Financial Times și The Economist și a trăit o bună perioadă din viață în Irak, Libia, Pakistan, Egipt, Maroc, Siria, Liban și Tunisia. Printre cărțile scrise de el se numără South from Barbary (La sud de berberi) (2001), Tamerlane (2004) și The Man Who Invented History (Omul care a inventat istoria) (2008). Cartea sa Baghdad: City of Peace, City of Blood (Bagdad: Orașul Păcii, Orașul Sângelui) (2014) a câștigat Premiul Ondaatje al Societății Regale de Literatură.
